The Boys' Brigade.
The average boy doesn't care very much for the average Sunday school, although the average boy is just the person the average Sunday school is after. The boy's lack of interest has been no secret for a long time, and various methods of arousing something like enthusiasm on his part have been resorted to with more or less success, the gauge of the interest aroused generally being the novelty of the method adopted.

This was the reason of the origin of the Boys' Brigade. It started in Glasgow about ten years ago. Mr. William A. Smith was its originator. He was interested in Sunday school work and devoted a great deal of thought to the problem of how to make the schools more attractive to boys and at the same time enforce the necessary discipline. It occurred to him that "by banding them together into a military company for week-day drill he could teach them valuable lessons in obedience, patience, neatness, punctuality, without their being conscious of it and almost in the form of amusement." The drill was accordingly instituted and kept up during the winter. It was so successful that the idea spread to other Glasgow Sunday schools and then to England, Ireland, Canada, the United States and elsewhere.

The first American company was organized in San Francisco in 1889, and the national headquarters are in that city. Then companies were formed in the central and eastern states, and these sections now have their own divisions, each with its executive officers. There are already more than 200 companies, and new ones are being enrolled every day.

The brigade is wholly un-nominal, and organization is simple. Each company is connected with a church, and all members must belong to a Sunday school. The captain and lieutenants are appointed by the school authorities, and the boys elect sergeants and corporals. The regulation uniform is a blue blouse, blue trousers and blue cap, but some of the companies have adopted the West Point cadet gray.

Many of the companies use dummy rifles at the start, but the boys prefer the real thing, and regular army guns are being rapidly adopted. There is a weekly military drill, and some of the companies go off in the country in the summer time on a regular encampment like the national guard. In towns having more than one company competitive drills are sometimes held, and there is quite a rivalry between the young soldiers to uphold the efficiency of their companies.

HEALED IN TEN DAYS.
Mr. James Kerns, of West Lafayette, Ind., says:—"I have used Morris' English Stable Powder on sore shoulders and cuts and have found it very satisfactory. Had a horse badly hooked by a cow, tearing a gash in the flank, healed it in ten days by the use of this Liniment. Think it the finest remedy ever made for flesh wounds." Sold by F. B. Meyer.

A MILLION FRIENDS.
A friend in need is a friend indeed, and not less than one million-people have found just such a friend in Dr. King's New Discovery for Consumption, Coughs and Colds. If you have never used this great cough medicine one trial will convince you that it has wonderful curative powers in all diseases of Throat, Chest and Lungs. Each bottle guaranteed to do all that is claimed or money will be refunded. Trial bottles free at F. B. Meyer's drug store. Large bottles 50c. and \$1.

An Editor.
A school boy's composition on "The Editor" ran as follows:
"The editor is one of the happiest individuals in the world. He can go to any office in the afternoon and evening without paying a penny, also to inquests and hangings; has free tickets to the theatres, gets wedding cake sent to him, and sometimes gets a licking, but not often, for he can take things back in the next issue, which he generally does. While other folks have to go to bed early, the editor can sit up late at night and see all that is going on. When I am a man I mean to be an editor, so I may stay out late at night and that will be jolly."

DESERVING PRAISE.
We desire to say to our citizens that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklin's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. F. B. MEYER, Druggist.

At Our Expense.
If you can make eighty words from letters contained in the word "DOMINION" you can have a free trip to the World's Fair and return, as the publishers of that well known magazine, "DOMINION ILLUSTRATED," offer to pay expenses to Chicago and return to the first person in each state sending a list of not less than eighty words as above. This is a popular way of attracting attention to a popular publication. A host of other valuable prizes will be given to successful contestants, and every one able to send a list of not less than sixty words will be awarded a prize valued by the publishers at not less than five dollars. As prizes are equitably divided among the different states persons residing in any locality have an equal opportunity of securing the free trip to Chicago, or one of the other valuable prizes for their state. This announcement appears in the leading newspapers of this state for the first time TO-DAY. Enclose twelve U. S. five-cent stamps with list of words for sample number of this elegant and profusely illustrated (96-pages) magazine, containing full particulars of this most liberal prize distribution. WHY "ARE HEELER" WILSON'S SEWING MACHINES POPULAR? BECAUSE LADIES BUY THEM LIKE THEM AND TELL THEIR FRIENDS.

Many ladies have used our machines twenty to thirty years in their family work, and are still using the original machines we furnished them a generation ago. Many of our machines have run more than twenty years without repairs, other than needles. With proper care they never wear out, and seldom need repair.

We have built sewing machines for more than forty years and have constantly improved them. We build our machines on honor, and they are recognized everywhere as the most accurately fitted and finely finished sewing machines in the world. Our latest, the "No. 9," is the result of our long experience. In competition with the leading machines of the world, it received the Grand Prize at the Paris Exposition of 1889, as the best, other machines receiving only complimentary medals of gold, silver and bronze. The Grand Prize was what all sought for, and our machine was awarded it.
