

Waterproof collars and cuffs that will not wilt, are not effected by moisture and look just like linen are all the fashion now. They are made by covering a linen collar or cuff with "celluloid" and are the only waterproof goods made with an interlining, consequently the only ones that will stand wear and give perfect satisfaction. Try them and you will never regret it. Always neat, and easily cleaned. When soiled simply wipe off with a wet cloth or sponge. Every piece of the genuine is stamped as follows:

Ask for those so marked and refuse any imitations, as they cannot possibly please you. If your dealer does not keep them, we will send a sample direct on receipt of price. Collars 25c. each. Cuffs 50c. pair. State size and whether stand-up or turned-down collar is wanted.

#### GOODLAND.

BY SPECTATOR.

Circuit Court convened at Kentland Monday. The docket is said to be a light one.

Fog Horn Kelley, of Remington, has moved to Goodland.

Mr. J. L. Cook will soon commence the erecting of a good substantial residence on the lots in the west part of town, formerly owned by O. W. Weeks. His father will occupy the old property lately vacated by Mr. Weeks.

Has our town a health officer? If we have we would like to call his attention to the deplorable condition of some of the our house vaults. Goodland never did have a health officer that amounted to anything.

The Goodland schools are progressing with remarkably good success, with but one or two exceptions. They will be corrected before another school year begins.

Dame Rumor says there is soon to be built in Goodland a three or four story brick hotel. Hope it is true.

Otto Enell, president of the Goodland Wall Paper Cleaning Co., is still boarding at the hotel DeCook, in Chicago.

Now if the town board will only be as anxious to retrench expenses as they have been to make them, they will reduce the marshals salary a few dollars.

For the sake of a badly inflicted community won't the town board please call off some half dozen or more of those jack all electricians now at work here in town? Give the job to William and Young, experienced electricians. These boys have not only worked every day since the putting up of the plant commenced, but night after night they have worked in the business houses all night that they might be ready to start their lights when the plant started. Some of the yahoos now at work never saw an electric wire till the wires came to Goodland.

A fuse in one of the transformers near Bringham Bros. store burned out Saturday night and left three or four stores and offices in darkness for twenty minutes or half an hour. The services of Williams and Young were soon solicited and in a few moments after the arrival of the boys, the thing was in running order again. This was the cause of inexperienced men in over taxing the transformer. They had been warned by Williams and Young that a 90

power incandescent transformer would not carry one hundred and twenty. Experience is always the best lesson anyway.

BROOK.

BY OBSERVER.

Canning factory and tomatoes are a popular subject of conversation.

Messrs. E. G. Jones and R. E. Hershman talk of attending school in the spring.

Several of our young bloods are attending court this week. We have a new prosecutor. See?

Mr. David Ginan returned from the canal work in Ill. He has a winters job at \$2.50 per day. Boy will you work?

Rev. H. Snider will begin a protracted meeting at No. 7 church this week. He is an able speaker and will pay all to hear him in a series of sermons.

Mr. Geo. Conn is treating the boys to cigars this week. A fine large boy to call him O'night is the occasion of the expense.

Mr. Ira Forrey near town is bad sick with typhoid fever. He had his trunk packed and his dinner ready to start to Danville, Ind., to school and took sick in the night.

Since our last writing we have had the misfortune to lose two of our friends and neighbors in the throes of death. Mrs. John McCabe passed peacefully away Thursday morning, Dec. 6, at 6 a. m. surrounded by her family and relatives. She leaves behind a loving husband and five children to mourn her loss. Mr. McCabe buried his oldest girl in Oct. and now his wife, it seems like the hand of fate was set against him.

Mr. Daniel Lathrop died Friday eve. at 4 o'clock leaving a wife, son and daughter to mourn him. He was laid to rest Sunday. The funeral services were conducted from the U. B. church. Rev. Snyder officiating.

The canning factory is a settled fact as the cite is located and the work of building will begin some time next week. Now the farmers can begin to prepare to raise tomatoes. It will be one of the best and largest factories in this part of the state. The men who are pushing this enterprise deserve the confidence and esteem of the people of Brook and vicinity.

KNIMAN.

BY IMAGINATION.

Rev. B. F. Ferguson was in our town last week.

The teachers of Walker township attended joint Institute at Wheatfield, with Wheatfield and Kankakee townships. A good time was reported.

Mr. William Ballinger, of this place, is attending a law suit in Ohio.

The Peters' Hay Press has been moved to Marlboro and several hands from here are there at work.

Mr. and Mrs. Halleck, of Fair Oaks visited their son Ran and family, of this place, last Sunday.

Dr. Wells, of DeMotte, was in Kniman last week.

Mr. Frank Peters our esteemed merchant is quite a frequent visitor of Wheatfield. There seems to be some attraction there for him.

We wonder why Mr. Leslie Sayers, of DeMotte, visits Kniman so often. Of course he knows.

The weather has been so pleasant and so nice that our people had almost forgot the coming of Santa.

Mr. R. Hallick brought a few bales of hay from DeMotte as the sample of the work of his new press of that place. This press is a new thing, it cuts the hay very fine, and from twenty to twenty-five tons can be pressed a day. This hay is said
