B. S. FENDIG.  
**It May Do Much for You.**

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also

that his bladder was affected. He tried many so called kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c. for large bottle. At F. B. Meyer's drug store.

had been obtained in the first two months of the current fiscal year in the two sources of revenue mentioned, induces the government to believe that the normal income on which the treasury can count will be sufficiently ample to cover all requirements of expenditure of the budget for the year, in spite of the reduction of 50 per cent made in postal rates.

The liquidation of the old debt in its entirety from the colonial regime to 1882, and of claims and credits subsequent to the latter; conversion of part of the public debt presented for collection and payment of balances, and, finally, reduction to a common basis of numerous classes of subvention bonds given to railway and other companies, are now all but completed and have produced results that constitute a most convincing proof of the excellent credit enjoyed by our national securities, owing to the unwavering and scrupulous determination of the republic to redeem its pecuniary obligations throughout the prolonged financial crisis, which, happily, seems now to be at an end.

With the object of carrying into effect the operations of financial liquidation and conversion of the entire debt, even including a few claims that were not presented within the prescribed term, said term has been extended to the 31st of October next, in the assurance that by then the floating debt will be extinguished and all accounts that we have inherited from our predecessors will be closed.

I earnestly recommend to the chamber of deputies a bill for the abolition of interstate dues throughout the republic.

A reform is demanded by the agricultural industries, which need a wider field for their products and business men insist on greater freedom of action.

This proposal, which affects the vital interests of the country, is certain to meet with a cordial reception at your hands, especially in view of unusually prosperous circumstances of the Republic at the present moment for effecting so important a reform.—Progressive Farmer.
