

## Peoples Party News Bureau.

HEADQUARTERS AT ST. LOUIS.

### Plutocracy is Alarmed at the Growth of the Reform Forces.

### THE INDEPENDENT VOTER IN THE SADDLE FOR HIS RIGHTS.

The result of the republican national convention is before the country. It is the first time that any party in the United States has made an unequivocal declaration in favor of the gold standard. The republicans have abandoned the West and hope to make good their loss in that section by securing the support of border states like Kentucky, and West Virginia. They cannot depend upon a single state west of the Mississippi river. All these states, from now on, belong in the Populist column. The address recently issued by the bolting republicans was followed by a similar address by a number of representative Populists from the Mississippi Valley states who had gathered at St. Louis during the republican national convention. The address outlines the opportunity for a union of all the forces opposed to the gold standard and expresses the individual opinion of its signers as to the duty of Populists under existing conditions.

Cyclone Davis is campaigning in Arkansas at present. His meetings are largely attended and many free silver democrats are being converted to Populism. Capt. C. A. Power, one of the most effective speakers in the reform ranks, can be secured for a list of Western or Southern appointments on very reasonable terms. Applications should be addressed to him at Terre Haute, Indiana.

Dr. J. J. Mott, chairman of the national executive committee of the free silver party has established headquarters at the Lindell hotel in St. Louis, preparatory to arranging for the silver convention July 22.

E. Taylor, of Edwardsville, Kans., a delegate to the national convention of the People's party, writes: "There will be one vote in that convention for a union of all the anti-gold forces, under Teller or someone else."

Chas. E. Palmer, writing from Pittsfield, Ill., says: "There is trouble in the republican camp. If this locality is an indication of the feeling elsewhere the stampede to Teller will be a sight fit for the Gods to witness. The business men are coming our way and I feel very much encouraged."

H. L. Brian, chairman of the Louisiana state committee, reports that the Peoples party tripped its vote in that state at the recent election.

Wm. P. Huddleston, of Arkansas, says that state is opposed to Bourbon democracy, if the voice of the people could be heard. The people are oppressed financially, which makes it hard to inaugurate a lively campaign. But, notwithstanding all drawbacks, the cause of reform is making rapid growth in that state.

It is authoritatively reported Pierpont Morgan, conspicuous in the late bond deals has recently been to Europe to secure funds to carry on a political campaign in America—for the gold power of course.

The People's party of Eureka Springs, Ark., passed resolutions last week endorsing the action of Senator Teller in bolting the republican party and pledging their support in case of his nomination by our party at St. Louis.

Editor M. E. Dittman, of the Redding, California, Searchlight, says: "I consider the bureau news letter excellent and of great value in showing the growth of reform all over the country. Old party 'heelers' say we are dead, but the remarkable exhibition given by the corpse in Oregon will do much to help us carry California in the fall."

There are nineteen straight-out Populists in the Louisiana legislature.

Andrew E. Lee, of Clay county, S. D., who was strongly spoken of as a possible Populist nominee for governor, has declined to make the race, owing to entanglements of private business.

Delegates from Michigan to the Free Silver convention at St. Louis will be chosen by mass convention at Lansing. The purpose of the convention is also announced to be the completion of the organization of a free silver party in Michigan. It is expected that when the right time comes Mayor Pingree will be found at the head of the new party.

During June Kansas was prettily thoroughly stumped by J. S. Coxey.

Leo Vincent and F. S. Pulliam are being urged by the Oklahoma papers as deserving of the Peoples party nomination for congress.

Ten prohibitionists in one township near Lyndon, Kan., have announced themselves as Populists since the split in their national convention.

Populists and democrats of the Second congressional district of Kansas have united on M. S. Peters, a firm Populist, as candidate for congress.

Populists of the Fifth congressional district of Illinois have instructed their delegates to place Eugene V. Debs in nomination for president and to "vote for him first, last and all the time." C. O. Sherman, organizer of the American railway union, was nominated for congress by acclamation.

George M. Munger is the favorite of the Populists of Greenwood county, Kan., for governor.

The Eureka, (Kan.) Union is dead set upon the Populists nominating Judge Caldwell.

The Populists of Gentry county, Mo., voted to place a plank urging direct legislation at the hand of the national platform.

Populists in Washington evidently believe in the referendum. M. P. Bulger, chairman of the state central committee, has submitted to a vote the questions as to when and where the next state convention shall be held and determining what are the "fundamental principles of the Omaha platform." A. R.

#### The Hand Separator.

During the past few months numerous communications to this station indicate that Indiana farmers are becoming much interested in the use of hand separators on the farm. Many wish to know if it will pay to buy such a machine, to replace hand skimming of milk.

The hand separator consists of a small metal bowl, which is revolved with great rapidity by means of cog wheel connections. Milk turned into the bowl separates into skim milk which accumulates in the outer portion of the bowl, and cream, which gathers near the center. After the separation in the bowl, the cream and skim milk escape from it, through outlets into separate tubes, from which they are conducted into cans. This action of separation is continuous so long as the bowl is revolving at suitable speed.

