

## MYSTERIES!

### The Nervous System the Seat of Life and Mind. Recent Wonderful Discoveries.

No mystery has ever compared with that of human life. It is the leading subject of professional research and study in all ages. But notwithstanding this fact it is not generally known that the seat of life is located in the upper part of the brain, near the base of the brain, and that the nervous system, which governs the body, is the seat of life.

Recent discoveries have demonstrated that all the organs of the body are under the control of the nerve centers, located in or near the base of the brain, and that when these are deranged the organs which they supply with nerve force are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the injured point, because the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood how the derangement of the nerve centers will cause the derangement of the various organs which they supply with nerve force.

Two-thirds of chronic diseases are due to the imperfect action of the nerve centers at the base of the brain, not from a derangement primarily originating in the organs themselves. The great mistake of physicians in treating these diseases is that they treat the organs rather than the nerve centers which are the cause of the trouble.

Dr. FRANKLIN MILES, the celebrated specialist, has profoundly studied this subject for over 25 years, and has made many important discoveries in connection with it, chief among them being the facts contained in the above statement, and that the ordinary methods of treatment are wrong. All headache, dizziness, dullness, confusion, pressure, blues, melancholy, insanity, epilepsy, St. Vitus' dance, etc., are nervous diseases, no matter how caused. The wonderful success of Dr. Miles' Restorative Nerve is due to the fact that it is based on the foregoing principles.

Dr. Miles' RESTORATIVE NERVE is sold by all druggists on a positive guarantee, or sent direct by Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid. It contains no other opiates nor dangerous drugs.

## REVIVO

RESTORES VITALITY. Made a Well Man of Me.

1st Day. 15th Day. 30th Day.

THE GREAT FRENCH REMEDY.

Produces the above results in 30 DAYS. It acts powerfully and quickly. Cures when all other fail. Young men and old men will recover their youthful vigor by using REVIVO. It quickly and surely restores from effects of self-abuse, excess and indiscretions, Lost Manhood, Loss of Vitality, Impotency, Nightly Emissions, Loss of Power of either sex, Failing Memory, Wasting Diseases, Insomnia, Nervousness, which unfit one for study, business or marriage. It not only cures by starting at the seat of disease, but is

**Great Nerve Tonic and Blood-Builder** and restores both vitality and strength to the muscular and nervous system, bringing back the pink glow to pale cheeks and restoring the fire of youth. It wards off insanity and Consumption. Accept no substitute. Insist on having REVIVO, no other. It can be carried in your pocket. By mail, \$1.00 per package, in plain wrapper, or six for \$5.00, with a positive written guarantee to cure or refund the money in every package. For free circular address

**ROYAL MEDICINE CO., CHICAGO, ILL.**

For sale at Rensselaer by Frank Meyer.

**W. L. DOUGLAS** IS THE BEST. NO SQUEAKING. \$3 SHOE. And other specialties for Gentlemen, Ladies, Boys and Misses are the Best in the World. See descriptive advertisement which appears in this paper. Take no Substitute. Insist on having W. L. DOUGLAS' SHOES, with name and price stamped on bottom. Sold by

**ELLIS & MURRAY.**

Full of with stork and glass, etc. The linen collar sits in the neck. Full of with stork and glass, etc. All filled, wrinkled and stiff.

That's what you must expect of such a collar; it's the way it sits. The stand-up collar sits in the neck, and the top-down collar will sit down. It's easy, clean, and pleasant way out of it is to wear "CELLULOID" COLLARS AND CUFFS. These goods are made by covering linen collars or cuffs on both sides with "CELLULOID," thus making them strong and durable, and waterproof, not affected by heat or moisture. There are no other waterproof goods made this way, consequently none that can wear so well. When soiled simply wipe them off with a wet cloth. Every piece of the genuine is stamped like this:

**TRADE MARK. ELLULOID MARK.**

Insist upon goods so marked if you expect full satisfaction, and if your dealer does not keep them, send direct to us enclosing amount and we will mail sample. State size and whether a stand-up or top-down collar is wanted. Collars 25c each. Cuffs 50c pair. **THE CELLULOID COMPANY 427-29 Broadway New York.**

## MR. J. R. SOVEREIGN

### WRITES AND SOUNDS THE NOTE OF WARNING.

The Power at the Back of the Shylocks Will Be Utilized to Carry the Elections in 1896—Populists Must Be Up and Doing.

