### Badly Burned.

A short time before noon on Wednesday Mrs. Geo Gauthier was terribly burned by the explosion of a gasoline stove.

Through the mistake of a groceryman, coal oil was sold instead of gasoline. Mrs. Gauthier discovered the error on attempting to start a fire. The oil was returned to the grocery and gasoline substituted. On a second attempt to light a fire an explosion followed, and Mrs. Gauthier received very painful burns about the hands and face. Only the presence of mind of Mrs. Gauthier in tearing the burning clothes from her saved her from more serious injuries, and probably death.

Portions of the carpet were burned and the house was in danger of being burned had not neighbors arrived in time.

Dr. McCain was called and rendered all possible assistance to lessen her sufferings.

The many friends of Mrs. Gauthier hope for her early recovery.—Kentland Democrat.

Mrs. Gauthier's many friends here will be pained to learn of her misfortune.

Hon. Philip Rappaport, of Indianapolis held two meetings in this county last week, one at Wild Lily. Union township, and

one at Blake's school house, Jordan township. A moderate sized country crowd met him at Wild Lily, and at Blake's, there were more present than could be well accommodated. Mr. Rappaport's speech was more adapted to an audience of common city laborers, than to a crowd of farmers. Neighbor down the street, seems to think these speeches of Mr. Rappaport were very rabid. He fears the People's party is drifting into communism and anarchy.

The members of the Populist party are just people like other people. They were all raised in the Republican and Democratic parties. They are just as wise, just as patriotic as democrats or republicans; and they seem to be just about as numerous. We have no fear of any considerable portion of our intelligent, patriotic citizens going into a communistic or anarchistic movement. Truth, right, reason and intelligence in this country are against anarchy and communism; so neighbor, be not alarmed, have faith in our religion, faith in our education, faith in our millions of good, wise people.

### Pay Your Small Debts.

The character of a very well known man was being confidentially discussed the other day, when a neighbor of his pointed out that he had a habit of letting small debts run. His neighbor was astonished to be told that the well-known man's income could not be less than \$40,000 a year, and that his name stood high in merchantile circles. The neighbor had a poor opinion of the other's financial resources, based upon this very slackness in paying small debts. Sensible men in debt, like bankrupt railroads, should borrow a sum of money and pay up the small accounts. The small people always need the small amounts, and it is better to be worried by one mortgage than a score of anxious creditors. This is worldly wisdom, and I am led to dwell upon it because I know a man who yesterday chipped into a syndicate to buy a steamboat company and put up a large certified check, although he was posted at two of his clubs and owed a meat bill of \$125. It's a queer world!—New York Press.
