

A Clean Collar

One that you can keep clean all the time—a collar that does not wilt when you get over-heated; that does not fray on the edge, or tear out at the buttonholes, and can be cleaned by simply wiping off with a wet sponge or cloth. These collars and cuffs are made by covering linen collars or cuffs on both sides with waterproof "celluloid," thus giving strength and durability. They are the only waterproof goods so made, and every piece is stamped as follows:

Ask for this, and refuse to take any imitation if you expect satisfaction. If your dealer does not keep them, send direct to us, enclosing amount, and we will mail you sample. Collars 25 cts. each. Cuffs 50 cts. pair. State size, and whether stand-up or turned-down collar is wanted.

After Twenty years of Thrift.

REMINGTON, Jan. 7.—For twenty years the Bank of Remington did business across a counter made by a local carpenter. When they begun business it was found sufficient for all practical purposes. The increase of their business in the past few years demanded of them better facilities this they have secured by placing in their office a very neat substantial bank counter. While not gaudy is made of Indiana's native and beautiful wood, quarter sawed oak. This improvement is a credit to the bank and its managers and a compliment to the public who patronize it.