(Southern Mercury.)

The following letter from Master Workman Sovereign should be read by everyone. It is a note of warning that it would be well for the people to heed before the chains of slavery are forged upon them:

A few days ago the gold bugs of Wall street, through the leading gold basis club of New York City, a club whose membership comprises more than 3,000 of the millionaires of this nation, announced through the columns of the corporate press that they now control the editorial columns of 1,000 of the principal newspapers of this country, and that they have closed contracts with the leading stereotype plate and ready-print houses, through which they are enabled to permeate the country press with the single gold standard doctrine, vulgarly called "sound money." This club, which calls itself what it is not, "The Reform Club," has thrown off its mask, and, after announcing that it has been working secretly for many months, declares that not only the metropolitan press of the country is at their command, and that they have untold millions with which to carry the elections for the privileged classes in 1896, but they openly boast that every influential federal officer will be brought into service to write letters to personal acquaintances and friendly newspapers in the interests of the gold barons, and that all public speakers friendly to the Wall street policy and the present administration will enter the public rostrum for the purpose, if possible, of defeating the candidates of the people.

In its issue of April 23, the Philadelphia Times, the recognized organ of Cleveland and the plutocratic classes of the east, editorially says:

"There are two issues that will be paramount in the great national contest of 1896, and all other questions will be merely incidental. They are: First, an absolutely sound financial system, that will maintain public and private credit, and a currency that will command confidence at home and throughout the civilized world. Second, the maintenance of law and order, and the protection of person and property, by all the powers of government. There are just two issues for the people to determine in the battle of 1896. Whether the new president shall be Republican or Democrat is of little moment, but it is of moment that we shall have honest money and honest obedience to the majesty of the law, and the protection of person and property."

The kind of money mentioned by the Times means gold and national bank notes, and nothing else. And the obedience to law and order demanded, means getting gun government, and, if need be, a military campaign, to overawe and intimidate the people into a wilful submission to the mandates of foreign bondholders and American shylocks. It means that in the name of law and order, compulsion and military coercion will be employed to subjugate the masses to the will of the arrogant military robbers. It can mean nothing else. For nowhere in this country is there any organized resistance to the maintenance of law and order, and we already have an ample constabulary and judiciary in every town and hamlet, to prosecute and punish individual violators of the law, and to protect the innocent. But, in connection with the perpetuation of the gold basis theory of money, which more than all else, has contributed to rob labor, and concentrate the wealth of the many into the hands of the few, it is declared that the importance of maintaining law and order in this country is of such supreme moment that it makes little or no difference whether a Democrat or a Republican is elected president in 1896. If he is sound on the two issues mentioned, it is not an infraction of the law, or a disturbance of the peace, that they fear; but that the people will rise, en masse, and throw off the yoke of bondage that has made them subservient to the dominations and exactions of an oligarchy of wealth. The law and order they want to preserve is the law and order that issues interest-bearing bonds in violation of the constitution, and buys gold with the hard earnings of the people, to appease the insatiable greed of aristocratic money kings. They wish to preserve the law and order that issues despotic and tyrannical injunctions to restrain the working people from securing their natural rights, and a just remuneration for their labor. They want a law and order that protects the corporations and the money kings in their power to rob industry, covers the homes of the people with mortgages, reduces wages to starvation rates, and perverts anti-trust and interstate commerce laws, to arrest and imprison every person who dares resist their robber rules. They want a law and order that will exalt public criminals, protect mercenary capital, and enshrine every conceivable form of private monopoly that infests the country, with the black plague of wage slavery and industrial death. For this kind of a law they want a president who will not hesitate to place the galling guns and bayonets of the government between the people and the freedom and inalienable rights vouchsafed by the declaration of independence and the constitution of the republic.

