OUR
Anglo-Wall Street Administration

Is now endeavoring to precipitate upon the nation

A Gold Debt of Five Hundred Million Dollars,

Which will entail 50 years of added labor, self-denial and privation. Had COIN'S FINANCIAL SCHOOL been studied more generally some years ago the wise men of finance could not to-day hope to carry their audacious and infamous measure.

Coin's Financial School Is Waking Up the People.

READ IT! STUDY IT! RECOMMEND IT!

This book, which is sold everywhere for 25c., and is being printed from four rapid presses at the rate of 10,000 a day, than which no other book has been so warmly defended by the masses of the people or so bitterly opposed by the banks and wealthy classes through the single-gold-standard press; this book, which is more extensively read and commented upon than any other book of recent years, can be had free by the payment of \$1.00 on subscription to The People's Pilot, either for what is now due or for a year in advance.

In order to order a machine that is always in order, it is always in order to order a McCormick, sold by C. A. Roberts

Rev. Byle, of Chicago, delivers his last sermon next Sunday previous to taking a three months vacation. Children's Day in the evening at the regular hour of service. Everyone invited.

Over Twelve Hundred sets of window shades in colors, qualities and prices never before equalled. You can't help buying after seeing them. At Frank B. Meyer's "Old Reliable" drug store.

A Surprise.

The members of the Christian church were very agreeably surprised Sunday morning.

The presentation of a beautiful silver communion set by the Junior Endeavor Society from the proceeds of their festival was the cause.

M. L. Strong on Main street is enlarging his house and adding a large veranda which when completed will make a beautiful home.

J. P. Overton, who left for a sight seeing trip on the 30th, writes from Roanoke, Va., that he is enjoying his trip and that crops are looking fine. He mentions having attended the German Baptist meeting at that place where there were 10,000 in attendance, and 173 vehicles, besides uncounted saddle horses.

The people must govern themselves.

Prosperity will please hollow if it is lost.

The gold reserve is still going to Europe.

The banker's prosperity is the people's poverty.

The money power has openly assumed the position of dictator.

Concentrate your fire on the bankers for a few weeks, and they will be routed.

The reform papers tumbled at once to the pretended fight between Carlisle and the bankers. They unanimously proclaimed it a farce. There are sentinels on the watch towers of liberty.

Any representative who works for the retirement of the greenbacks is a traitor to his country and his district. Hit him a jolt with your ballot when you get another chance at him.

In view of their previous argument that there was plenty of money in the country it is hard to understand what excuse the administration finds for its proposed inflation scheme.

History will record the proceedings of the last congress by a marginal reference stating that "while Dictator Cleveland was perpetrating these outrages, congress was in session, but its proceedings being unimportant, have no relation to this history."

Cleveland and Carlisle either sold themselves in that last bond deal or put \$8,000,000 into the pockets of the syndicate.

Silver and greenbacks are a legal tender for everybody in this country but the rich bondholder.

The three-ball men are in clover. The whole country is to be "put in soak" to Rothschilds.

It still grows more difficult to explain who or what or where is the democratic party.

Grover will henceforth deal directly with Europe, so as to get all the commission himself.

Short Crops and Lower Prices.

With a crop of 600,000,000 bushels of wheat in 1891, under McKinley protection, the average price was 83 cents per bushel. With a crop of only 400,000,000 bushels in 1893, under Democracy, it averages only 52 cents. Put this in your pipe, farmers, and think it over.

Women's and children's black hose, only 5 cts. a pair. Chicago Bargain Store.

The largest and finest line of wall papers ever in Northern Indiana, and at the lowest prices At Frank B. Meyer's "old reliable" drug store.

Chipman & White are handling the Star wind mill, the best in the world, and will put up a 40 foot mill complete for \$50, and do it in proper shape. Every job guaranteed.

There will be a practice shoot at Marlboro next Saturday, the 8th, which will be attended by most of the members of the Iriquois Gun Club. Blue rock targets will be used.

Whitewash lime, always on hand at Meyer's "Old Reliable" drug store. Also whitewash and paint brushes.

