Old People.

Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whiskey nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price 50 cents per bottle at Meyer's Drug Store.

Martintown Gossip.

MARTINTOWN. June 17.—Grain is very short on account of dry weather.

Miss Rosa Guldenschon went to the Catholic church with Rosa A. Lane last Sunday.

Mr. and Mrs. Joseph Rafal of Monticello were visiting parents and friends here last week.

Victor F. Karsney has a new top buggy.

Frank Kosta of Parr was visiting friends here last Sunday.

A. REPORTER.

Coin's Financial School (price 25c) is given free to every new trial subscriber of *The People's Pilot*. Twenty-five cents for three months.

Attention Bikes.

Those who desire to be represented in the grand Fourth of July parade should call on Albert Overton, at Ellis & Murray, and register. There is no fee for entering the contest, but a thorough understanding is desired that the parade may be the greatest possible success. Let every one prepare a handsome or grotesque costume and make it a memorable feature. All bicyclists are requested to meet Tom Saylor Friday evening on the LaRue lot west of the bridge.

A BELATED ITEM.

WHEATFIELD. June 11.—The Wheatfield Sunday school met at the Desipel's church last Sunday at 2 p. m., with a program for "Children's Day," exercises which was read by Elder P. E. Davis, and was performed by the school so perfectly that it surprised the natives. A finer time never was had in Wheatfield.

THE GARBAGE ORDINANCE.

The following ordinance was passed by the city fathers at their session of May 25, 1895:

Section 1. Be it ordained by the Board of Trustees of the Town of Rensselaer, Indiana; that it shall be unlawful for the owners or occupants of any improved property, or the agent or owner of any unimproved or vacant lot or other property, to place or pile or permit, to be placed or piled or to burn or allow to accumulate any garbage, slops, bone, coal, ashes, stone, wood, manure or other offal, barrels, boxes, cans, rubbish, and other waste materials upon any of the streets and alleys of said town. That portion of this ordinance that relates to burning garbage shall be held to apply to streets and alleys in blocks 3, 4 and 9, of the original plot of said town.

Section 2. That knowingly permitting or allowing any accumulations prohibited by Section 1 of this ordinance, by any property owner or agent or occupant of any property, or the placing by any person of any obstructions of any kind that in any way interferes with the free use by the public, upon any of the streets or alleys of said town, and allowing to remain for more than three days, except necessary building material used in making repairs or in the erection of new buildings, or without first obtaining a permit from the Board of Trustees of said town, shall be deemed a violation of this ordinance.

Section 3. That each and every day that any of the obstructions defined in Section 1 except as modified by Section 2, are allowed to remain upon the streets and alleys of said town after three days, or after notice, shall constitute a separate breach or violation of the provisions of this ordinance.

Section 4. That any person found guilty of a violation of Section 1, of this ordinance, shall upon conviction thereof, be fined a sum not less than (\$1) one dollar, nor more than (\$10) ten dollars for each offense.

Section 5. Whereas an emergency exists for the immediate taking effect of this ordinance, the same shall be in force from and after its passage and publication.

Approved in Adjourned Session, May 21st, 1895.

JOHN M. WASSON,
Attest: President of the Board.
CHARLES M. BLUE,
Town Clerk.

Prof. I. C. Reubelt, who was recently tendered a school position at Royal Center, Ind., has had a more lucrative and higher place offered him as professor of the high school of six grades at Dana, Ind., at a salary of \$80 per month. His long and earnest work in the Rensselaer high school is the recommendation that makes his services so eagerly sought.

Jasper and Porter counties will jointly build a new bridge over the Kankakee in Kankakee township. It will be 185 feet long. The contract was let at Hammond last Tuesday.

Crop and Weather Report.

Indianapolis, June 18, 1895.

