

THE PEOPLE'S PILOT.

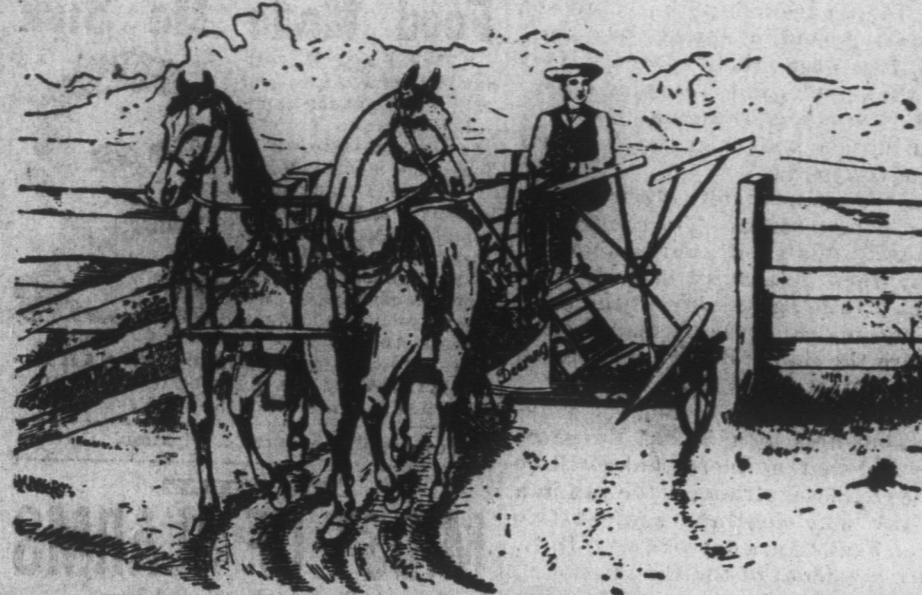

VOL. III. ONLY \$1.00 PER YEAR.

RENSSELAER, IND., FRIDAY, JULY 21, 1893.

No. 5

Hear Our Competitors Howl.
OF COURSE THEY SAY
IT IS A FAILURE!

What?

Our Celebrated Deering Jointed Steel Binder.

Saves Time. Saves Labor. Does away with the Binder Truck Nuisance. By means of this invention, one man can, in a few minutes' time, reduce the width of the Binder so that it will go through a 9-foot gate, or over any carriage road. He does not need to unhitch his team to make the change.

Call or send for interesting circulars describing this wonderful invention.

Deering Mowers surpass all others in Light Draft, Long Life, Perfect Work. Deering Binder Twine is longest, strongest and best. Do not fail to see this wonderful machine before purchasing.

The iron work on the new fence around the public square is fast rusting away for want of paint. The money would be well expended by having a competent painter go over it and give it a thorough repainting.

The fare on all railroads centering in Indianapolis will be one cent per mile, for those who attend the G. A. R. encampment. So far the rate to the World's Fair has been three cents per mile and no reduction is yet in sight.

"What paper is the best in Jasper county to insert an advertisement in?" was the question asked to one of our leading merchants this week. "Why, the PILOT, of course. I always receive large returns from advertisements I have in it."

Two sharpers are again in the field selling wind mill territory, says an exchange. A contract is signed which obligates the purchasers to sell \$125 worth of wind mills. By tearing off one end of the agreement it turns out to be an iron clad promissory note, such as has been used with much telling effect in the west. It is an old scheme, but gets its victims this year the same as last. They have been doing finely in LaPorte county.

Smoke the Mendosa cigar.

Mrs. Tinsley, of the W. C. T. U. will address the children of Rensselaer at the M. E. church next Sunday at 8 p. m. for the purpose of organizing an L. T. L. She will also deliver a lecture in the evening at eight o'clock, after which a collection will be taken to defray expenses. She will give an address at Barkley at 8 p. m. Everybody cordially invited to each of the above.

A peculiar shipment was made from the University of Notre Dame to Paris, France, via the National Express Company's line. The shipment consists of a box containing 600,000 canceled postage stamps collected at the university for the benefit of an orphan asylum in Paris. On their arrival they will be made up in books containing 1,000 each and sold. The box weighs 200 pounds.

For the occasion of the unveiling of the soldiers' monument at Delphi, July 27th, on which occasion ex-President Harrison and ex-Governor Chase will make speeches. Tickets will be sold at one and one-third fare for the round trip, good July 28th.

This is an exact copy of a postal card received from the North Judson correspondent of the Starke county Democrat: "July 3 I will be drunk today and tomorrow and can ride the nuse till the tail end of this week. Hopping this will suit you I am thine till after the fourth."

Persons who use either gasoline or oil stoves during the summer should consult their fire insurance policies, and if no permit to use such is attached to the policy one should be secured. A moment of attention to this may prevent the loss of insurance.

For the second time within as many weeks some one broke a glass in Vick's restaurant window and appropriated all goods in sight last Sunday evening. This time they used a knife and cut the window frame so that the goods could be removed. Some one will land in the jail unless they are careful.

A brakeman had a narrow escape from death near the depot Monday evening. He fell under the side of moving freight car, but was thrown out before the wheels had a chance to pass over his body. His body was badly bruised and he was assisted to a passing passenger train and taken to his home at Lafayette.

Everyone in Rensselaer has doubtless noticed the hundreds of large bugs which gather around the arc lights every evening when they are lit, but pay little attention to them. It is said that they are capable of inflicting a sting almost as poisonous as that of an adder. The bug is a species of the tarantula, and its sting is as poisonous as that of the latter. They seldom sting anyone, and never do so except in self defense, but people should be careful about handling them. At Tipton recently a young man lost his leg from the sting of an electric light bug, the physician being compelled to amputate the young man's limb in order to save his life.

The fault finders are about the only ones that the editor can rely upon to hear "what sort of a paper he publishes." You "scorch" a public entertainment, a public official, an organization of any kind, and you will hear from it on all sides, and they will curse you up hill and down. But you might go on and give a column of "taffy" and laud them to the skies, and the probability is you would never receive a word of thanks or praise, and no one would think to speak of it in your presence. There is always a strong temptation, says an exchange, for an editor of a newspaper to write in such a way as to secure somebody's disapproval of what he says, to "pitch in" to somebody's cherished views. He is then sure to hear from what he says, and he very seldom hears from any other kind of writing. He may write handsome things and he will never find out whether anybody has read them or not. Except for the faultfinders he would inevitably conclude that no one ever reads an editorial. Therefore, welcome faultfinders.—Ex.

A man who knew all about the printing business after having three dollars worth of job work done undertook to make up the forms of a newspaper. Here is how he sandwiched a marriage notice and a grocery-man's local together: "John Smith and Miss Ida Qua were married in the holy bonds of sourkraut sold by the quart barrel. Mr. Smith is an esteemed young codfish at ten cents per pound while the bride has a great many berries for sale at a shilling per bushel, Rev. Brown officiating."

Many of our readers remember Upton Oliver, who was here with the electric belt and Yuba (swindled) soap show last winter. He had but one eye, but that was sharp enough to spot a "sucker" when one was near. He was in his glory in those days and dearly loved to jingle the money of his victims in his pockets. As the writer was dreamily taking in the scenes of Chicago from the deck of a World's Fair excursion steamer on a hot afternoon recently, he was startled to hear a
