Four Big Successes.

Having the needed merit to
more than make good all the ad-
vertising claimed for them, the
following four remedies have
reached a phenomenal sale. Dr.
King's New Discovery for Con-
sumption, Coughs and Colds,
each bottle guaranteed—Electric
Bitters, the great remedy for
Liver, Stomach and Kidneys.
Bucklen's Arnica Salve, the best
in the world, and Dr. King's New
Life Pills, which are a perfect
pill. All these remedies are
guaranteed to do just what is
claimed for them and the dealer
whose name is attached here-
with will be glad to tell you more
of them. Sold at F. B. Meyer's
Drug Store.

A CIRCULATING medium for
the exchange of commodities
should consist, not of a sub-
stance naturally scarce, which
cannot be made to increase with
the increase of population and
the growth of business, but, on
the contrary, it should be capa-
ble of adjustment to these con-
ditions.

THE difficulty with bi-metalism
is that it requires a less valuable
metal to be maintained at par
with a more valuable one. This
unnatural condition cannot be
indefinitely maintained except at
constant expense. The objec-
tion to the recent bill for coining
the silver seigniorage was not
that it would add fifty-five mil-
lions to our coined money, but
that it necessitated the addition-
al burden of maintaining fifty-
five millions more of silver at
par with gold. Issuing gold
bonds to meet this expense does
not cure the difficulty—it only
postpones it, together with add-
ing to our indebtedness. Along
these lines there is nothing but
difficulty and disaster.

OUR country is comparatively
a new one, with population in-
creasing rapidly, by immigra-
tion as well as by natural in-
crease; and rapidly increasing
wealth by the development of
vast natural resources. Shall
our vast interests be crippled by
a meagre medium of exchange?
The natural basis for a medium
of exchange is population and
wealth, and not diamonds, rubies,
gold or silver. Population, with
wealth in its various forms, is
the source of need of a medium
of exchange, and should be the
basis of supply. Considering
the vast material wealth of this
country, many think that fifty
dollars per capita is the amount
required for the best results.
The evils of insufficient (and
improperly distributed) circulat-
ing medium have been seen dur-
ing the past nine months in the
shape of idle hands and silent
industries.

THE plutocratic pencil push-
ers are tearing their hair and
swearing that they can't under-
stand why gold is being shipped
out. Don't suppose they can as
they have always labored to not
understand it. But every man
with a thimble full of brains and
one particle of moral and politi-
cal honesty can and does under-
stand it. You lying, sneaking
traitorous devils to American in-
terests, it is the grand and final
sequence to the infamous legisla-
tion of the past thirty years that
has so depreciated the value of
all exportable articles, that their
sale will not meet the constant
demands made upon the country
for interest and dividends from
abroad, and we are compelled to
sell bonds to meet these demands;
That is, we are placing new
mortgages on the nation to keep
from defaulting interest, and
every additional obligation so
placed only renders us less able
to meet them. It is just like a
man burning a candle at each
end, it only hastens the inevita-
ble result. No legislation will
help this country except that
which will so raise prices or cut
down expenses that both the in-
dividual and nation will have a
surplus left sufficient to meet
their obligations and lay up
yearly something as a stored re-
source. There are debts due
foreigners, and investments in
this country held by them that
calls for a sum in interest and
dividends so great that the pres-
ent low prices of our agricultural
products are insufficient to meet,
hence this gold drain. Foreigners
with cheap money and cheap
raw material can furnish them-
selves with all kinds of manu-
factured goods cheaper than we
can and can undersell us in the
markets of the world, hence our
only resources to meet these de-
mands are our agricultural pro-
ducts and gold reserve. Our
agricultural resources are so re-
duced by our appreciation of

our money that they will not
meet them, and we have no gold
reserve, hence our only alterna-
tive that can be seen by the po-
litical shysters at Washington is
to borrow, sell bonds. Cheap
money, cheap raw material and
statesmanship would give us a
part of the world's market for
our manufactured goods, and
then our sole dependence would
not be upon the exportation of
agricultural products as now. But
the fools, thieves and boodlers
at Washington nor the hired
liars for the daily papers won't
see these things because they
are well paid to not see them.

Marion Township Convention.

The People's Party of Marion
township will meet in conven-
tion at the Makeover House, on
Saturday, July 7, 1894, at 2
o'clock p. m., for the purpose of
nominating a township ticket to
be voted for at the November
election. By order of

WM. WASHBURN,
Chairman.

Alliance Meeting.

Of the many Populist exchan-
ges coming to our office, none
spends so much money to get the
suppressed Washington news
before its readers as the Noncon-
formist. Yes, suppressed news.
What the plutocratic papers
have been careful to keep their
readers from finding out, the two
tireless correspondents of the
Nonconformist have dug up and
sent to the paper for the benefit
of its thousands of readers.
Many a secret has thus leaked
out that the plutocracy never
meant the common workaday
people should know. We
have made special arrange-
ments whereby we can send the
Nonconformist and PEOPLE'S
PILOT till January 1st. for \$1.00.
