

THE MYSTIC FOR 1896.

Every part is made on honor and we guarantee it.

It is a model of beauty, strength and ease of management. We use only one class of material—the highest quality obtainable.

Our mechanics work by the day, and thus reduce poor construction to almost nothing.

Our improvements are all the most careful critic can desire.

We build for future reputation, not for the benefit of to-day.

Our bearings are dust-proof. Our tubing is the finest English tube made.

Our ends are case-hardened and made from our own designs.

Our chain is the easiest chain in the world. It is practically without friction, does not stretch, and needs no oiling.

Our new small sprocket is cut to relieve the draft of the chain from the sprocket tooth by a device between the teeth. This chain and

sprocket is worth \$25 to any wheel, and yet we charge nothing extra for this construction.

Our large sprocket is changeable, and our handle bars can be adjusted to suit the rider.

Our wheel weighs exactly twenty-four pounds, but we challenge any twenty-pound wheel to run easier.

The reason why we make the wheel twenty-four pounds is, we know it will stand any country road. The Mystic costs to build 30 per cent more than job wheels. We can not compete in price with any wheel not made with the same care and accuracy.

Do not buy a low grade wheel, as it will be a poor investment.

Before you buy see a Mystic, and thoroughly examine its parts and general construction.

We court inspection. We take no back seat to any wheel made.

Our Exhibit at the Great Cycle Show at Chicago, January 4 to 11, is booth No. 103. Send for Catalogues. Write for particulars. Call for agencies.

STOVES.

This season finds us enabled to offer some great improvements in stove mechanism. The inventors have not only been very busy, but they have been very successful and the result is a number of excellent new candidates for public favor, and a substantial improvement in the merits of the older makes. Prices are even lower than before.

Moore's Air-Tight Heater

Is one of the new marvels. It takes of the base burner at a much less cost. Burns less coal, is more easily handled, responds quickly to attention, and is equally as handsome as the high priced stoves.

Forty Kinds to Select From.

We have the the largest variety of stoves carried in this part of Indiana, and can sell a good heater at from \$5.50 up.

HEAT THAT BED ROOM

with one of our \$5 hard coal burners that will keep fire all night with a hat full of coal.

And these chaps are freezing because they can't stay in house with those roaring furnaces.
