Mr. Littlefield, of the firm of Gray & Littlefield, Remington, was in town Friday and made The Pilot a very pleasant call. This firm is pushing Jasper county values right up to its proper notch and bringing success to themselves and their clients.

There are now 1,076 incandescent lights attached to the dynamo. Its capacity is 1,200 and at this rate it will soon be taxed to the limit to carry the lights. Of this number 526 are commercial lights. This speaks well for a plant that has been in existence only a little over a year.—Goodland Herald.

Squire Burnham tied a neat nuptial knot last Thursday, the united parties being Thomas Brewer, a leading citizen of Medaryville, and Miss Louise Mitchel, daughter of Samuel M. Mitchel of Gillam township. The young people have a host of friends who wish them well. Being married on Thanksgiving it will be easy to remember when the paper, wooden, tin and silver weddings roll round.

The Pilot favors the acquisition of the electric lighting plant by the town, if it can be equitably obtained. It is no longer an experiment, and if it can be run by a private concern it certainly can be by the town. The plant should be improved, and there should be three times as many street lamps. The private consumption is not near all that would be if enlarged. The time to make it a municipal plant is now while the town is small; after it reaches a population of 5,000 or more it will not be so easy, get a private concern to give up the business. Municipal ownership and no franchises should be the motto of the town in all public utilities, waterworks, street railways, gas or electricity.

Some of our leading capitalists will visit Iowa and other states west of the Mississippi soon, with a view of placing investments while land and property of all kinds there are at the present low valuations. In parts of those states the lands will largely have to change hands on account of the immense depreciation in value and the impossibility to pay the mortgage indebtedness.

The following is taken from the Foresman correspondence of the Brook Reporter: "Foresman-Lowe wedding was solemnized at the home of the bride, Mr. D. Lowe, Wednesday evening, was a very pleasant affair. The bride looked very nice in a brown suit, and the groom looked well as all men do in black. These young people have many warm friends here, who wish them a long and happy useful life. Mr. M. Foresman and wife and brother Harvey, from Goodland, Mr. John Lowe, wife and son from Kentland and Mrs. Mary Gaultney of Staplehurst, Neb., were guests from far away, besides many home friends. Mr. and Mrs. Foresman were the recipients of many lovely presents, which we feel were given as expressions of love and best wishes."

Late Literary Note.

Two very important facts in connection with the new era of magazines are illustrated in the December Cosmopolitan. Its fiction is by Stevenson, the last story written before his death, "Ouida," Sarah Grand, Zangwill, and the beginning of James Lane Allen's new Kentucky realistic story, "Butterflies." Probably no stronger array of fiction has ever been presented in any magazine—money could not buy better. Nor has any other magazine ever had a larger number of really distinguished artists engaged upon the illustration of a single number. The reader might be puzzled to know such a number can be made at the price of ten cents. But the magazine itself affords the solution; it contains 139 pages of advertising, which, as the publishers announce, is from \$4,000 to \$8,000 more net cash advertising than was ever before printed in any magazine, of any kind, and in any country. It breaks the world's record in the publishing business. Moreover, the cost of the artists and authors who appear in this number is divided amongst 400,000 copies, bringing the cost per copy proportionately low. The Cosmopolitan thinks that the ten cent magazine, bringing, as it does, the best in art and literature into all classes, is an educational movement second in importance only to that of the public schools.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years it was considered to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure it with local treatment, pronounced it incurable. Scientifically, Catarrh is to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional treatment that may be taken internally in doses from 10 drops to ten spoonfuls. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & Co., Toledo, O.

We have been fortunate in securing a full line of Overcoats which for quality of cloths, superiority of trimmings and high standard of finish, positively cannot be excelled. We bought late in the season from wholesalers—we planked down the Hard Cash. We looked the market over thoroughly before placing our order. These tell the story of how we can afford to sell High Grade Coats at prices usually asked for shoddy.
