THE POST OFFICE.

Money Order Fees.

The postoffice is an institution run upon the principle of the very best service at actual cost. Money sent by its order system is the very safest, most convenient and the cheapest means of transportation. Every cent that is paid for stamps, or for fees is that much of the nation's taxes paid. It is the duty of all good citizens to patronize the post office in every way possible. The following are the rates:

Orders not exceeding \$2.50 3c.
Orders not exceeding \$5.00 5c.
Orders not exceeding \$10.00 8c.
Orders not exceeding \$20.00 10c.
Orders not exceeding \$30.00 12c.
Orders not exceeding \$40.00 15c.
Orders not exceeding \$50.00 18c.
Orders not exceeding \$60.00 20c.
Orders not exceeding \$75.00 25c.
Orders not exceeding \$100.00 30c.

Rates of Postage.

Merchandise, for each oz. 1c.
Books, printed matter, 2 oz. 1c.
Newspapers, 4 oz. 1c.
Newspapers, (by publisher) 1 lb. 1c.
Letters (Canada, Mexico) 1 oz. 2c.
Letters, Foreign, 1/2 oz. 5c.
Registering fee, additional, 8c.

Arrivals and Departures.

Mails arrive—7 a. m., 10:52 a. m., and 3:25 p. m.
Mails close—10:22 a. m., 2:55 p. m. and 7 p. m.

Office hours—7 a. m. to 7 p. m.

Star Route Mails.

Leave for Blackford and Aix Tuesdays and Saturdays at 1 p. m., returning same day. Pleasant Grove and Valma daily at 12:30 p. m. Collegeville daily at 8:15 a. m.

Lumber.

The undersigned has a saw mill cutting lumber near the Lamson bridge on the Iroquois river. Any one wanting hard lumber of any kind can get it by calling on A. McCoy or Walter Porter on McCoy's ranch, can get it sawed on order any size at lowest market price.

A. McCoy.

Ice Cream.

I have the sole agency for Chamberlain's celebrated Ice Cream, manufactured at Lafayette, which is acknowledged the equal of any cream on the market by all who have used it. Sold in bulk or served at Gem Restaurant.

T. H. ROBERTSON.

Farm Loans.

We are prepared to make farm loans at a lower rate of interest than any other firm in Jasper county. The expenses will be as low as the lowest. Call and see us. Office in the Stockton & Williams Block, near the Court House.

WARREN & IRWIN.

Children's Day Service.

There will be an all-day children's day service at Rose Bud church on the 5th Sabbath in June. (the 30th.) Bring your baskets well filled prepared to spend a happy day.

OLIVER LOUTHER, Pastor.

Parties wishing to buy binders will do themselves an injustice by buying without pricing and examining the Deering goods.

ROBERT RANDLE.

A full line of cakes always on hand at Lakey's.

Coin's Financial School (price 25c) is given free to every new trial subscriber of *The People's Pilot*. Twenty-five cents for three months.

STATE CROP REPORT.

From The U. S. Weather Bureau at Purdue University.

WEEK ENDING MONDAY, JUNE 24.

Favorable Weather Practically Insures a Good Corn Crop and Improves Pastures.

Since the issuing of the following favorable bulletin by the Central station at Indianapolis there has been local rains in Jasper county that still further adds to the improved prospect for the dissipation of the drought that has so seriously injured small grain and pastures. Corn has suffered very little but pastures have been nearly ruined. The weather during the week was exceedingly favorable to crops; warm weather continued, and very good and general rains fell in the central and southern portions on Wednesday and Thursday and local rains in the northern portion on Tuesday. Corn, potatoes, vegetables, some late fields of oats, and pasture were improved by the rains. Corn is in excellent condition, of a good stand and good color, with fields well cultivated, and by the late rains a large crop seems almost insured. The wheat harvest is progressing almost everywhere; the rain stopped the cutting for two days; the heads are well filled, the grain is of good quality, but the crop stands thin, does not ripen evenly and the straw is short. Rye and barley harvest continues; rye in general is a fair crop, but barley less so. Clover is nearly all cut; the hay is short; the second crop is growing slowly. Timothy continues to be a failure. Oats are ripening, but it is very short; some late fields have been benefitted by the rain, but, in general, the crop will be much below the average. Tobacco setting is nearly all done. Much millet is being sown; in some localities meadows are plowed under and millet and corn is being put in for fodder, as the first hay crop is very short. Bees are making but little honey. Apples and pears continue to be improving.