After carefully studying all the recent movements on the chess board of American politics, I feel that I would

be untrue to the best interests of the organized workers of this country who have honored me with the position of their executive head, if I did not urge the readers of your valuable paper, and the reform forces of the country everywhere, to meet this soulless moloch of monarchy and greed with all possible opposition compatible with the obligations of American citizenship. No time must be lost. The campaign of 1896 has been opened by the money power and the corporations early in 1895, and there is not an act of cunning, nor a crime known to disreputable conspiracy, that they will not resort to, to accomplish their ends. They will deceive, buy, bribe, bulldoze and intimidate, whenever and wherever their pernicious designs can be advanced by so doing. Let reformers everywhere awake to the responsibilities of the hour. Let every advocate of the people's interests, available for campaign service, take the rostrum at once, and meet this culture-hearted enemy in its own field.

To the end that I may contribute my humble efforts to the cause of humanity, I desire to tender my services in the field where the fight is hottest. I have decided to make a lecture tour of the southwest, passing through Missouri, Arkansas, Indian Territory, and Texas to the Gulf. Those desiring to arrange public meetings for me will please make applications at an early date. The route will not be changed after dates are given and appointments announced. On my return through the south I will pass through Kansas, Nebraska and South Dakota, and will give all time possible to rostrum work in other states. Please address me at Des Moines, Iowa, lock box 585.

J. R. SOVEREIGN, G. M. W.

### POPULIST WISDOM.

All the People's Interests Centered in the Omaha Platform.

If the People's party should allow itself to be diverted from the principles which gave it birth by the free coinage of silver issue, it would as certainly go to ruin, as that disorder and chaos follow upon utter confusion of thought and purpose. If the People's party is wise it will concentrate its energy and enthusiasm upon an unequivocal anti-monopoly platform. The condition of public mind will make it necessary to declare for free silver, but nothing more as a specific measure is necessary. The proposition of Judge Welsh which we submitted last week, that the nation, state or municipality granting charters to monopolies should have the right under law to revoke the franchise for the people, would be popular, and in accordance with the genius of the party. This would be enough. It is none too much. Upon such a platform the People's party would hold its forces admirably. Should it yield to the sycophantic voice of the silver men its identity as a political organization would vanish. The anti-monopoly declaration, made fundamental, would warrant the same fight against monopoly as heretofore conducted under the leadership of the People's party. It would be even better, for it would give full and perfect liberty to its adherents to attack any monopoly or all monopolies. It would complete the demolition of the prohibition party and check the growth in numbers of the Socialist-Labor party. Such a reform platform would attract the reformers in the old political parties, and would keep a clear cut identity for the organization. No greater profit ever confronted a political organization than now confronts the People's party. It needs no more than ever firm leaders in all portions of the union. Should this attempt to break up the People's party succeed the hand upon the dial plate will be turned back a decade or more. We have looked with suspicion upon this silver issue from the beginning. It is inadequate to the formation of a political party. The recent attempt to form a party failed utterly. The processes of propaganda were then resorted to, and we think this latter will be the salvation of the reform movement. The silver issue will have run its course before the national conventions will be held. It will, we hope, be returned to its proper place before that time. This one thing is certain, that the silver issue does ill to both the People's party and the Democracy. No great events pregnant with good to humanity, can cluster about a mere measure. Should either of these two parties be able to carry the country next year on this issue, that party would be crippled by lack of a policy based upon principles, and in two years the wreckage of a foundationless structure would strew the shores of time. We charge the leaders of the reformers with the responsibility of carefully mapping out the path for their followers. Great events are near. They are the days of the progressive movement. The report of the secretary of the Treasury October 2, 1894, gives the amount of money in existence in the United States, outside of the Treasury, as \$72,092,422. Amount paid by banks to depositors \$1,725,418,612. Amount cash on hand \$125,428,192.54. If a demand was made they could pay only 23 per cent of the deposits. The Morning Daily News thinks the average citizen will allow his mind to be dominated upon these figures he will conclude that the whole gamut of banks is insolvent.—People's Party Paper.

The free coinage Democrats are likely to split on the question of ratio.

