Silver has been used as money for about 6,000 years.

Gold is a money that is always wanted when it can not be had.

"The voice of the people will be stronger than the voice of gold."

The money power never asked the Republican party for anything it did not get.

Happy thought, wise conclusion, yea, a true, full and fair explanation: "Old Cleveland is the cause of it."

The Democratic party is divided on the single standard. It will not do the bidding of the gold bugs unless aided by Republican votes.

Our monetary system is wrong somewhere and every intelligent man knows it. It is the part of good citizenship to study this question and to act upon it independent of party politics.

"Me Too, Pete."

"I agree with Mr. Cleveland that simply repeal without amendment or substitute, is the only thing to be considered now."—Benj. Harrison.

If the gold bugs find a better friend in Cleveland than they found in Harrison it is because he is an abler man. If the Democratic party does more for the money power than the Republican party has done, and is still willing to do it, is because it will have better opportunities. The contest to-day, between these two parties is, which can do the more for wealth.

Heaven knows our debts are hard enough to pay now, but should the Sherman law be repealed without proper substitute they would be doubly hard to pay. This action by congress would leave the country "stuck" on a gold basis as securely as a ship grounded on a Florida reef. Silver would then be completely demonetized and the debtor would then have to face his creditor shorn of half his ability to pay. No sane man who is not under the influence or pay of the goldites but will admit that the gold basis is insufficient to uphold the great fabric of our commerce. We need both gold and silver as such basis, and that congress which ordains otherwise will go down under the overwhelming and everlasting condemnation of the people.

The old parties during the last campaign were poking their jeers and jibes at the People's party in various ways. A favorite epithet was that of "Calamity Howler," a term applied to them because in their speeches and through their newspapers they pointed out the fact that without a change of financial policy the ship of state was going surely upon the rocks of ruin. How about it now, brethren? In all candor come for-

ward and confess the corn. Who were the true prophets? Witness the terrible financial storm abroad in the land at this very hour, and then answer. More than three hundred banks and thousands of once prosperous business enterprises have been swallowed up in the great vortex of commercial disaster, and the end is not yet. The People's party is the only party that can point back to the recent campaign and truthfully say, "we told you so."

Fear of "Democratic free trade!" Why did not this fear come last November? No president ever received as large a vote as tariff reform Cleveland received last fall. No party was ever so overwhelmingly defeated as was the Republican protection party nine months ago, and now you say from fear of free trade legislation this panic is brought about. Are the American people so ignorant, so fickle minded, and so short sighted as to vote themselves into such a hole as this? No, our voters were not afraid of free trade when they voted for Cleveland, they understood both parties upon the tariff question—really tariff was the only question that was allowed to be discussed, and the people voted for it to be reduced. Nobody in this country is afraid of free trade, nobody is expecting free trade; on the tariff question the people are now with Cleveland just as they were last November. Let us lay politics aside and as common sufferers look into the cause of the present trouble. Now is no time to be looking after the interests of a set of politicians, no time to be seeking party advantages.

We are in the midst of a great financial panic. Fortunes are daily passing away, thousands are daily thrown out of employment, want and distress are appearing on every side, and the questions with all honest men are, what is the cause and what is the remedy? While sincere, patriotic men are honestly inquiring into these great troubles, honestly seeking remedies for relief, wicked, designing men are trying to deceive and mislead.

Many politicians of the Republican stamp are trying to make political capital, trying to get party advantages out of the people's distresses, knowingly and designedly they are trying to hide from us the real origin and cause of this great money famine that is bringing so much trouble and want upon our land. We hear such expressions as "the free trade panic, want of confidence in the Democrats, free silver and wild cat money madness," etc. A man giving out such trash as this to a distressed people, to an honest people that are earnestly and sincerely seeking to learn the cause of, and the remedy for our present financial ills would give his child a stone when he asks for bread, would steal the cripple's crutch or adulterate the sick man's medicine. There is not a Republican editor or politician in the state but knows he maliciously lies when he says the fear of free trade legislation is causing the present financial disturbances. There is not a Republican editor or politician but knows that the Cleveland administration is anti-silver; there is not a Republican editor or politician but knows that free silver, be it good or bad, will never come unless enough Republicans vote with the silver wing of the Democratic party to bring it.

