Current Comments.
As soon as the busy season is over and the farmers have more leisure time, they will find it to their advantage to spend a few days at the World's Fair. The new ideas to be gained from a study of the agricultural exhibit alone, will much more than pay for the trouble and expense. It requires as much brains and study to be a successful farmer as it does to succeed in any other vocation.

Two little boys play a game of marbles, fall into a dispute, and finally come to blows. A peace officer arrests the aggressor and drags him before a justice (?) of the peace, who fines him one dollar and costs, amounting to more than eleven dollars—one dollar to appease an outraged law and ten dollars to individuals whose duty it is to see that the law is enforced. Such cases are of frequent occurrence in this county. Great is the majesty of the law!

What has become of the Fleenor & Perkins investigation of the county records. One of the bosses boasted shortly after the election that there would be no investigation and he seems to have made his word good.

Some one should present combat with a bicycle. The heavy weight on top of his shoulders would make it a difficult matter for him to maintain his equilibrium.

What has become of "Three Stars?" His latest effusion was over the nom de plume of "Ida May" and, Falstaff like, he seeks to hide his identity in the disguise of a woman's gown. No wonder he is ashamed of his production. There are boys fourteen years of age in the common schools who are capable of producing a much more sensible article.

Hogs are way up in prices, but where, oh where, are the hogs? Barring the court house ringsters, they are few in numbers in Jasper county.

Wonders of Indiana.
A citizen of Mezeppa, Ga., tells the following story: A man with a drove of mules, the man claiming to be from Indiana, stopped for the night with the citizen's father. The family had an idea that Indiana was near the North Pole, and asked a great many questions about the country. In answer to questions the Indiana man said:

"Yes, there the nights are shorter and they have a d—d sight more of them and they are darker." He had seen them so dark there that you couldn't see the headlight of a locomotive thirty feet away. He also said it was a great fish country; that you could not ride a horse across a creek without knocking out a two-horse wagon load of fish; but that he had gone a-fishing once, and he only caught one fish, and when he pulled the fish out of the Mississippi river felt six inches from its mouth to Cairo. He also said it was a fine timber country. A few days before he left home he cut down a tree that measured exactly one hundred yards long. He drove a wedge in the big end, and it burst entirely open and split a thicket of three hundred yards that was so thick that you couldn't run a fishing pole into it endways. The place opened by splitting the log was then being used for a wagon road. He also said it was a very healthy country; that only one man had died in twenty years, and they had to pull his last breath with a cork screw.

A young clock peddler was also spending the night with his father, and he asked if it would be a good country to sell clocks. The Indiana man said no, they had no use for clocks; that they kept time by the growth of pumpkin vines, which grew five feet each hour. He said it was the best vegetable country in the world. Every kind grew well except beets, and they grew so long that they stuck through into China and the Chinamen pulled them through. In answer to a question whether it was a cold country or not, he said it was awful cold; he had seen a blaze of fire freeze to the back of the chimney and they had to knock it loose with a pole-axe.—Atlanta Constitution.

Mr. Foster, of Fostoria, was no greater than the financial policy of his party. It will bankrupt him, and if it is not changed it will bankrupt the country.—Mo. Republican.

At Our Expense.

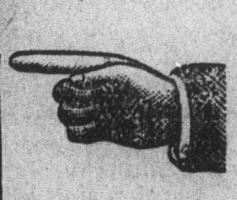

If you can make eighty words from letters contained in the word "MONTREAL" you can have a free trip to the World's Fair and return, as the publishers of that well known magazine, "DOMINION ILLUSTRATED," offer to pay expenses to Chicago and return to the first person in each state sending a list of not less than eighty words as above. This is a popular way of attracting attention to a popular publication. A host of other valuable prizes will be given to successful contestants, and every one able to send a list of not less than sixty words will be awarded a prize valued by the publishers at not less than five dollars. As prizes are equitably divided among the different states persons residing in any locality have an equal opportunity of securing the free trip to Chicago, or one of the other valuable prizes for their state. This announcement appears in the leading newspapers of this state for the first time. TO-DAY. Enclosed twelve U. S. two-cent stamps with list of words for sample number of this elegant and profusely illustrated (96-pages) magazine, containing full particulars of this liberal prize distribution. "Dominion Illustrated" is the leading and longest established magazine in British America (larger than Harper's, Century, Scribner's or Cosmopolitan). Its publishers are rated by mercantile agencies and are worth over one hundred thousand dollars. Send promptly as "note of postmark" decides. Address "DOMINION ILLUSTRATED," D. C. Montreal, Que.

WHY "NO. 9"
ARE HEELER & WILSON'S
SEWING MACHINES
POPULAR?
BECAUSE LADIES
BUY THEM LIKE THEM
AND TELL THEIR FRIENDS.

Many ladies have used our machines twenty to thirty years in their family work, and are still using the original machines we furnished them a generation ago. Many of our machines have run more than twenty years without repairs, other than needles. With proper care they never wear out, and seldom need repair. We have built sewing machines for more than forty years and have constantly improved them. We build our machines on honor, and they are recognized everywhere as the most accurately fitted and finely finished sewing machines in the world. Our latest, the "No. 9," is the result of our long experience. In competition with the leading machines of the world, it received the Grand Prize at the Paris Exposition of 1889, as the best, other machines receiving only complimentary medals of gold, silver and bronze. The Grand Prize was what all sought for, and our machine was awarded it.

Send for our illustrated catalogue. We want dealers in all unoccupied territory.

HEAD.—SPEAR HEAD possesses more qualities of intrinsic value than any other plug tobacco produced. It is the sweetest, the toughest, the richest. SPEAR HEAD is absolutely, positively and distinctively different in flavor from any other plug tobacco. A trial will convince the most skeptical of this fact. It is the largest seller of any similar shape and style on earth, which proves that it has caught the popular taste and pleases the people. Try it, and participate in the contest for prizes. See that a **TIN TAG** is on every 10 cent piece of SPEAR HEAD you buy. Send in the tags, no matter how small the quantity.
Very sincerely,
