### Catholic Notes.

Next Monday at 10 a. m. the nuptials of Miss Ellen Lane and Joseph Rajal will be celebrated in St. Augustine's Church.

The dramatic and musical entertainment given under the auspices of the S. L. S. at the opera house last Thursday was a great success. Miss Maggie Healy as the abandoned wife gave an excellent interpretation of that difficult role, Miss Lucy Donnelly was also an excellent effort and her work was highly commendable. Mr. Wm. Beck was noticeably strong in his tragic scenes and his longer lines were well delivered. Francis Meyer was exceptionally strong in his characterization of the Yankee Detective being one of the strong points of the play. Too much cannot be said of him as the disguised dutchman and artist. He had the audience in roars of laughter during his parts. Wm. Walters did all that could be expected of him; he was a true specimen of the "cold gem". Messrs Peter Hordeman, Joseph Luers, Francis Borntraeger, Chas. MacLainburg, Thos. Eigelsbach and William Meyer played their parts creditably. Special tributes of praise were lavished upon John Eigelsbach who played his role in such an excellent manner and appeared as the "cute little sailor".

The recitation of Mable Doty was received with rounds of applause and her appearance together with the college band added considerably to the entertainment. The S. L. S. tender their thanks to Mable Doty for her kindness, also to the People's Pilot and Rensselaer Republican for advertising the play, and in particular does the S. L. S. tender its thanks to all who attended and encouraged the efforts of our home talent. The net proceeds amount to \$40. and will be used in purchasing books for the library of the S. L. S.

Improvements will soon be made on the Catholic cemetery. The hill facing the gravel road will be cut down, a new iron fence will ornament the road sides, and a small chapel containing a statue of the Dolorous Mother will be erected in the center of the cemetery.

### Wide Tires Have Come.

For several week the Pilot has urged the necessity of wide tires for all traffic wagons to preserve and improve the roads, especially the gravel roads. The enterprising firm of Warner & Son have seconded the effort by the purchase of a large shipment of the very best wagons, with wide tires, which arrived this week, and are now stored in their large ware rooms. This order is one of the largest of its kind ever given by the firm, making a string of wagons quite two blocks long. The receipt of these wagons is opportune, and at the rate they are being taken by purchasers another shipment will soon be needed. They are up to date in every particular, the purchase price is discounted by cash with order, and prices are made correspondingly low to customers. It costs nothing to examine these splendid wagons and convince yourself as to their superior value as compared with other grades and makes.

### Those County Walks.

EDITOR PILOT.—We see that the county Auditor has advertised for bids for the construction of a cement walk along the north side of the public square. There is no more need of a walk on that side of the court house than there is on either of the other three sides. Every accommodation this new walk will give is already amply provided for on the opposite side of the street. We, of course, have never seen very much, have never been very far from home, but the few public squares we have seen have had no walks at all next to the court house side of the streets. There is no need of walks around a court house yard no need of a horse high, hog tight and bull strong iron fence around it either.

Nice walks leading through the yard to the building are alright enough, but there is no sense, no need and no real public benefit in making cement walks around the outside.

We think in these times of high taxes, when the county has interest bearing debts hanging over it, our commissioners should be more careful in ordering improvements and repairs. Had the interests of the taxpayers, or the real benefit and convenience of the public been consulted, no bids for a cement walks would have been advertised for.

### Short Crops and Lower Prices.

With a crop of 600,000,000 bushels of wheat in 1891, under McKinley protection, the average price was 83 cents per bushel. With a crop of only 400,000,000 bushels in 1893, under Democracy, it averages only 62 cents. Put this in your pipe, farmers, and think it over.

### Sugar Is Dearer.

The bounty on raw sugar was 2 cents per pound and the tariff duty is now 40 per cent ad valorem, or less than 2 cents per pound. Should we not, therefore, have cheaper sugar now than under the McKinley law?

### "One in Doubt."

The present duty on raw sugar will average 1.20 cents per pound on a basis of 3 cents as the average value of all raw sugar that we import. This duty must be applied to all the sugar that we consume, because the market value of our domestic sugar will correspond with that of the duty paid imported sugar. Applying this duty of 1.20 cents to the 3,433,209,500 pounds that we consumed last fiscal year we have a total charge to the people of \$2,118,514. The bounty of 2 cents per pound was chargeable only on the quantity of domestic sugar produced in this country, being \$12,099,899 for the fiscal year ending June 30, 1894.

Where the bounty cost the people only \$12,000,000 the new duty will cost \$2,000,000 on the basis of our present consumption, making an additional charge for sugar of \$40,000,000 to be paid by the people as the result of the Democratic policy on sugar. That is why sugar will now cost the people more money than under the McKinley tariff, and the producers of domestic sugar will also receive less protection to the extent of 4-5 per cent on every pound of sugar that they produce.