The British Lion Plays "Bull and Bear."

Those who have watched closely the course of recent events, can plainly see the paw of the British Lion in the financial affairs of the United States in the last few months. He has been "bearing" the general commercial interests of this country

by "bulling" the money market. Six months ago London began to call American gold and kept it up until we had lost many millions of dollars of the yellow metal to her. As it was then shown gold was actually imported into England at a loss to the importer. Why this was done American financiers could not then understand, but now the object is very apparent. England doubtless surmised that a continual drain of gold eastward would cause a stringency in the money market here, which would in turn create a panicky condition in the business world. This would destroy confidence, bring on disaster and inaugurate an era of falling prices as a sharp stringency in the money market always does. How well she laid her plans and guessed the result the present condition of affairs demonstrate. Wheat is now selling in the market at a lower price than ever known. Gilt edged stocks and bonds are likewise ruinously low. Business is stagnated and prices running down out of sight. Banks are failing, factories closing down and thousands of laboring men are out of employment. The picnic prepared for the British Lion is now ready and he is even now filling himself with American dainties. The very gold that was imported by England at a loss six months ago is now coming back to pay for wheat, stocks, bonds, etc., at bankrupt prices. Last week 20,000,000 bushels of wheat were taken for export at 58 cents—a price which would bankrupt every American wheat raiser. Yes it was a little game of "Bull" and "Bear," but it cost many a poor man his job, robbed many a farmer of his hard earned product of the farm, sent many a bank into liquidation, closed many a factory and caused disaster to stalk abroad over this fair land. Now it is very plain why England imported our gold at a loss. She was simply engineering a gigantic "corner" on the money market and has successfully carried it through, making millions out of it. Now, dear reader, can you see any reason in this operation why England loves a gold basis?

Mr. Thomas Batte, editor of the Graphic, Texarkana, Arkansas, has found what he believes to be the best remedy in existence for the flux. His experience is well worth remembering. He says: "Last summer I had a very severe attack of flux. I tried almost every known remedy, none giving relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me. I purchased a bottle and received almost immediate relief. I continued to use the medicine and was entirely cured. I take pleasure in recommending this remedy to any person suffering with such a disease, as in my opinion it is the best medicine in existence." 25 and 50 cent bottles for sale by F. B. Meyer, the druggist.

SPECIMEN CASES.

S. H. Clifford, New Cassel, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklin's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large fever sores on his leg, doctors said he was incurable. One bottle Electric Bitters and one box Bucklin's Arnica Salve cured him entirely. Sold at F. B. Meyer's drug store.

MRS. ELMIRA HATCH.

HEART DISEASE 20 YEARS.

Dr. Miles Medical Co., Elkhart, Ind.
DEAR SIR: For 20 years I was troubled with heart disease. Would frequently have falling spells and smothering at night. Had to sit up or get out of bed to breathe. Had pain in my left side and back most of the time; at last I became dropped. I was very nervous and nearly worn out. The least excitement would cause me to faint. I was also much troubled with fluttering. For the last fifteen years I could not sleep on my left side or back until began taking your New Heart Cure. I had not taken it very long until I felt much better, and I can now sleep on either side or back without the least discomfort. I have no pain, smothering, dropsy, no wind on stomach or other disagreeable symptoms. I am able to do all my own housework without any trouble and consider myself cured.
Elkhart, Ind., 1893. MRS. ELMIRA HATCH.
It is now four years since I have taken any medicine. Am in better health than I have been in 40 years. I honestly believe that Dr. Miles' New Heart Cure saved my life and made me a well woman. I am now 62 years of age, and am able to do a good day's work.
May 29th, 1892. MRS. ELMIRA HATCH.

Notice of Gravel Road Report and Election.

I, Henry B. Murray, Auditor of Jasper County, do hereby certify that a Report of Viewers was filed before the Board of Commissioners on Tuesday, August 8, 1893.

STATE OF INDIANA,
County of Jasper.

To the Board of Commissioners of said County: The undersigned viewers appointed by the Board to locate and view certain roads in Jasper County, Indiana, from the Marion township line to and through the town of Rensselaer, report as follows:

1ST LOCATION.

COLLEGE ROAD.