Separators are now commonly sold on the market, that do satisfactory work, practically removing all of the butter fat from the milk. On the average farm, probably every 100 pounds of skimmed milk secured by the old fashioned methods, contains from one-fourth to one-half pound of fat. More is left in the milk than farmers are often

aware of. The properly run separator removes nearly all, if not all of this.

The writer believes that every person who keeps five or more cows, with the object of making as much butter from them as possible, who makes gilt edge butter, and who is interested in progressive dairying, would find in the hand separator a money making machine. Other people are likely to be disappointed, if they buy a hand separator.

The following are some of the important arguments in favor of this separator: It effectually skims the milk, thereby saving all the cream or fat. Where impurities have fallen into the milk, such as hairs, dirt, manure, etc., the separator removes them, so that their influence on the cream is much diminished. In summer, separator cream is free from milk curds, which often occur in cream skimmed by hand and cause trouble in butter making. The separator is also a labor saving device when one becomes familiar with its use and care. The necessity for caring for many pans and for many cans is done away with in a large degree.

There are several excellent forms of separators on the market. Prices vary according to size and make, ranging from \$65. up, for first class machines. For the above price, a machine can be bought that will separate 175 pounds in an hour. A popular and standard size, which sells for \$125.00, will skim 350 pounds of milk per hour. Such a machine is used at this Station and gives perfect satisfaction.

The amount of force required to turn a hand separator is not great enough to tire an average man seriously. The use of the tread power is, however, becoming extensive. Small dogs are made, selling for \$150.00 or so, that are used for running hand separators, and a larger tread power, suitable for small bulls or ponies, also used.

C. S. PLUMB, Director, Purdue University Agricultural Experiment Station.

Every township ought to be organized at once.

A man may be a hero one day, and a coward the next.

Labor unions cannot be kept out of politics any longer.

The greatest need of this country is a party of principles.

The people are awake and there will be no fusion or sidetracking.

The people have lost all hope of reform through the old parties.

This is one of the years when you should vote your principles.

The people prefer government paper money to either gold or silver.

No longer any doubt where McKinley and the republican party stand.

The best kind of practical politics is to go to work and educate the people.

No man can be a true populist until he quits being fooled by the old parties.

It is mainly the men who spend their money in Europe who are benefited by a gold standard.

Positively, going to quit the clothing business. All goods are going at cost at The Model.

#### Farm Loans.

We are prepared to make farm loans at a lower rate of interest than any other firm in Jasper county. The expenses will be as low as the lowest. Call and see us. Office in the Odd Fellow's Building, near the Court House.

WARREN & IRWIN.

#### House To Rent.

For information call on Hollingsworth & Hopkins.

For sale, good second-hand cook stove. Inquire at this office.

#### You Want Some

#### CAMPAIGN SONGS.

The best, the most complete, the greatest variety and the most popular campaign songs are found in the New and Revised Edition of the

Alliance and Labor Songster.

Over 80 patriotic political, comic and society songs, with popular and familiar music. Over 100,000 copies have been sold, and the new edition is better than ever, for the best songs written in the past five years have been added to the former choice collection. The peculiar charm of this book lies in the fact that you already know the music-familiar tunes that you have sung since childhood, and you do not have to spend half the summer in learning a new tune that you don't like after you get it learned. Price 20 cts. or \$2.00 per dozen. Cash with the order postpaid to any address. Send your orders to this office.

**THE WHITE HOUSE.**—The Populists will capture it in '96. Show the country down with Populist literature. I will print your name and address on the People's Party Exchange List for a silver dime, and you will receive a large number of leading Populist papers for reading and distribution at White Plains, J. H. PADDGETT, Lock Box 416, Ennis, Texas.

#### Jasper County Summer School.

The Jasper County Summer Schools will convene July 20th 1896, in the Rensselaer High School Building, and continue in session for five weeks. Classes will be conducted in all the Common School Branches Science of Education, and Literature.

Forenoon sessions only, commencing at 7:30—Tuition \$4.50 in advance or \$1.00 per week.

Supt. Sanders of the Rensselaer Schools, and Newton Warren, Prin. of the Sheridan High Schools will have charge of the work, assisted by County Supt.

For any information call on or address, J. F. Warren Co. Supt.

#### Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, Indigestion, Constipation, Dizziness yield to Electric Bitters. 50c. and \$1.00 per bottle at Frank B. Meyer's Drug Store.

Eli Hill, Lumber City, Pa., writes, "I have been suffering from Piles for twenty five years and thought myself incurable. DeWitt's Witch Hazel Salve was recommended to me as a pile cure, so I bought a box and it performed a permanent cure." This is only one of thousands of similar cases. Eczema, sores and skin diseases yield quickly when it is used. A. F. Long.

#### Marvelous Results.

From a letter written by Rev. J. Gundersen, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's new Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Frank B. Meyer's Drug Store.

slugRar size 50c. and \$1.00.

#### How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that can not be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Props., Toledo, O. We the undersigned, have known F. J. Cheney for the last fifteen years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.