SOUTHERN PORTION.

Light local rains fell on Wednesday but on Thursday slow soaking rains fell, in some localities more than four inches; the rains were general and they were very beneficial, being so much needed, and farmers are much encouraged.

The wheat, rye and barley harvest continued, only interrupted during the two days it rained; the heads are well filled, but the straw is short, and in most fields the shocks stand thin. Rye, in general is a fair crop, barley perhaps less so.

Oats are ripening slowly; it is very short, but some late fields have been benefitted by the rains and will be high enough for the reaper; the heads in some localities are well filled. Clover is all cut; in Jackson county the second sowing is coming up nicely; in Bartholomew county clover is hulled, the yield is from three and a half to four bushels to the acre. Timothy is short and a failure most everywhere; in Washington county, in some fields, there will be two-thirds of a crop. Hay is very short and the crop light; pasture and some meadows have been improved by the rain. Potatoes have been much advanced since the rain; in Switzerland and Dubois counties the early potatoes are not in good condition; late potatoes in many counties have been all planted, but in some counties planting will only commence next week. Tobacco setting in Switzerland county is all done. Apples and pears are still promising, but apples are still falling off much. In Dubois county springs and wells are still low.

CENTRAL PORTION.

General rains fell also in the central portion; they were not so heavy as in the southern portion, but enough to refresh and improve all growing vegetation; corn and potatoes, which needed rain most, have been much benefited, and the corn crop is almost insured; it is of good color and

a good stand in clean fields. The wheat harvest continues; the straw is short and the heads well filled, but it ripened uneven, and in many fields it is standing only thin. Rye and barley is being cut; the rye crop is fair, in Owen county good; barley is a fair crop. Oats are short; in some localities rains have improved late fields; in Randolph and Boone counties the crop is almost a failure. Clover is all cut and an average crop, but hay is short. The hay crop is light and short. Potatoes are coming on nicely since the rain; bugs are doing injury in Wayne county. Beans are still being planted in some localities. Tobacco is being transplanted in Wayne county. Bees are making but little honey in Union county. Cherries are ripe in Owen county. In Rush county raspberries are selling for \$4.00 per bushel. Apples and pears are still promising a good crop.

NORTHERN PORTION.

The rains which fell in most localities on Tuesday, and in few localities on Wednesday and Thursday, were only local and light; in many localities no rain fell. Wherever good rains fell everything was improved. Corn and potatoes are growing nicely; corn is coming on only slowly, but promising a large and good crop; it is of good color and well cultivated. Wheat, rye and barley harvesting continues; the heads of the wheat in general are well filled, but it stands thin and the straw is short; the crop will be below average; in Warren county, wheat is better than expected. Rye is nearly all cut; the crop in general is fair. The heads of the barley in most fields are but poorly filled. Hay cutting continues; the crop is short; in some counties but little hay has been made and farmers are depending on corn fodder; in Porter county cattle are fed and meadows have been plowed up and millet and corn fodder planted; in Jay county pasture has been improved by the rain, but most everywhere the pasture is no good. Timothy is a failure nearly everywhere. Gardens are not in very good condition; cut worms destroyed the first planting, and for the second it was too dry. Apples are falling much, but there are still plenty. Vegetables have improved. Blackberries and raspberries are a fair crop in Whitley county. A good crop of cherries have ripened in LaGrange and Huntington counties.

Fourth of July.

The Committee on Arrangements have arranged to have a grand Bicycle Parade at 9:30 o'clock on the morning of the 4th of July, and the bills state that it will be led by the Citizens Cornet Band, of Rensselaer, Indiana. Now in order to carry out program to the satisfaction of all, Mr. W. T. Perkins has kindly consented to rig up a band wagon for the purpose of heading this grand parade with the band. This wagon will be drawn by four horses; and will be decorated after Mr. Perkins' own idea of decoration.

We hope that all bicyclists will take an interest in this and come out on that morning prepared to join in the parade. It would be well for all who will participate in this parade to meet on the vacant lot on the south side of the river, where they will receive instructions as to how to move in said procession. Should be there not later than 9 o'clock, on Thursday morning, July 4th.

It would also be a pleasing feature in this parade if parties coming into town and those living in town would decorate their houses any vehicles with flags, bunting, etc., and join the parade, following up the bicyclists.

All of this will be under the charge of the Officers of the Day and the Committee on Arrangements. The names of the Officers of the Day are printed on the bills, and Mr. Thomas J. Saylor is Chairman of the Committee of Arrangements, so any one desiring information in regard to this matter will see either of these gentlemen.

