

OUR MILK CHURCH.

Devoted to the Dairying Interests of Jasper County.

WHEN THE COWS COME HOME.

I love the beautiful evening,
When the sunset clouds are gold;
When the barn-fowl seeks a shelter
And the young lambs seek their fold;
When the four o'clocks are open,
And the swallows homeward come;
When the horses cease their labors,
And the cows come home.

When the supper's almost ready,
And Johnny is asleep,
And I beside the cradle,
My pleasant vigil keep,
Sitting beside the window
Watching for "pa" to come,
While the soft bells gently tinkle
As the cows come home.

When the sunset and the twilight
In the mingling hues are blent,
I can sit and watch the shadows
With my full heart well content;
And I wish for nothing brighter,
And I long no more to roam,
When the twilight's peace comes
O'er me,
And the cows come home.

I see their shadows lengthen,
As they slowly cross the field,
And I know the food is wholesome
Which their generous udders yield;
More than the tropic's fruitage,
Than marble hall or dome,
Are the blessings that surround me,
When the cows come home.

—MARY E. NEALEY.

COMMENTS ON DAIRY TOPICS

It is very natural to look upon dairying as a means of bettering our conditions. That is all right. There is not much danger of the dairy business being over done. Now then how shall we proceed? Usually we think that if five cows will pay, ten will pay the same per cent. and so on. This is a mistake. We all have certain capacity for business, and while one man might handle 50 cows successfully, another might fail, but could handle 25 all right. The man that can make five cows average 300 pounds of butter in one year is by no means sure to make ten cows average the same. We must begin with a few cows and learn how to feed and care for them, and then we can tell whether we can handle more. In fact each man has a limit as to the number of cows he can handle successfully.

FOOD FOR COWS.

There is a great deal said now days about feed for cows. In fact there is so much theory presented by our dairymen, especially those who sit in the editorial sanctum, and who never milked a cow or fed one or who could not tell which cow gives the butter milk and which the sweet milk. Theory is all right, that is if given in small doses, but when you crowd a whole column full of theorizing on the products of different ingredients of a ration of a cow, it costs too much time and trouble. The old cow will dry up before you can put your theory into practice. Just a little common sense in feeding and close watching of results will teach any man what to feed and how much.

A SUGGESTION.

We have too much brush land in portions of Jasper county, the returns of which do not equal the taxes. Trim out the underbrush, let the sunshine in and sprinkle blue grass and timothy seed. In this way you can keep a piece of timberland profitable, the sapplings growing more rapidly than when choked by undergrowth, and at the same time make very fair pasture. This requires but little extra labor and there is no better milk producer than a luxuriant growth of blue grass. The great advantage of this over other grasses grown in this locality, is the fact that it is the first green carpet seen in the spring, and the last to leave us in the autumn.

LINSEED OIL MEAL.

We have fed oil meal the past year and find it pays for two reasons. I keep the cows in fine condition and increase the milk flow. The company keep on hand two grades for the benefit of the patrons, and they will furnish any other feed that has to be shipped in, at a nominal advance—over cost and carriage.

Township Convention.

In response to a call, about 25 or 30 members of the People's party met in the town hall, at Remington, and effected a temporary organization, with John Jordan as chairman. The purpose of the meeting was announced to be the election of one county committeeman, one delegate to the congressional convention from each voting precinct in the township. Then proceeded the following election: County committeeman, East Precinct, A. H. Dickinson; West Precinct, Ellis Jones; South Precinct, Chas. Lilves. Delegates to Congressional Convention, East Precinct, C. G. Austin; West Precinct, John Jordan; South Precinct, A. B. Clinton. Delegates to State Convention, East Precinct, Marvin Austin; West Precinct, Geo. Bessie; South Precinct, Elmer Vincent.

Township committee was empowered to fill by appointment any vacancies in the foregoing committees. Moved that the chairman of township committee communicate with the chairman of County Central Committee, urging a call for a meeting of the County Central Committee at his earliest convenience, and that the secretary furnish a copy of the proceedings of this meeting to the PEOPLE'S PILOT for publication. A meeting was appointed for school house No. 9, better known as the Hart school house, Feb. 8th, at 7:30 p. m. After a few remarks suggestive of better organization, meeting adjourned.

UNION.

BY DUCK.

They had a well-filled house at the box social given at Union school-house. A prize was given for the prettiest girl, present. Miss Allie Elm took the prize. They made \$14.16.

