

One that you can keep clean all the time—a collar that does not wilt when you get over-heated; that does not fray on the edges, or tear out at the button holes, and can be cleaned by simply washing off with a wet sponge or cloth. These collars and cuffs are made by covering them with waterproof "Ceruloid," thus giving strength and durability. They are entirely waterproof, green so made, and every piece is stamped and initialed.

Miss Alice Knapp, who has been so bad sick is able to be up about the house.

Miss Lizzie Ganan is slowly improving, after a severe illness.

Mrs. Lee Ross and daughter, spent Saturday with friends in Rock.

The teachers of Iroquois township met in institute at the Brown school house, Saturday, Nov. 17, and spent the day discussing the best way to teach the young "idea."

Mr. Philip G. Cabe will give a box social at the Foresman school house, next Saturday night, at 8 o'clock. N. C. Pumphrey will give one at Franklin school, Wednesday evening, Nov. 28. All are invited to attend both.

The box supper given by B. W. Pumphrey was a rousing success. A large orderly crowd

was the best help and a good short programme and plenty of boxes completed the necessities. After the programme, James Moffit sold the boxes which started at 80 cents for the 1st box, but this was too low for such handsome boxes and good suppers, and ere long they were going at \$1.75 and a dollar, which soon increased to \$2, and then \$3, and finally to \$3.75. Miss Elsie Lyons' box sold for \$3.75. She is a popular young lady and had an excellent box. The receipts of the evening were \$24.35.

Opening a watch with knife needless in our

The Keystone Watch Case Company, of Philadelphia, Pa., furnishes free a handsome watch opener which makes, besides, a pretty charm for the watch chain. If you can't get one from your jeweler, send to Philadelphia. This Company is the largest of its kind in the world, and makes all kinds of cases. Its specialty is the Boss filled case. Jas. Boss invented and made the first filled case in 1859, and many of the cases then made and worn since are still in use. Later patent passed into the hands of the Keystone Company, which has the sole right to make these cases. It has also the sole right to use on its cases the patent to pull out bow or ring, which prevents loss of the watch by accident or injury to it by accident. The Keystone Company does not retail, but all jewelers sell the Boss and other Keystone cases.

I've suffered sufficient My sins to atone, And now I'm determined To let 'em alone.
