Rensselaer, Friday, March 30, 1894.

THE gold bug editors are figuring the per capita circulation at \$24.90 now, being 83 cents more than a year ago. This too in the face of the fact that large quantities of gold have been exported, while \$50,000,000 has been taken out of circulation and locked up in the treasury, and tourists take out annually \$100,000,000 more. In addition to this, many national banks have failed and gone into liquidation, and others called in a part of their circulation in order to create a "stringency" or "lack of confidence." As a matter of fact, when the amount held by the treasury as a reserve, and that held by the banks, together with the amount lost or destroyed, be deducted from the amount originally issued, it leaves less than half what the gold bugs claim to be in circulation, and no one knows it better than the gold bug editors. Such statements are meant to deceive.

THOUGH with the prospects somewhat in their favor, the Republicans of this state are, through bossism and factional fights beginning to lose ground. Chairman Gowdy in selecting his executive and advisory committees has snubbed the acknowledged leaders of the party and appointed upon these important committees a ring that is trying to dictate nominations and secure legislation favorable to its interests. This ring, it is claimed was formed in the last general assembly and is composed of a senatorial cabal with a few outsiders, of which outsiders "Jack" is the chief. Gowdy is a pee-wee in politics and should never have been re-elected chairman, say the big guns of the party. The air at Republican state headquarters is getting blue and smelling sulphuric.

No honest worker should want or starve so long as the nation lives. "Government of the people, for the people and by the people" is only an empty phrase—a mockery, a delusion and a snare—so long as the wealthy producers are reduced to beggary through an atrociously unjust system which enriches a few—a system which not only pauperizes the many, but compels them to become criminals.—Labor Standard.

THREE Republican lawyers of Rensselaer are candidates for the state legislature, and one or two more would like to run for prosecutor. Rensselaer's Republican lawyers were never accused of being backward in asking for Republican nominations. Had they been a little more modest in this direction and a little less numerous they would, in all probability, have been much more successful.

THE Hon. Clem J. Kern, of Porter county, is after Congressman Hammond's seat. Mr. Kern is a hard man to down when out for office. He is a fellow-townsmen of Judge Johnson, the probable Republican candidate. Let Mr. Kern declare himself for free silver and his chances for winning M. C. after his name will be just mighty good.

# STATE CONVENTION.

Called to Meet in Indianapolis on May 24, 1894, at 10 a. m.

To the People's Party of the State of Indiana.  
We, the People's party, at the outset to secure permanent control of the party organization unaffected by the interests of those in public service, do hereby, in accordance with the convention assembled at Omaha on the 4th day of July 1892, establish this ordinance as the fundamental law of the party organization, viz:

No person holding any office or position of profit, trust or emolument, under the federal or any state or Municipal government, including senators, congressmen and members of the legislatures, state and local, shall be eligible to sit or vote in any convention of the party. Under this ordinance we, your committee, call the state convention to be held on the above date in the city of Indianapolis for the purpose of placing in nomination for the various offices of the state, candidates to be voted for at the coming November election of 1894.

According to a previous address of your committee to the People's party of the state, the representation in said convention is apportioned to one delegate for each voting precinct in the state. The state central committees will meet at 2 p. m. on the day previous to the convention in room 35, Hotel English, and it is further ordered that the delegates of the respective districts meet on the evening of the 23d of May, to select one member each on the following committees, viz: Credentials, organization and rules of order, and resolutions. Your committee urge the importance of thorough organization upon the principles of the People's party, and a full representation in said convention. We most respectfully recommend, as a basis for political action to secure the rights of the great masses equal to the classes, the following:

That we favor the free and unlimited coinage of silver equally with gold at the ratio of 16 to 1, as it existed prior to 1872. That we oppose the issue of government bonds to supply the treasury with gold, or for any other purpose. That national bank notes be retired and that full legal tender government paper be substituted. That it be made standard money and a full legal tender in payment of all debts, and in sufficient quantities for the business wants on the country, to relieve the financial depression and revive prosperity.

