THE BIG STRIKE.

Other Roads May Be Affected by the Great Northern Trouble.

ST. PAUL, April 19.—The decision of the Great Northern men belonging to the American Railway union at St. Cloud Monday night to strike has made that point the eastern end of the tied-up lines. That means that over 4,000 miles of the Great Northern system cannot be operated by the company under present conditions. The number of men involved either as strikers or thrown out by the strike is several thousands, the exact number not being now obtainable. Vice President Howard, of the American Railway union, said that he was waiting to see what the company proposed doing before permitting the men in the twin cities to go out. The meeting at Minneapolis decided to strike when Howard declared the time most opportune.

No attempt has been made by the company to resume business on the tied up portion of the system except in a few instances. In those cases the strikers prevented the making up of trains, but offered no violence to the men at work.

An officer of the American Railway union says that the first move made by the Great Northern to hire non-union men will be met by a strike on the Northern Pacific and Canadian lines, thus blocking absolutely all traffic. Monday night the Northern Pacific men refused to move Great Northern freight, although it stands in the Northern Pacific yards and obstructs business. They declare they will go out before they will move the freight.

Throughout the day and evening here American Railway union members were active among railway employees. There was a good deal of suppressed excitement, and the men all seemed to feel the matter must come to an issue within a short time. The members of the American Railway union say they are confident they can order a strike at Minneapolis at any time they give the word. They claim the younger element among the brotherhood is especially enthusiastic, and that many of the salaried employees, whose interests are supposed to be with the road, are really in sympathy with this movement. They have had their salaries cut, too, and know how the employees feel.

The members of the American Railway union say that now Vice President Howard is in St. Paul they, of course, will await his orders before taking any further steps in regard to the outcome. They say if the Great Northern does not settle this week every line west of Chicago will be involved. They claim to have the Northern Pacific thoroughly organized, the Chicago Great Western in a sufficiently good condition for a sympathetic strike, and the Burlington, too, and employees of other lines have offered their aid. It is difficult, of course, to find out how much foundation there is for such sweeping statements. The railroad men are evidently restless and dissatisfied.

The end of the fourth day since the American Railway union declared the strike finds it extended over all the lines of the company except a short distance from this city, and of the 4,405 miles of the system not to exceed 200 miles are in operation. This has been accomplished thus far without anything threatening bloodshed and the men say there is no danger of any trouble. They are determined, however, and will allow no trains to be made up or to be moved. At points along the line where mail trains were stopped by the strikers there has been daily an attempt to make up these trains and send them forward to their destinations, but in every instance the strikers managed to prevent such a move.

Coxey and His Followers Traveling Now on Canal Boats.

GREEN SPRINGS, Va., April 19.—Coxey's army has left the warpath for the towpath. It left Cumberland for Williamsport Tuesday morning, a journey of 84 miles, by canal. Two boats are required to carry the army and its sympathizers. There are now 300 men in the army.

COUNCIL BLUFFS, Ia., April 18.—Kelly's army has been duped by the state authorities. Gen. Kelly was given to understand that a special train would pick him up at the Chautauqua grounds, when, in fact, there was no such intention upon the part of the authorities or the railroads or anyone else. A special train containing four companies of state troops was sent out at midnight, and at once pickets were put out by Col. Mount and the entire camp was placed under martial law.

After a disheartening day Gen. Kelly returned from Omaha Tuesday night with the information that Gilbert M. Hitchcock, of the World-Herald, and Edward Rosewater, of the Bee, had guaranteed him transportation east by way of Kansas City if he could not make arrangements by a more direct route. The army is still encamped at the Chautauqua grounds in a heavy rain, which lasted all night, and without shelter of any kind. Four of the men are sick with a high fever and they, like the others, are compelled to lie on the ground in their rain-soaked blankets. The rain came down in torrents at times and the men looked in vain for shelter. This was extremely scarce. The militia occupied the only buildings in the vicinity and would not allow a Kellyite to enter.

THE Bhatgar reservoir, a great artificial lake in India, said to hold about 4,641,000,000 cubic feet of water, acts as a feeder to the Nira canal. It is formed by a masonry dam one hundred and three feet high and three thousand and twenty feet long.

THERE is more Catarrh in the section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven that there is a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Blood Poisoned After Typhoid Fever

A Marvelous Cure by Hood's After All Else Failed.

"Twenty-five years ago I had a bilious fever, and later it turned into typhoid fever, and for five weeks I lay like one dead, but at last I recovered on my left leg just above the knee a small brown spot about as big as a three cent piece. I did not pay any attention to it until two years after, when it commenced to spread and have the appearance of a ring worm. It itched and burned and I commenced doctoring,