## FAIR FACES

Disfigured by Eruptions

ARE CURED BY

**AYER'S SARSAPARILLA**

"Some years ago, I was in a terrible condition with a humor, or eruption, which broke out all over my face and body. Seeing the testimony of others as to the efficacy of Ayer's Sarsaparilla in like cases, I concluded to give this medicine a trial, and the result was a thorough cure, no sign of the complaint making its appearance since. I have no hesitation in recommending Ayer's Sarsaparilla for any kind of skin disease."—J. W. DEAN, Moss Point, Miss.

Mr. Fred Miller, of Irving, Ill., writes that he had a Severe Kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called Kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all Kidney and Liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c. for large bottle. At F. B. Meyer's Drug Store.

### Studies for April and May.

1. What is money?
2. What is its relation to wealth?
3. By whom should it be created?
4. Of what material should it be made?
5. How much money ought to be created and kept in existence in the country?
6. How can it be put in circulation and kept in circulation among the people?
7. How much should be paid for the use of money, and to whom should it be paid?
8. Should the law prevent speculation in money?
9. Should the law prevent the loaning of money by individuals or corporations?
10. What is a flexible currency?
11. What would be the best means for attaining a flexible currency?
12. Should banking be permitted by law except by government agencies?

The above studies for this and next month are taken from a small work used in the Colorado Alliance. This system in study is a good thing and we hope all sub-alliances will discuss these and other topics thoroughly.

The Farm Record, the official paper of the State Alliance, a 16-page monthly, price 50c a year, will be sent free to every subscriber of the People's Pilot who pays \$1.00 on account, past, present or future. This offer is made in place of any other premium offer.

The Aid Degree has paid over \$20,000 in death accident benefits from January 1, 1894, to February 1, 1895.

An Aid Degree lodge was formed in No. 3,127, Lafayette county, Missouri, last month. Still they come!

Another aid degree lodge was organized in No. 3,065, Lafayette county, Missouri, and a start made in No. 3,064.

A life insurance policy in the Alliance Aid is beyond the reach of the assessor or tax gatherer; the sheriff can never touch it, but at a cost of only about 1 per cent per annum (ranging from half of 1 per cent to 2 per cent) you add \$1,000 to your estate for the benefit of dear ones at the darkest hour they will ever see.

The March assessment of the National Alliance Aid is made to pay death losses as follows: Geo. W. Gust, Preston, Kan., \$2,000; James W. Cook, Warner, S. D., \$2,000; James T. Alexander, Augusta, Kan., \$1,000; George F. Covil, Aberdeen, S. D., \$2,000. The families of the above deceased brothers will be placed beyond the danger of immediate want by their foresight in taking a policy in the Aid Degree, and when it comes our turn to join them "over there" the brothers will do for our families what we now do for these.

The fraternal orders furnish the cheapest kind of life insurance in the world, and the farmers live longer than other classes, accordingly the death rate is lower than in other occupations—therefore, it naturally follows that life insurance furnished in our own order will be cheaper than in any other order—the cheapest in the world. The following counties in Indiana are now represented in the Aid Degree: Boone, DeKalb, Green, Hamilton, Henry, Madison, Marion and Tipton.

Next week we will give our readers the cost of life insurance in this order, which has established such an enviable record for careful management as shown by the low death rate, and which is controlled by the national executive committee of the Alliance. The members of the organization no longer need to look outside for safe insurance. Their own order ranks among the safest and cheapest in this country.

### Give Us Government Banks.

The issue is squarely drawn between the people and the banks. As to money, shall it be based upon bank credit, or upon the credit of the nation—the people's wealth? As to the deposit and security and loan distribution of the people's several surplus savings, or token credit, money, shall its safe keeping and judicious, careful loan distribution be undertaken and guaranteed by irresponsible banking corporations, or by the people themselves, in their sovereign capacity, as a co-operative banking corporation, through governmental agencies? Give us government banks.

## FREE Farm Record. FREE

The Farm Record is a 16 page, published monthly at Indianapolis, Ind., devoted to the general interests of the Farm and to business and co-operative features of the Farmers' Alliance and Industrial Union. Education is the watchword of the future, and you can educate men better in schools than singly. The Alliance "must make membership profitable" from a financial as well as a social and educational standpoint or busy seasons will see members drop by the wayside.

The Farm Record is edited by C. VINCENT, formerly connected with the Nonconformist and now National Lecturer of the F. A. and I. U. for the 4th District. The Alliance gave the education that brought the revolution to the West and South in 1890, and this School must be filled again before men will think independently. We have made a Special Arrangement to furnish the Farm Record one year Free to all new subscribers, and we want every reader to induce his neighbor to accept this offer quick, for it will not last long.
