### CONGRESSIONAL.

**Extra Session.**  
In the senate on the 23d a resolution introduced by Mr. Peffer to inquire of the secretary of the treasury as to the conduct of national banks in refusing to pay promptly in currency the checks of their depositors was discussed, but went over without action. Mr. Hoar spoke in opposition to repealing the 10 per cent tax on state banks. By a vote of 85 to 30 it was decided that Lee Mantle was not entitled to a seat as a senator of Montana. In the house the silver bill was further discussed.

Mrs. M. F. FARRER (Kan.) and Allen (Neb.) spoke in favor of free silver in the senate on the 24th. Up to date 687 bills have been introduced in the senate, among them being measures for an income tax, one cent postage, to repeal the federal election laws, thirty-seven pension bills, thirty-nine for public buildings and twenty-four for the advancement of commerce and American trade. In the house the time was occupied by many members in five-minute speeches for and against the silver bill.

In the senate on the 25th Mr. Hill (N. Y.) spoke in favor of the repeal of the silver bill and Mr. Stewart (Nev.) spoke against repeal. Adjourned to the 28th. In the house the leading speeches were in favor of repealing the Sherman silver law and were made by Mr. Burrows (Mich.) and Mr. Springer (Ill.). There was no session of the senate on the 29th. In the house the feature of the silver debate was the speech of Thomas B. Reed (rep. Me.) and that of Bourke Cockran (dem. N. Y.) in favor of repeal of the Sherman silver law. The debate was closed by Mr. Wilson (W. Va.). This bill to increase the national bank circulation was discussed in the senate on the 28th and a bill was reported for the repeal of the federal election law. It was decided by a vote of 32 to 29 that Mr. Mantle, of Montana, and Mr. Allen, of Washington, are not entitled to seats and that a governor of a state has not the right to appoint a senator to fill vacancies. In the house the bill in favor of the unconditional repeal of the silver purchase clause of the Sherman act was passed by a vote of 240 to 116. The average of sentiment on free silver was shown in the votes on the ratios at 16 and 20 to 1, respectively, in both cases there being a trifle more than 100 majority against silver.

### LATER.

MR. VOORHEES, chairman of the finance committee in the United States senate, reported back on the 26th the house bill repealing part of the Sherman act with an amendment in the nature of a substitute. The difference between the house bill and the Voorhees bill is found in the attachment to the latter of a paragraph declaring that it is the policy of the United States to use both gold and silver as money metals and to preserve parity. No action was taken. In the house an animated discussion took place over the rules between Speaker Crisp and ex-Speaker Reed. Mr. Springer introduced a bill to provide for the coinage of the seigniorage silver in the treasury, which was referred.

The business portion of Baltimore, Md., was flooded by a storm and great damage was done.

In Maine a tornado caused heavy damage at Portland and Augusta.

### HUNDREDS LOST.

Appalling Extent of the Recent Storm in the South—The Death List a Very Large One—Ruins in North and South Carolina, Georgia and Florida—The East Suffers Also.

RICHMOND, Va., Aug. 30.—Five hundred persons are reported to have been drowned on the Sea Islands. That was the startling news contained in a dispatch received late Tuesday night by the Atlantic Coast line from Florence, S. C. The Sea Islands skirt the coasts of North and South Carolina, Georgia and Florida. No verification has since been received. The dispatch continued:

"The storm carried the water from the rivers into the Atlantic coast line sheds at Charleston, S. C., to the depth of 6 feet, and in Meeting street, in the center of Charleston, the water was 2 feet deep. A four-masted schooner was forced into the railroad shed by the rushing waters. Streets are filled with debris. Many dead sea-birds are strewn about. All the phosphate works about the city have been demolished. The roof of every third house in the city is gone. Eight lives are said to have been lost. It was also rumored that there had been great loss of life on Sullivan's island, report placing the number in the hundreds, but as all communication was cut off there was no means of verifying the report."

AUGUSTA, Ga., Aug. 30.—A special to the Chronicle from Port Royal, S. C., brings the startling information that fully 100 lives have been lost at Port Royal, at Beaufort and neighboring points by drowning during the storm. Over twenty-five were seen by the correspondent, and his information regarding the others was received from reliable sources. Of the 100 persons killed and drowned only six were white, the others being negroes. The negroes were so frightened and terror-stricken that many were killed and drowned by not leaving their cabins to seek places of safety. Twenty persons were drowned on Paris island. No news has been received from St. Helena, 4 miles from Beaufort. It is believed fully twenty-five lives were lost between Port Royal and Sea Brook, all negroes. Every house in Beaufort and Port Royal was damaged to some extent, and a number of barges and craft were wrecked and blown ashore. The Coosaw Mining company loses \$50,000. The total losses are estimated in the neighborhood of \$500,000.