Dr. Kuderling, the dentist whose artificial teeth harmonize with the patients features in general, will be at the McKeever house again on Tuesday and Wednesday, June 11th and 12th. Do not fail to give him a call.

NOTES AND COMMENT.

Congressman Bland, in his lecture on silver, says: "The battle to be fought, and the all important point to gain is to secure a president who will sign a free coinage bill if sent to him, and will not use the power and patronage of his office to prevent such a bill coming to him." Accordingly to this kind of logic Mr. Bland is a self-convicted demagogue. He has been all the time working hard to have a free silver bill passed, and at the same time has given in each campaign his best talent and efforts to secure the election of a man who has done all he can to defeat free silver. And right here we make the prediction that Richard P. Bland will vote for the next Presidential nominee of the Democratic party if he is a gold bug.

The Bankers' Magazine, a gold standard organ, has issued a circular stating that it has prepared an answer to "Coin's Financial School," but expresses the fear that it will not reach and be read by the masses. While there are some things in "Coin's School" we don't indorse, we take great pleasure in the knowledge that it is stirring up the gold bugs as nothing else has ever done. Any attempt to answer the argument from a gold standard standpoint must surely end in miserable failure. "Coin" stands just where the whole bimetallic world stood prior to the time the Rothschilds conceived the idea of doubling their wealth by striking down silver. The very objections which are urged by the gold bugs can be used to support the arguments in favor of a bimetallic currency. These attempts, however, on the part of the banks go to substantiate what we have frequently said, that this is a fight between the bankers and the people, the dollar and the citizen.

We now believe that silver is to take the place of the tariff as a bone of contention to keep the people divided and to sustain the two old parties. It will be a sham fight throughout. For this reason the free silver issue is being made as complicated as possible. We now have the following varieties of free silver advocates:

1. Those for free, unlimited, and independent coinage.
2. Those who only want free, unlimited and independent coinage of the product of the United States.
3. Those who want the ratio changed.
4. Those who want to wait until some international arrangement can be had. We find these factions in both the old parties. There is only one pure, unadulterated free coinage party—the People's party. Its members are united for free, unlimited and independent coinage of silver regardless of Europe, Shylock or the devil.

A dispatch from Washington dated May 17, stated that Mr. Carlisle's Memphis speech "had been written, read to the President, revised, and a thousand copies printed for distribution."

If any one has any doubt that every effort is being put forward by the gold bug administration and the bankers to commit this country indefinitely to a single gold standard, it must be because they are criminally blind to passing events. There is not a member of the administration that favors placing silver where it was prior to 1873. Every national banker, every bondholder, every money leech that has bled this government since the war is in favor of the gold standard. If there was nothing else to condemn the gold standard theory, the crowd that advocates it ought to be enough to sink it into hades with honest, intelligent people.

The bonds which Mr. Carlisle and President Cleveland sold to the Belmont-Morgan syndicate for 104½ are now quoted in the market at 122½. This is perhaps one of the peculiar ways which the administration has of restoring confidence. That one deal will lay in the shade the winnings of Monte Carlo for many months. When Mr. Cleveland writes his book on economic questions he will no doubt explain the necessity of paying a foreign syndicate nine million dollars to protect the public treasury when he has a congress of his own party behind him. Until that is done the people will look upon that bond deal with a great deal of suspicion.

List of Patents.

The following are the patents granted to Indiana inventors this week. Reported by C. A. Snow & Co., solicitors of American and foreign patents, opposite U. S. Patent office, Washington, D. C.

G. W. Roth, Richards, Gas or gasoline engine.
J. B. Wells, Indianapolis, Lock-strike.

When you can buy a good top buggy for \$40 it is false economy to have an old one repaired. Warner & Son handle just such a buggy, as well as a full line of better carriages of all kinds, and at correspondingly low prices. Cash paid in advance to a manufacturer who needed money to keep from shutting down, secured an unequaled bargain which is more than divided with customers.

Porter & Yeoman have just received a new invoice of carpets, consisting of all wool in-grains from the Lafayette Carpet Company. Heavy weight, and superior to anything offered by competitors.
