

Interlined "Celluloid" Collars and Cuffs turn water like a duck's back and are neither spot nor soil. They are not affected by perspiration, and always look as if right out of the box. When they get soiled you can clean them in a minute by simply wiping off with a wet cloth. These are but a few of the advantages of wearing the "Celluloid" Collars and Cuffs. There are many others that you will readily discover the first time you wear one. They are the only water-proof interlined collars and cuffs made. To make sure get the genuine with this trade mark.

Our young people attend church and are very orderly but some of our old professors must have grown very cold, as they never come to church nor contribute anything to the cause.

Charles Summers has suffered great pain for several weeks from a bone felon on the thumb of his right hand. Several splinters of the bone have come out.

The common people weighed the democratic party and found it wanting, so they dumped it out, and the Republican party is now getting into the scales and they will be weighed on the same scales of equity and justice and from appearances they will be dumped if they fail to administer the laws to the good of the largest number of our citizens and legislate to the interest of a special few this is why the last two elections have gone so overwhelmingly democratic and then back republican. So great a majority it was to give each party one great last chance to redeem itself. Now, gentlemen, be cautious. Why are so many of our best farmers, who ought to be the most prosperous men in our county, selling their farms? It is because the price of our products are below the cost of production and farmers are falling behind financially, with no possible show of ever

paying out. The way congress favors the money sharks of Wall street and allows them to limit the amount of money we are to have to do the business of our commerce. This is the only reason we can give for so many of our people parting with the old homestead. If we are wrong please tell us better.

The Burnstown social like all the other box socials we have read of this winter was "a grand success." The cheapest box sold was for 75 cents and they ran from that to \$1.50. The book put up for the most popular girl and voted on at 1 cent a vote brought \$11.47. The winner was a little school girl of this place. The net proceeds amounted to over \$20.

Attention.

We have 311 delinquent subscribers whose names we would like to place on our roll of honor next issue. Some of these are behind three years and none of them less than one year. No business can run this way, and especially a newspaper at \$1 a year. We ask that these tardy friends call and settle up before the close of the year. Four-fifths of these delinquents are just mere thoughtless neglect. Come now friends wake up and help us out a little.

THE CHICAGO TIMES.

Established 1854.

THE PEOPLE'S PAPER.

8, 12 and 16 Pages Daily.

32 to 48 Pages Sunday.

No great daily in the United States is so closely in touch with the people as The Chicago Times. Its policy is progressive, liberal, tolerant. The Times holds that existing social, political, and industrial conditions are not founded upon the principle of equal rights to all and Special privileges to none. That under existing conditions injustice necessarily done the mass of the people. The Times has its own convictions as to how these conditions may be amended. While urging its own beliefs strenuously and intelligently it does not dismiss with contempt or without a hearing the advocates of other economic reforms. The Times is fearless in its utterances and unswerving in its devotion to the great body of the people. The Times believes in free speech, the free coinage of silver, and radical tariff reform. The Times believes in government control of all natural monopolies. The Times believes in such a tax on land values as shall lighten the burden of the farmer and make the owner of valuable city property pay his just share. The Times believes in the wisdom and good faith of the people. The Times prints all the news from all the world in a manner interesting and instructive to all the people.