Warm, dry, fair weather prevailed with heavy dew on most nights, local rains fell on one day but they were badly distributed, as no rain fell on many fields, light showers on some, and very heavy rains on few in most counties, especially in the central and northern portions. Rain is much needed for corn, potatoes and vegetables, except in the few localities where good rains fell. Corn is in good condition everywhere; because of the dry weather it is advancing slowly, but stands well and of good color in well cultivated fields; good rains soon would insure an immense crop. Early potatoes suffer much, but still in most fields they hold their own; in some counties potato bugs are numerous. Wheat is ripening fast; in some localities the harvest is begun; next week cutting will be done most everywhere; the crop will be but very small, as only in a few localities have the heads filled well, the plant suffered too much from drought, rust and the fly. Rye is ripening fast in many localities; it will be a fair crop in others. The fields have been plowed up and corn planted or the rye is used for fodder. Barley is being harvested in some counties; the crop is light. Oats are ripening; the crop will be very light and in some fields is too short to bind. The hay harvest has commenced but the meadows are dry and the hay is short, making only a poor crop. Clover is being cut every where; the yield is fair in most localities, heads well filled but the hay is short. Timothy is a total failure. Tobacco is nearly all set out. Apples and pears are still plentiful but apples are falling off very much. Cutworms have disappeared; in the northern portion grasshoppers have done much damage in few localities. Water for stock is getting very scarce, in localities springs and wells are dry, and some farmers are hauling water. Stock, in general, is in good condition; in the northern portion, stock is sold or traded, as there is no pasture.

SOUTHERN PORTION.

No rain fell in most counties; light local showers in Knox, Spencer and Greene counties, and good, beneficial rains in parts of Johnson and Jackson counties. Wheat has ripened fast and the harvest has begun in Knox, Bartholomew, Greene and few other counties, but next week the harvest will begin everywhere; the crop is very short, in most fields less than one-half of an average crop; in some fields the heads are well filled and the grain of good quality, but most is light. Barley is being harvested in many counties; in Harrison county the harvest is ended, in Dearborn and Switzerland counties it will begin next week; the crop is only light. Rye is being cut in some counties; the crop is good. Oats are short, in some fields it is not high enough to bind; much of it has headed from 6 to 12 inches high; in Washington county it is from 10 to 20 inches high, but in Lawrence county, in most fields, it is too short to cut. Clover cutting progressed rapidly; in most counties it is nearly all cut and housed; the yield of seed is fair, but the hay is short. Timothy is a failure everywhere, and in many localities too short to cut. Corn is still in good condition; it is coming on but slowly, but the plant stands well and is of a good color; the fields in general are clean. Potatoes begin to suffer for rain; some late potatoes are still being planted; many have not come up yet; bugs doing injury in Greene and Lawrence counties. Gardens are fairly well in most localities. Tobacco in Ohio county is nearly all set out; in Switzerland county about three-fourths has been set out; in some counties planting is delayed by dry weather. Apples and pears are still plentiful, but some are falling off; in Spencer county plums and grapes are promising. Creeks are low, springs and wells are dry and stock water is scarce in many counties. In Floyd county farmers are hauling water.

CENTRAL PORTION.

In the eastern part of Marion county and in parts of Boone

county heavy rains fell; in Rush, Owen, Decatur, Wayne and Fayette counties light local showers fell; in many localities none. Heavy dew fell on several nights. Wheat, rye and barley cutting has commenced in many counties; wheat, in favorable fields, and where it escaped the fly and rust, headed well, but in general the crop is much below the average. Barley and rye yield a fair crop in many counties. Oats are short and in many fields it does not pay to cut it. The clover harvest progresses, it is a fair crop; in Boone county it is better than expected. Meadows are dry and the hay crop poor; timothy is a failure everywhere. Pasture is dry, and on some farms cattle is being fed. Corn is in good condition, promising a good crop with sufficient rain soon; the plant is of good color and stands well, although still small in clean fields. Potatoes are suffering for rain in most localities; in Owen county they are in good condition; in Fayette county the first crop was no good, many fields had to be replanted; bugs are doing damage in Union, Wayne and Park counties. Apples and pears are still in abundance, but many apples are falling off. Watermelons in Union county are fairly well. Stock on many farms is not in good condition. Springs and wells are dry in Owen and Union counties.

NORTHERN PORTION.

The rains on the 12th were better distributed in the northern portion than elsewhere; in parts of most counties showers fell; heavy rain in Clinton, Tipton, Cass, Tippecanoe and Huntington counties. Wheat is ripening fast; in Warren county the harvest has begun; in most counties it will commence next week. In most fields the heads are well filled, but the straw is short; in general, the yield will be below average. In some localities rye is fairly well, in others some fields are plowed up for corn and in others the heads being not well filled the rye is used for fodder. Oats are very short. The clover cutting has begun in most counties; the heads are well filled. Timothy is a failure. Hay making has begun, but there is but little and the crop is short. Much millet has been sown in Kosciusko county. Pasture is dry. Corn is in good condition and stands the dry weather very well, but it advances only slowly. Potatoes wilt during the day but recover during the night; bugs are doing damage in Starke, Steuben and Porter counties. Vegetables and gardens are in most localities in poor condition. Apples are falling off much. Cherries are ripe in Elkhart county and a good crop; in Huntington county cherries are a failure. Stock is being sold or traded in Miami county, as there is no pasture. On the 12th, in Elkhart county, immense herds of grasshoppers swooped down upon several farms and completely devastated all crops, nothing but the bare stems of wheat, clover and potato vines were left. H. A. HUSTON, Director Indiana Weather Service.

