

## HERE'S SOMETHING.

We doubt if there is any business that feels the effects of the hard times more than the newspaper business. We do not like to say it, but we have outstanding subscriptions due us, amounting to more than \$500, and we are compelled to ask your assistance. Call and see what your account is, so that it can be adjusted. We need the money. We have to pay spot cash for our paper and it takes money to meet the bills. If you think you are in arrears for your subscription, call and see if it is so. We will be pleased to see you. It is only a dollar here and there, but in the long run it amounts to a great deal.

Of the many Populist exchanges coming to our office, none spends so much money to get the suppressed Washington news before its readers as the Nonconformist. Yes, suppressed news. What the plutocratic papers have been careful to keep their readers from finding out, the two tireless correspondents of the Nonconformist have dug up and sent to the paper for the benefit of its thousands of readers. Many a secret has thus leaked out that the plutocracy never meant the common workaday people should know. We have made special arrangements whereby we can send the Nonconformist and PEOPLE'S PILOT till January 1st. for \$1.00.

I have two little, grand children who are teething this hot summer weather and are troubled with bowel complaint. I give them Chamberlain's Colic, Cholera and Diarrhoea Remedy and it acts like a charm. I earnestly recommend it for children with bowel troubles. I was myself taken with a severe attack of bloody flux, with cramps and pains in my stomach, one-third of a bottle of this remedy cured me. Within twenty-four hours I was out of bed doing my house work. Mrs. W. L. Dunagan, Pon-aqua, Hickman Co., Tenn. For Sale by F. B. Meyer Drug-gist.

The work of placing the gravel on the Long Ridge road was commenced last week. The contract for this part of the work has been relet to Messrs. Lowman & Voss, of Francesville, and it is being put through in a hurried, though satisfactory manner. They are securing the material from the Stackhouse gravel pit. On the College road the work is being pushed also. At the hill near the Catholic cemetery, south of the college, a great cut has been made, almost leveling the pass through the hill. The gravel to be used on this road has been decided upon. The commissioners have been making examinations and think that the Shields gravel is the right kind. It is said that the top dressing will be of Lafayette gravel. The very best material should be used so as to make the road a permanent thing, and not to necessitate a heavy expense of repairs every year.

Victor Hugo's masterpiece, "Les Miserables," is perhaps better known to American readers than any other work of fiction written in a foreign language, and his hold upon the popular imagination comes from his large, intense sympathy with every phase of human life. For this reason many readers of the current magazines will turn first of all to B. O. Flower's thoughtful and suggestive critical commentary in the June Arena on "Victor Hugo's Social Ideals." It is the concentration of the great poet's social philosophy.
