This book, which is sold everywhere for 25c., and is being printed from four rapid presses at the rate of 10,000 a day, than which no other book has been so warmly defended by the masses of the people or so bitterly opposed by the banks and wealthy classes through the single-gold-standard press; this book, which is more extensively read and commented upon than any other book of recent years, can be had free by the payment of \$1.00 on subscription to The People's Pilot, either for what is now due or for a year in advance.

M. M. Keller, Loan Broker, Cambridge, Iowa: "I have been on the fence for some time, but after reading 'Coin's Financial School' I have become so thoroughly convinced that I do not think any fair minded man, after carefully reading this valuable work, can hesitate for one minute to openly declare for free coinage of silver."

A. L. Sparks, Bushnell, Ill.: "I have just finished reading the Little Giant on Free Coinage of Silver. 'Coin's Financial School', I thought I was well versed on the finance of my country, but truth and candor compels me to say that it is the most comprehensive work on finance that has ever been my pleasure to read."

S. C. Spero, Kendallville, Ind.: "I have read 'Coin's Financial School,' and am pleased to say it is the best thing I have ever read on finance. A grand success for the little book is certainly a foregone conclusion."

Sanford O'Kelley, Somerset, Mich.: "'Coin's Financial School,' is creating a great sensation in this country and the gold 'bugs' are getting very scarce."

L. M. Burt, Minneapolis, Minn.: "Have just read 'Coin's Financial School,' and believe it has converted me to bimetallism and free coinage of silver."
