Mr. Gladstone has just written an article on "The Lord's Day," wherein he considers, with the fervor of conviction and the breadth of learning for which he is famous, the grounds for keeping as the Christian Sabbath the first instead of the seventh day of the week, and the proper measure and spirit of Christian Sabbath observance. The article will appear in McClure's Magazine for March, along with a series of portraits of Gladstone covering a period of over eighty years showing him at every important epoch of his life.

Quarterly Meeting.

Last Sunday was quarterly meeting day at the M. E. church. The services began with an interesting Sunday school session a 9:30; at 10:30 the Presiding Elder, the Rev. J. H. Wilson, of Valparaiso, preached an elaborate sermon, citing as a text the familiar precept, "Prove all things; Hold Fast to that which is Good." The discourse commanded the close attention of a large and appreciative audience. The holy communion was celebrated at the close of the sermon, many participating in the solemn service. The love feast at 3 o'clock was well attended, and, in every way, a happy occasion. The League had, as usual, a full meeting at 6 o'clock. The evening congregation was favored with an admirable discourse by a representative of the Children's Home Society, the Rev. F. M. Elliott, of Crawfordsville. He explained the mission and methods of the society, and gave a thrilling account of the good work it is doing for homeless children, picking up the little friendless ones, and finding for them good Christian homes. Surely nothing can be more truly Christ-like than saving homeless children from want and vice, and vice, and putting them in training to become useful citizens. The pity is that every citizen of the town did not have the privilege of hearing Mr. Elliott's discourse.

The guests all went home wishing them many more such days.

Frank Leslie's Popular Monthly.

In the March number of Frank Leslie's Popular Monthly the wonderful story of the life and inventions of Thomas Alva Edison is set forth, in an article by Henry Tyrell, with the apparent purpose of contrasting an actual living hero, a modern conqueror of science, with the dark and sinister shadow of Napoleon as projected anew by the curious contemporary revival of his sanguinary legend. The paper is accompanied with some interesting illustrations, including new portraits of Edison, of his parents, wife, children, and scientific collaborators. Other important contributions to this unusually full and interesting number of Frank Leslie's Popular Monthly are: M. V. Moore's striking account of "The Great Salt Lake, and Mormondom"; Captain H. D. Smith's stirring and patriotic account of "The United States Revenue Cutter Flag," a delightful art paper upon "Cameos and Cat Gems," by Theo Tracy; "How Brouze Statues are Cast," with the latest works of American sculptors, by S. Milligan Miller; "Bulgarian Village Life," picturesquely illustrated, by Celia R. Ladd; Personal Reminiscences of Charles Reade, by Howard Paul, and of Anton Rubinstein, by Mrs. W. K. L. Dickson; and a practical article, with many distinguished canine portraits, on "Dogs and their Keeping," by S. H. Ferris. There are good short stories and poems by Charles Edwardes, Louise Morgan Sill, Gertrude F. Lynch, Jessie M. Andrews, H. E. Armstrong, Julia D. Young, Annie L. Muzzy, Ernest Delancey Pierson, Norman Gale, and others.