SAVANNAH, Ga., Aug. 30.—The list of fatalities as the result of Sunday's storm is rapidly increasing. Fifteen people are known to have been drowned during the storm and more are missing.

It is difficult to give an estimate of the damage done by the storm. To buildings, \$100,000 would cover the injury done; vessels wrecked, \$150,000; damage to railroads leading out of the city, \$100,000; damage to the rice crop, \$200,000. Interior tributary to Savannah damage will probably amount to \$1,000,000 or more, as the cotton crop over a wide territory has suffered severely, and in many turpentine districts at least one-fourth of the trees are destroyed.

ATLANTA, Ga., Aug. 30.—During the storm at Sullivan's island, S. C., a Bryan and wife were drowned and E. Pollard was killed. Fifteen houses on the island were damaged.

A special dispatch from Blackville, S. C., says several buildings in that town were crushed, mill dams were washed away, country roads are impassable, the cotton crop terribly damaged and tobacco yet to be harvested totally devastated.

In Waynesboro, Ga., the storm did great damage to the cotton crop, and fences were blown down. Reports from southern counties say that the storm was very severe there, doing great damage to houses and cotton crops. No casualties have been reported.

WILMINGTON, N. C., Aug. 30.—The three-masted schooner Three Sisters, with cargo of lumber, from Savannah, Ga., for Philadelphia, Pa., was wrecked and abandoned off Cape Fear the night of August 28. Capt. Simpson and Mate Heede were drowned.

BALTIMORE, Md., Aug. 30.—Not since the big flood of 1868 has such a deluge of water invaded Baltimore as that of Monday night. The rain fell torrents. It was almost a cloudburst. Men rowed around in boats from store to store in the lower part of the city, carrying merchants and clerks to their places of business and removing valuable goods and books. The streets resembled lagoons instead of business thoroughfares. The wharves were completely submerged, if not destroyed. Street cars moved along Pratt street with water running over their floors. Several pungies and schooners were washed out on the basin and now lie high and dry on the street beds. At the foot of Commerce street the large flour warehouses of Gambrill & Co. and other firms were flooded and thousands of barrels of flour damaged. The Baltimore & Ohio railroad warehouses and freight houses at the foot of Spear's wharf also suffered to the extent of thousands of dollars.

NEW YORK, Aug. 30.—The violent storm which swept over the city and the surrounding country from midnight till 8 o'clock Tuesday morning had its origin in a cyclone that arose in the West Indies and then swept along the Atlantic coast in a northeasterly direction. It swept over Florida on Sunday, had its storm center well inland, and reached out in every direction for a distance of more than 1,500 miles.

The tide was higher than any since 1878, and hundreds of acres of corn and tomatoes have been ruined. At Salem, N. J., all the fruit remaining on the trees from the last blow is off, and the outlook for the farmers is a dark one. The corn crop is ruined.

Eighteen Hundred Miles in a Shell.

MANISTEE, Mich., Aug. 25.—F. G. Apple, of Pawtucket, R. I., rowing to the fair on a wager, arrived at the mouth of the Manistee river Wednesday in an aluminum shell 84 feet long, 10 1/2 inches beam, deck 1-100th part of an inch, hull 1-64th part of an inch, weight 28 pounds. He looks in good condition and has rowed 1,800 miles.

Deadly Riot in Naples.

NAPLES, Aug. 25.—A mob attacked the French residents Thursday. Three persons were killed and ten wounded by the police in the dispersing of the mob.

### CLEVELAND WAS ILL.

Confirmation of the Story That the President Had a Cancer—Submitted to an Operation.

PHILADELPHIA, Aug. 30.—The Press publishes a four-column article confirming the dispatch from Boston about a month ago which stated that President Cleveland submitted to an operation on the yacht Oneida for the removal of a cancer. The operation required the cutting away of a considerable part of the upper jawbone, and so far there has been no serious effect. The Press says that Mr. Cleveland is yet a very sick man and that his physician fears that mortal disease is still lurking in his system, notwithstanding the heroic efforts of surgery to remove it in July. Secretary Lamont, who was in New York a few days ago, was very apprehensive concerning the president's present condition.