The box supper given at Never Fail was a success, also. Three prizes were given, one for the highest bidder, and a first and second prize was given to the most popular young ladies. They made \$18.25 which will be used to read Reading Circle books.

The literary at Union school house, February 2nd, was a success in every particular. Several good songs were sung and the debate was the best that it has ever been. It was decided that women should vote. The next literary is Feb. 16, the question being Resolved, that capital punishment is wrong.

The people are wondering why it is that the dogs of Rensselaer remain unmuzzled while there are mad-dogs within six miles of them. We see the dogs of Brook and Goodland are being killed and muzzled. Why not Rensselaer? Surely, the dogs of Rensselaer are as apt to go mad as any others. We think the town authorities should see after this.

LEE.

BY GUESS.

A. K. Sills, of Monticello, was in town Monday on business.

Mrs. S. L. Johnson has a severe attack of the lagrippe, but is reported better at this writing.

Arthur Woodin has moved to Remington, where he intends to farm. He has the best wishes of a host of friends.

The protracted meeting both here and at the Osborn, are still in progress and quite a number of accessions have been made to the church.

Monon township has only four and one-half months of school this term. Judging the future by the past if a heavier tax is levied we will have no school at all.

A. B. Lewis, of Remington, was in town the fore part of the week. He will soon move back to this place. Mr. Lewis is an enterprising citizen and we welcome him in our midst.

SOUTHEAST MARION.

BY SCHOOL BOY.

Albert Cleveland is moving to Rensselaer.

The box social at Never Fail was a success.

Health is improving, but there are still a few who are indisposed.

Mr. Smith, who rented Peter Hinds' farm, has moved to Newton county.

Mr. Goble will move from Wm. Haley's place in a few days, to near Remington.

Alvin Dunn, of Remington and his brother, Noah, from Mt. Ayr, were in this neighborhood last week.

Sampson Evans, of Montgomery county has been visiting his brother, who is sick at Joseph Adams'.

Corn for Sale.

Good, sound, yellow corn by the wagon load, two miles southwest of Lamson bridge. Would exchange corn for a few shoats. 33-6t cow. J. F. LAWRENCE.

Ten days loss of time on account of sickness and a doctor bill to pay, is anything but pleasant for a man of a family to contemplate, whether he is a laborer, mechanic, merchant or publisher. Jas. O. Jones, publisher of the Leader, Mexia, Texas, was sick in bed for ten days with the grip during its prevalence a year or two ago. Later in the season he had a second attack. He says: "In the latter case I used Chamberlain's Cough Remedy with considerable success. I think, only being in bed a little over two days. The second attack I am satisfied would have been equally as bad as the first but for the use of this remedy." It should be borne in mind that the grip is much the same as a very severe cold and requires precisely the same treatment. When you wish to cure a cold quickly and effectually give this remedy a trial. 25 and 50 cent bottles for sale by F. B. Meyer, Druggist.

The secret of the great success of The Cosmopolitan is not so hard to find, if one looks carefully over the number for February. A story by Valdes, the famous Spanish novelist, the first from his pen to appear in any American magazine, is begun in this number. Arthur Sherburne Hardy's story, "A Rejected Manuscript," is charmingly illustrated by L. Marold, who we believe makes his first appearance in the magazines on this side of the water. A profusely illustrated article on the designing and building of a warship appeals to the interest taken by all in the new navy, and a thrilling description of a naval combat under the significant title: "The Meloban and the Pantheroy" describes, after the manner of the Battle of Dorking, a possible sea-fight, the out-come of which is watched by the entire naval world. "Gliding Flight" is an interesting contribution to the problem of aerial navigation by one who has studied the flight of soaring birds in the East for twenty years. Elaine Goodale, who married a member of the Sioux nation, has some interesting information of Indian Wars and Warriors. T. C. Crawford, the Washington correspondent, gives the first half of a startling story, under the title of "The Disappearance Syndicate." The poetry in this number by Sir Edwin Arnold, Graham R. Tomson and William Young, is unusually good. The Departments, "In the World of Art and Letters" and the "Progress of Science" continue to have as contributors men famous in both continents.

The Cosmopolitan for February introduces a famous European author to its readers—Valdes of Madrid, and the artist Marold, of Paris, well known as a French illustrator.