Per C. F. R. WAPPENHANS, Ass't Director Weather Bureau.

The show given at the opera house Thursday, Friday and Saturday evenings, was hardly up to the standard required to win profitable results in Rensselaer. In fact but three persons, Mr. and Mrs. Le Brandt and little girl, were entitled to any attention from a decorous audience. The LeBrandts seemed to be very nice people, but were badly supported and badly managed. Mr. Ellis should take pains to have sufficient police protection in his opera house to save his patrons from the outrageous calls, whistling and general racket that prevailed in the gallery last week. It is a feature that is a disgrace to the town and the summary bouncing of a dozen would-be tough boys is all that is needed to put a quietus on them.

Burk's bridge has been accepted by the county and is open to traffic. A heavy traction engine was the first vehicle to pass over it. The bridge is said to be a nice one and reflects credit on the contractor, John Hack, of Lowell.

A newspaper is to be started in Wheatfield.

Arthur Hopkins was in Chicago Sunday-Tuesday.

The city hall is receiving a new coat of paint this week.

The wheat crop in the vicinity of Francisville is said to be splendid.

Will Mossler and Moses Leopold drove over to Remington Monday.

Miss Thompson of Chicago, is visiting at her father's—Grandpa Cotton.

John Norman and wife, of Valmo, made the Pilot office a pleasant call yesterday.

E. M. Spriggs was down from Wheatfield Tuesday. He is handling real estate and loans.

John Hack, the Lowell contractor, has commenced work on the new Stackhouse bridge.

Engineer Bostwick had his fingers severely squeezed in a press at the Sentinel office a few days since.

Prof. Weaver was at Lowell Tuesday night attending his band class. He is also teaching a band at Gillam.

Chas. Chipman sports a bike purchased with the results of his own thrift on the farm. He is one of the best riders in town.

The case of James Rodgers, charged with an unmentionable crime, and that of Wm. Denniger, charged with the depot robbery, will come up for disposition this week.

H. J. Bartoo, recently foreman of the Republican printery was in Chicago, Monday, to purchase a new job printing office, which he proposes to locate in Rensselaer.

John L. Hershman, of Medaryville, was a caller at the Pilot office a few days since. He is in quite poor health from the long care of his invalid wife, who died a few weeks hence.

Fred Parcells had a very severe fall from a cherry tree yesterday morning. It is thought his shoulder is dislocated though it is too badly swollen at this time for the surgeon to ascertain.

Through some miscalculation there was no judge to hold court here this week. Judge Wiley intended to have his place filled the first of the week by another judge, but for some unknown reason no substitute arrived.

Rensselaer Celebration.

In another column will be found a full announcement and program of the exercises for the Fourth. No pains are being spared to make the parade worth coming far to see. The participants are already training for the event and preparing their costumes, which will be superb. Tom Sailer has the bicyclists in charge and is organizing them so as to make a very effective spectacle. There will be a number of good clowns.

The bicycle races, which occur in the afternoon, will be hotly contested. Probably no town can produce more really good riders than Rensselaer.

Practice Shoot.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

THE NEW OPERA HOUSE.

It is with pleasure that the Pilot announces the intention of Manager Ellis to thoroughly rebuild his opera house and make it larger and finer in every respect. It is his intention to put in a full horse shoe balcony and incline the floor of the main hall. The building will probably be made 20 feet deeper and some office rooms put in the front. An important feature will be the providing of two front and two rear exits for fire emergencies besides the main stairway. The work will not be done until next spring, though the fire exits will be provided at once. Mr. Ellis promises to make it one of the finest opera houses in any small city in Indiana. Nice opera chairs will be installed and fine new curtains and scenery put on the stage, which will be modernized. The best electric light and gas systems are contemplated, besides a perfect ventilation. Mr. Ellis is deserving of much credit for all the good things he promises for Rensselaer, and his efforts to please them should meet a hearty support.