## THE MYSTIC CYCLE. Highest Grade Bicycle.

Will Be In The Races On

### Descriptive Specifications.

In presenting our 95 model to the public, we wish to impress the fact that the Mystic is not one of the many diamond frame bicycles with which the market is now flooded, and which can be bought at almost any price. On the contrary, the Mystic is one of the finest lined, most symmetrical and highly finished machines at the disposal of intending purchasers.

**THE FRAME**, in general appearance is very pleasing and perfectly constructed on the latest and approved models.

**LARGE TUBING**, of light gauge, is used throughout, and every joint reinforced.

**EVERY PART** is made of the finest steel.

**OUR MECHANICS** are the best in the world.

**OUR MACHINERY** is perfect.

**OUR STOCKHOLDERS** are men of integrity.

**THE HEAD** is 34 inches in length, of large diameter, light and rigid.

**WHEEL BASE**, 44 inches. Depth of frame, 23 inches (unless otherwise ordered), which is the standard depth for the average rider. This brings the top tubes and rear fork tubes on a level and parallel with each other, which is a pattern of neat appearance.

**THE TUBING** is of the very best cold drawn seamless steel stock, produced from the finest quality Open Hearth Crucible Swedish Ingot.

**ALL SOLID PARTS** are of the best quality steel, accurately machined and fitted.

**THE BEARINGS** are the best procurable. Bearing cases and cones are of highest grade steel, perfectly hardened and accurately fitted.

**THE BALLS** are of the best, made by the latest Rolled Forged Method, and are the most perfect produced.

**THE SPOKES** are the best Swaged Piano Wire Steel, capable of sustaining an enormous high tension.

**THE SPROCKETS** are of the highest grade Drop Forgings, accurately machine-milled to fit chain. Front sprocket is light, yet very strong and rigid.

**REAR SPROCKET** is detachable.

**FINISH** consists of three coats of best jet black enamel, baked on at a high temperature, all brush work (not dipped). Each coat, except last, is carefully rubbed down with felt and pumice stone, which imparts to the last coat that handsome iridescent finish so greatly admired.

**ALL BRIGHT PARTS** are highly polished and given a heavy copper plate, then repolished and nickel-plated. This prevents rustings and gives an elegant "solid" finish.

**WOOD RIMS**. Our cycles are furnished with wood rims, unless otherwise ordered. These rims are proved and guaranteed. Steel rims, either nickel-plated or enameled.

**TIRES**. Morgan & Wright, Vee, Webb or Dunlop. Other makes if purchaser so orders.

**HANDLE BAR** can be furnished in either drop or raised pattern and in two widths, 16 and 18 inches.

**FORK**. Our Improved Fork is a design of our own, and is light with great strength. This is considered so great an improvement that we give a special drawing showing its construction.

**CHAIN**. This is the great improvement of 1895, and we devote two pages to its description. Until you see this chain you cannot appreciate its merits.

### Our Improved Fork.

**THE CONSTRUCTION** of our Fork is very light, yet exceptionally strong and rigid, being built in such a manner as to distribute all strain equally on the different parts.

**FORK SIDES** are all reinforced.

### The Morse Chain

**IS THE GREAT IMPROVEMENT OF 1895.**

**THIS CONNECTION IS TO A CHAIN WHAT THE PNEUMATIC TIRE IS TO THE WHEEL.**

Just stop and think: No Oiling, No Binding, No Stretching, No Friction, and of course much less power to propel. Actual tests of 1894 show that in running 2,000 and 3,000 miles these chains did stretch only one-twentieth of an inch, and when put on factory machinery and run 5,000 miles the elongation was only one-eighth of an inch.

Do you think this is a pretty large story? Well, examine the cut and see how it works. It does not revolve around a pin, but works from the center and rocks in the pin, thus overcoming that great obstacle found in other chains.

Use this chain once and you would not go back to the pin friction for half the cost of a wheel.

You get a Mystic and you get this chain.

Before you buy a wheel see the Morse Chain.

We do not say of this chain that it is just as good, but that it is better than any other chain made, and is worth \$15.00 more to any wheel.

Join the Club and get an \$85 for \$65.

For particulars call on or address F. D. Craig, Pilot office.