JOSHUA STRANGE,  
Chairman State Cen. Com. P. P. Ind.

## How's This?

The Indianapolis Sentinel, democratic state organ thus speaks of the senate tariff bill: If our platform means anything, if our repeated declaration of principle mean anything, what is "democratic protection" or any other kind of protection but a fraud and a robbery? No man can draw any distinction. No sensible man would attempt to draw any distinction. Democratic protection would be not only a fraud and a robbery, but it would be barefaced and shameful, because it is in direct conflict with all democratic professions. Republicans can make some show of excuse for it because they have maintained that it was right, but democrats can make none whatever. There is not a democratic paper in the country that has not denounced the McKinley bill donation to the sugar trust, and now comes this senate report with a bonus quite as great in any event, and probably three times as great: there is not a democratic paper that has not denounced Attorney-General Miller's failure to prosecute the whiskey trust, or

failed to rebuke the dismissal of the prosecutions instituted against it under Cleveland's former administration, yet here comes this senate report with an unheard of, inexcusable, unjustifiable grant of five years' time to this trust on its taxes. There is not a democratic newspaper that has not denounced the infamous iron-coal-railroad combine, yet here comes this senate report with special, useless, unwarranted donations to this band of thieves. There is not a democratic paper that has denounced the oppression of cigarmakers by the absurd McKinley duty on Sumatra leaf, yet here comes this report with a duty of \$1 per pound on Sumatra leaf and an increased internal revenue tax of \$2 per thousand.

What answer can be made when republicans point to these violations of our declared principles? How can any democrat face an audience and say anything about trusts and combines? How can he meet the jibes and jeers that will be hurled at him? How can he talk about the iniquities of republican legislation with any such open iniquity as this confronting him? If republicans were dictating this legislation they could not more completely put the democratic party in the hole than the adoption of this report would.

"Perhaps you would not think so, but a very large proportion of diseases in New York comes from carelessness about catching cold," says Dr. Syrus Edson. "It is such a simple thing and so common that very few people, unless it is a case of pneumonia, pay any attention to a cold. New York is one of the healthiest places on the Atlantic Coast and yet there are many cases of catarrh and consumption which have their origin in this neglect of the simplest precaution of every day life. The most sensible advice is, when you have one get rid of it as soon as possible. By all means do not neglect it." Dr. Edson does not tell you how to cure a cold but we will. Take Chamberlain's Cough Remedy. It will relieve the lungs, aid expectoration, open the secretions and soon effect a permanent cure. 25 and 50 cent bottles for sale by F. B. Myer Druggist.

## Christianity So-called.

And just as Lucretius was right in exclaiming that a thing which called itself "religion" had been the prolific mother of many a deadly curse, so many modern students have been right in maintaining that something which called itself Christianity—something which priests would fain have passed off for Christianity; something which theologians have taught as Christianity, but which was not Christianity at all, and was, in point of fact, alien from its most essential attributes—had done incredible harm to mankind.

In what respect is the cause of "pure religion and undefiled" injured or weakened by our free admission that the names of religion and of Christianity have been grossly abused to the perpetration of innumerable wrongs? "O Freedom!" exclaimed Madame Roland, "what crimes are committed in thy name!" Was her cry a condemnation of freedom? Does the cause of virtue suffer from the fact that the worst ends of vice and falsity are often promoted by men who call themselves the servants of virtue, and wear the cloak of profession "doubly lined with the fox-fur of hypocrisy?" Is the majesty of duty impaired when men use her name as a covering of maliciousness, and obtrude her commandments as an excuse for gratifying their own vindictive rage? No! Religion, Christianity, Freedom, Virtue, Duty—they are eternal entities. Men may deface their true semblance; they might as well throw dust at heaven, in hope of staining it, as endeavor to obliterate the shining ideal of these great guardian angels of mankind.—From an article on "Christianity—True and False," by Archdeacon Farrar, in McClure's Magazine for April.