It was in the late spring that Mr. Cleveland began to be tormented by a pain which seemed to proceed from a tooth. He endured a great deal of suffering and for many days found little rest. He concealed the trouble from his family and it is probable that no one, excepting Secretary Lamont, knew that he had physical trouble as well as mental anxiety to contend with. His physicians made an examination to discover the cause of the trouble and shortly before the president issued his call for the extra session of congress it was decided that an operation was inevitable.

Arrangements were made in New York and Mr. Cleveland was met on his arrival by Dr. Bryant, Dr. Hasbrouck and another physician. The party boarded the yacht Oneida on Friday night. Dr. Hasbrouck had charge of the operation. As soon as Mr. Cleveland boarded the yacht he was put to sleep and rested well until late the next day, Saturday. It was deemed advisable to use gas as an anesthetic rather than ether, because the operation would be followed by hemorrhages which might possibly lead to a flow of blood into the windpipe. The president yielded easily to the anesthetic, and the surgeons then began their work of awful responsibility. The operation required but a few moments, and the physicians think that they have removed all of the diseased tissue and bone.

Mr. Cleveland recovered from the shock even better than the physicians had dared to hope. He was kept in bed four days, during which time it was announced that he was suffering from rheumatism. When it became necessary for him to go to Washington his physicians warned him to remain away from work as much as possible.

Dr. Bryant accompanied him to Washington and after being there four days issued a peremptory command for the president to return immediately to Buzzard's Bay. The president did not wish to go, saying that his services were needed in Washington during the financial crisis, but he obeyed the doctor's orders and the advice of his friends and returned to Buzzard's Bay.

There is much encouragement at present in the fact that the president's condition is greatly improved and that there will be no recurrence of the malady which rendered the first operation necessary. Dr. Bryant remains with the president and is hopeful for the ultimate and full recovery.

NEW YORK, Aug. 30.—In an interview Tuesday Dr. Hasbrouck admitted the truth of the story in the Philadelphia Press of an operation for the removal of diseased particles of bone from the president's jaw during a trip on the pleasure yacht Oneida.

ON A 10,000-ACRE FARM.

World's Fair Visitors Shown How Wheat Is Harvested in the Northwest.

LARIMORE, N. D., Aug. 30.—The world's fair foreign commissioners visited the 10,000-acre farm of the Elk Valley Farming company, a mile from this eleven-year-old town. At the station the guests were met by M. G. Larimore and his two sons, Walter and Clay, who manage the farm. The procession of carriages drew up in front of forty-two harvesting machines, which passed in review before the distinguished spectators, cutting and binding a 160-acre field of the yellow grain. Each harvester was worked by three mules and a driver, while a gang of men followed to "hook" the bundles as quickly as thrown out. The sight was picturesque and a revelation in agriculture to many of the foreigners. In the afternoon the operation of thrashing was seen with four machines working at once. A prairie chicken lunch was served to the guests in picnic style on the farm under a tent.

FIRED BY A METEOR.

It Struck a Barn at Delavan, Wis., and Destroyed Eleven Buildings.

DELAVAN, Wis., Oct. 30.—A meteor falling on the livery barn of S. V. Barlow Monday night caused a destructive fire. It quickly ignited the barn. The flames were fanned by a brisk wind and swept into a row of wooden buildings adjoining and from there into the main business block on Walworth avenue. Scarcely anything could be done by the fire department. Eleven buildings were burned. The loss is \$28,000, with insurance amounting to \$17,000.

The Greatest Medical Discovery of the Age.

## KENNEDY'S MEDICAL DISCOVERY.

DONALD KENNEDY, OF ROXBURY, MASS.,

Has discovered in one of our common pasture weeds a remedy that cures every kind of Humor, from the worst Scrofula down to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor). He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the right quantity is taken.

When the lungs are affected it causes shooting pains, like needles passing through them; the same with the Liver or Bowels. This is caused by the ducts being stopped, and always disappears in a week after taking it.

If the stomach is foul or bilious it will cause squishy feelings at first.

No change of diet ever necessary. Eat the best you can get, and enough of it. Dose, one tablespoonful in water at bedtime, and read the Label.