The College Road commences 60 feet north of the southwest corner of section eighteen (18) Township twenty-eight (28) north of range six (6) west, and extends thence north along the Kansas line to township twenty-nine (29) and thence in center of Range line Road to the center line of Washington Street; and thence along said line to the bridge across the Tropicus River, in all 2550 feet.

THE LONG RIDGE ROAD.

Commences at the center of Section thirty-one (31) north of range six (6) west in said county of Jasper and extends thence north to the center line of Merritt street, thence east to the center line of Main street and thence south to the track of the Louisville, New Albany & Chicago Railway, in all 2230 feet.

THE POOR FARM AND PLEASANT RIDGE ROAD.

Commences at the northeast corner of the northwest quarter of section twenty-six (26) township twenty-nine (29) north, range seven (7) west, and extends thence east to the center line of Van Rensselaer street, in Rensselaer, Indiana, thence along said line to the half section line running east and west in section thirty (30) in township twenty-nine (29) north of range six (6) west, and thence east along said half section line to the east side of section twenty-five, township twenty-nine (29) north of range six (6) west, in all 4165 feet.

These roads all commence in the Marion township line and the petitions should be corrected to correspond with this report and the evident intention of petitioners.

WIDTH.

Each portion of these several roads should be at least fifty feet wide and should be graded thirty feet wide, according to specifications and profile attached to this report.

CONSTRUCTION OF ROAD BED.

The road bed shall be cleared and constructed of earth. No rise of grade to exceed four feet per station. The lateral ditches shall in all cuts be at least one foot in depth, in fills two feet deep and at least one foot wide on bottom with slope of each bank of one to one.

Sewers and bridges with side drains to be located as in specifications so as to drain surface water at all points from side ditches, according to specifications.

MATERIAL.

For sewers through the road bed best class sewer pipe to be used. The bridges to be made of capacity indicated in the specifications and gravel road to pay for same when costing less than seventy-five dollars, and seventy-five dollars on those costing more than that sum.

For surfacing we have estimated all gravel, all broken stone or part broken stone surfaced with gravel. We estimate that all gravel is inches in the center and 10 at the side is equivalent to Macadam 10 inches in the center and 8 inches at the side or 8 inches of broken stone at the bottom and gravel on top 6 inches in center and two at side; right side board to be placed four feet from right side of road bed going toward Rensselaer at all points outside of corporate limits, and location in town to be indicated by Board of Trustees.

COST OF COLLEGE ROAD.

Graveling or Macadamizing	\$8169 90
Township's share of Culverts and Bridges	476 00
Cuts and fills to grade, with side ditches	153 60
Drainage of Road	2389 44
Clearing road way	75 00
Total	100 00
Being in all \$2545.33 per mile.	\$11810 94

COST OF LONG RIDGE ROAD.

Graveling or Macadamizing	\$6054 00
Township's share of Culverts and Bridges	686 00
Cuts and fills to grade, with side ditches	1434 64
Drainage of Road	50 00
Clearing road way	25 00
Total	8250 24
Being in all \$2503.88 per mile.	\$10716 64

THE POOR FARM AND PLEASANT RIDGE ROAD.

Graveling or Macadamizing	\$13695 00
Township's share of Culverts and Bridges	686 00
Cuts and fills to grade, with side ditches	2487 76
Drainage of Road	100 00
Clearing road way	125 00
Total	15093 76
Being in all \$2198.42 per mile.	\$17108 70

The difference we make in graveling or macadamizing is based on our knowledge of where material can be had and what it will cost to place the same upon the road.

Our estimate is based on good material either of gravel or broken stone. If gravel is used the larger particles should be evenly laid in the bottom and the gravel should all be free from dirt, soil or quicksand. If macadam is used it should be so arranged that the larger broken stone shall be in the bottom and the smaller on the surface.

If macadam be covered with gravel the macadam should first be placed on the surface and afterwards the gravel hauled thereon to the depth as indicated in the specifications.

REMARKS.

We file with this our report a profile and specifications for the use of bidders and superintendents to which reference is had, for all more specific facts in this behalf.

Respectfully Submitted,

DEXTER R. JONES,
J. A. LAMBORN,
JNO. E. ALTER.
