CHICAGO - BARGAIN - STORE.

At No Previous Time

In the history of American retailing has merchandise been sold at as low prices as now. The qualities, mind you, are the best, but the prices are away down to a point not dreamed of by the buyers of a couple of years ago. Of course, all dealers cannot meet this existing demand for low prices. It is the opportunity of the resourceful merchant. Capital to buy in quantities and capacity to sell them at less profit than competitors with partnership stores, higher rents and double the expenses. Allow us to name a few prices that possess a marvelous fascination for the wisely economical. Do we speak the truth?