WEBSTER'S INTERNATIONAL DICTIONARY

The successor of the "Unabridged." Ten years were spent revising, 100 editors employed, and over 300,000 expended before the first copy was printed.

Everybody should own this Dictionary. It answers quickly and correctly the questions so constantly arising concerning the history, spelling, pronunciation, and meaning of words.

A Library in Itself. It also gives in a form convenient for ready reference the facts often wanted concerning eminent persons, ancient and modern; noted cities, towns, and places; the countries, cities, towns, and natural features of the globe; translation of foreign quotations, words, phrases, and proverbs; etc., etc.

This Work is Invaluable in the household, and to the teacher, scholar, professional man, and self-educator.

A saving of three cents per day for a year will provide more than enough money to purchase a copy of the International. Can you afford to be without it?

WITHOUT THE Non-pull-out BOW (RING)

It is easy to steal or ring watches from the pocket. The thief gets the watch in one hand, the chain in the other and gives a short, quick jerk—the ring slips off the watch stem, and away goes the watch, leaving the victim only the chain.

This Idea stopped that little game:

The bow has a groove on each end. A collar runs down inside the pendant (stem) and fits into the grooves, firmly locking the bow around the pendant, so that it cannot be pulled or twisted off.

YOUR FUTURE

IS IN YOUR OWN HAND.

Fortunists assume to tell what the lines in your hand indicate. It will amuse you, if nothing more. The above diagram actually explains itself. The length of the LINE OF LIFE indicates the probable age to which you will live. Each BRACELET gives you thirty years. Well-marked LINE OF HEAD denotes brain power; short LINE OF FORTUNE, fame or riches. Both combined mean success in life; but you must keep up with modern ideas to win it. You will find plenty of these in Demorest's Family Magazine, so attractively presented that every member of the family is interested. It is a dozen magazines in one. A CLEAR LINE OF HEART bespeaks tenderness; a straight LINE OF FATE, peaceful life; the reverse if crooked. A well-defined LINE OF HEALTH spares you doctors' bills; so will the health hints in Demorest's. No other magazine publishes so many stories to interest the home circle. You will be subject to extremes of high spirits or despondency if you have the CHIEF OF VENUS well marked; keep up your spirits by having Demorest's Magazine to read. By subscribing to it for 1894 you will receive a gallery of exquisite works of art. A great value, besides the superb premium pictures, 10x12 inches, "I'm a Daisy!" which is almost a real thing, and equal to the original oil painting which cost \$300; and you will have a magazine that cannot be equaled by any in the world for its beautiful illustrations on all subjects matter, that will keep you posted on all the topics of the day, and all the facts, and different items of interest about the household, besides furnishing interesting reading matter, both grave and gay, for the whole family; and while Demorest's is not a fashion magazine, its fashion pages are perfect, and you get with it, free of cost, all the patterns you wish to use during the year, and in any size you choose. Send in your subscription at once, only \$2.00, and you will really get over \$25.00 in value. Address the publisher, W. Jennings Demorest, 15 East 43rd St., New York. If you are unacquainted with the Magazine, send for a specimen copy. A large QUADRANGLE means honesty; a large TRIANGLE, generosity; long FIRST DIVISION OF THUMB, strong will; LONG SECOND DIVISION, reasoning faculty. THE MOUNT OF JUPITER betokens ambition; that of SATURN, prudence; the SUN, love of splendor; MARS, courage; Mercury, intelligence; VENUS, love of pleasure; and MERCURY, intelligence. Take our advice as above and you will be sure to possess the last and most valuable quality.

WHY ARE HEELER & WILSON'S No. 9 SEWING MACHINES

POPULAR? BECAUSE LADIES

BUY THEM LIKE THEM AND TELL THEIR FRIENDS.

Many ladies have used our machines twenty to thirty years in their family work, and are still using the original machines we furnished them a generation ago. Many of our machines have run more than twenty years without repairs, other than needles. With proper care they never wear out, and seldom need repair. We have built sewing machines for more than forty years and have constantly improved them. We build our machines on honor, and they are recognized everywhere as the most accurately fitted and finely finished sewing machines in the world. Our latest, the "No. 9," is the result of our long experience. In competition with the leading machines of the world, it received the Grand Prize at the Paris Exposition of 1889, as the best, other machines receiving only complimentary medals of gold, silver and bronze. The Grand Prize was what all sought for, and our machine was awarded it.