We hope everybody will take an interest in this matter, and make it one of the best 4th of July celebrations that has been in Rensselaer for many years past.

Jack Knight and wife were in Flint, Mich., last week, attending the trial of Charles Cordry, who is quite famous in many localities as a bigamist. It is even said he has reached the polpgamist mark, having eight wives, marrying seven in the past four years. He is wanted by the authorities of Hammond on the same charge. He is held on bond to appear at the August term of court where he will doubtless receive the reward he justly deserves. Deep sympathy is felt for his first and lawful wife, nee Mary Sharp, of this place.

The marriage of Peter Kohler and Miss Bernice Watson was solemnized at the home of the bride's father, Henry Watson, one mile south of Pleasant Ridge, Monday, June 24th, at 8 p. m. About fifty friends witnessed the ceremony, performed by J. T. Brady, of this place. Mr. Kohler is a graduate of the Rensselaer high school class of '90, and at present has an interest with his father, John Kohler, in the tile works south west of town. They will make Rensselaer their place of residence.

Chicago Excursion.

On Saturday June 29th. Round trip Excursion Tickets will be sold from Rensselaer to Chicago at \$1.50 good going on the Milk train of that day or on special train about nine o'clock a. m. They will be good to return on train 39 of Saturday June 29th, or Sunday June 30th, and on special train which will leave Chicago about 9 a. m. Sunday night June 30th. W. H. BEAM, Agent.

Jasper County Summer Schools.

The Jasper county Summer school will convene Monday July 15, and continue five weeks. The common school branches will be reviewed. A special study of Ruskin's Lectures will be made. Arrangements have been made with the Rensselaer School Board for the use of the High School Laboratory. We expect to give special instruction in the Sciences of Zoology and Botany. This work will be adapted to the needs of all our schools and can be used as supplementary work.

The science work will be under the management of Thomas Large, Principal of the Rensselaer High School who is a specialist in this line of work. The literary work and Science of teaching will be conducted by Newton Warren, Principal of the Sheridan High School.

We expect to make this the most helpful Summer School ever conducted in the county. Tuition \$4.50 for the term, in advance. Per week, \$1.00. J. F. WARRFN, Co. Supt.

McClure's Magazine for July.

Most readers will be surprised to learn, as any one may from an excellent illustrated article in McClure's Magazine for July, how the telegraph has now crept into the remotest crannies of the earth, and is transmitting its hundreds of millions of messages a year at a constantly lessening cost in money and trouble to the public. The same number contains a dramatic chapter from the history of Tammany—the automatic reign of Tweed, with all its barbaric and illicit splendors, splendors maintained by the theft of untold millions of public money. An article by Sir Robert Ball, Professor of Astronomy in the University of Cambridge, England, shows that recent scientific discoveries tend to support the theory that other planets, as well as the earth, maintain life. Hamlin Garland describes the home and studio life of Edward Kemeys, and relatives, mainly in Mr. Kemeys's own words, how, without instruction and under the irresistible urgency of natural bent, he became a sculptor of frontier life and wild animals. Portraits of Kemeys and reproductions of his chief sculptures illustrate the paper. Cy Warman, the poet engineer, describes a ride on the locomotive of a London and Paris express. Cleveland Moffett supplies, from the Pinkerton archives, a history of the stealing of an express parcel containing \$41,000, and of the discovery of the thief and the recovery of most of the money after years of search and pursuit. A poem addressed by Edmund Gosse to Robert Louis Stevenson but a day or two before his death; Stevenson's rare address to the Samoan chiefs who built him a road, and his will; and several excellent short stories, among them one by 'Q.' and one by Stanley J. Weyman—are the other noteworthy features of the number. The publishers announce with this number a reduction of price to ten cents a copy, or one dollar a year.

Great Nerve Tonic and Blood-Builder

and restores both vitality and strength to the muscular and nervous system, bringing back the pink glow to pale cheeks and restoring the fire of youth. It wards off Insanity and Consumption. For sale in Rensselaer by Frank B. Meyer.

\$100 Reward \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Cataract. Hall's Cataract Cure is the only known remedy known to the medical fraternity. Cataract being a constitutional disease, requires a constitutional treatment. Hall's Cataract Cure is taken internally, acting directly upon the system, thereby destroying the source of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

Address, F. J. CHENY & Co., Toledo, O.
