Rowdies in Milroy township the other night went to Fairland school house, upset the out-houses, broke the lock and entered the house and stole several books belonging to the pupils and some valuable ones belonging to the teacher, Mr. Albert Farmer. Such rowdism should be looked after. Our school houses are two often made the prey of these worthless sneaks.

W. N. Jones offers his services to those who have sales this fall. W. N. is an old experienced crier. Give him a call.

The Newton county Enterprise seems to be greatly worried over the little items it has of late been seeing among its exchanges referring to "back in Newton county, in one of the remote counties of the state, in an out township of Newton where they forgot the election" or again, "up in the land of freaks republican jollifiers beheaded 100 roosters and sucked their blood." The Enterprise in trying to set matters right pictures Newton as the first county of the state. It refers to five railroads, smart teachers, electric lights, deep soil and a little congressman, but does not deny the cock tale and the township's failure to vote.

Resolutions.

The following resolutions were passed by the Jasper county teachers, at their association which occurred last Friday and Saturday, Nov. 30th and Dec. 1st: RESOLUTIONS.

Whereas our state institutions at Bloomington, Terre Haute and Lafayette have been crippled by want of proper financial support, and compelled from time to time to surrender many of their best men, because of better salaries offered by other institutions better provided for in other states, be it

Resolved, That we as teachers of Jasper county deplore the illiberal spirit that our legislatures have shown towards our state university, state normal and Purdue University in the matter of appropriations for equipment and maintenance, and that we most urgently petition the coming session of the legislature, through our representatives Messrs. Phares and Spittler, to grant these institutions such aid as they need and deserve.

Resolved, that a copy of this petition to be signed by the members of this association, be handed to our representatives, and with the request that they use their best efforts to secure its favorable recognition.

Resolved, that it is the sense of the teachers of our county that the usefulness of the state university, great as it has been, will be very greatly increased by its removal from its present inconvenient and almost inaccessible location at Bloomington to Indianapolis.

Resolved, that additional safeguards be thrown around the selection of county superintendents, and superintendents of all towns having commissioned high schools, by the enactment of a law requiring all such superintendents to hold a life state license, or a diploma from the state normal school or from the pedagogical department of the state university.

Resolved, That the Indiana book law should be so amended

as to place the sale and distribution of all text books for the public schools of the state, wholly in the hands of the dealers without the intervention or supervision of any of the public school officials.

Whereas, the teachers of Jasper county by right and justice are entitled to the full benefit of all legal holidays occurring during the school term, said right being recognized by every state superintendent for more than twenty years, and by our courts of justice, and our own county superintendent, be it

Resolved, that we sincerely deplore the refusal of some of our township trustees to grant us our rights in this direction, and now most respectfully but earnestly insist upon the same.

The boards of trustees of the towns of Rensselaer and Remington have long recognized those rights of their teachers, and there exists no good reason why the county teachers should be deprived of theirs.

Resolved, that the Jasper County Teachers' Association subscribe, and pay for one membership in the Indiana State Teachers' Association, and one in the Northern Indiana Teachers' Association; and that the Jasper County Association annually, at its regular session, elect one delegate to attend each of aforesaid associations. Said delegate to be invested with full power to represent this association in all matters pertaining to the educational work of the state. Said delegate to defray his own expenses.
