Isaac Glazebrook run a sharp pointed wire through his foot a few days since and has suffered a deal of inconvenience from it since.

Lots in the Leopold addition in proximity to the court house are very much fought for at present by local real estate buyers.

Mr. and Mrs. Newton Warren, who were married Sunday morning, left for Bloomington, where Mr. Warren will engage in school work.

At a thrashing in the township of Marion last week there were twenty-six farmers present, only one of whom owned the farm he lived upon.

Everybody needs an Aermotor, the best windmill made. Sold by Judson H. Perkins. Call on him at office in McDonald's poultry market.

Twelve of the stone cutters on the court house have been laid off because of the accumulation of finished stone that has not been men set in the wall.

J. D. Babcock, trustee of Marion township, is reported to have told some free silver men a few days since, that no honest laborer would vote for Bryan. It is to be regretted that any man would, so forget his American citizenship as to so brutally stigmatize those of his fellowmen who happen to differ with him. Mr. Babcock will hardly repeat the statement to the same parties.

The local money brokers have received instructions from their eastern principals that no further farm loans will be made until the financial policy of the government is settled. Hollingsworth and Hopkins, who have been extensively engaged in this line are among those who have been obliged to reject numerous applications of late on this account. It is to be regretted that the citizens of our country should be made to suffer inconvenience of this kind because of agitation of the silver question.

John Reynolds arrived home Monday from Milwaukee where he has been having a very successful season with his new running horse, Lou Hopper. He won second money in a race last Saturday, upon which race a fortunate backer won so handsomely that he made Mr. Reynolds a present of a \$200 gold watch. He left for Lexington Tuesday to purchase other horses. It is reported Lou Hopper has started six times, winning one first, three seconds and two thirds. So far it has been a very profitable season for Mr. Reynolds and he has high hopes of still other victories this fall.

#### The Discovery Saved His Life.

Mr. G. Caillouette, Druggist, Beaverville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at F. B. Meyer's Drug Store.

Eli Hill Lumber City, Pa., writes: "I have been suffering from Piles for twenty-five years and thought myself incurable. DeWitt's Witch Hazel Salve was recommended to me as a pile cure, so I bought a box and it performed a permanent cure." This is only one of thousands of similar cases. Eczema, sores and skin diseases yield quickly when it is used. A. F. Long.

#### McClure's for September.

McClure's Magazine, with a stirring barrack-room ballad by Kipling, a thrilling installment of Anthony Hope's "Phrosos", a dramatic sea story by an actual sailor, and characteristic stories by Mrs. Spofford and Clinton Ross, maintains, in the September number, its usual enticing aspect. In scanning a table of contents of McClure's, one never experiences, it must be allowed, the familiar difficulty of finding something one really cares to read.

More interesting even than the fiction, in this number, are some of the graver articles. Mr. Low's recollections of his art-student days in Paris and of the notable painters whom he came to know more or less intimately there; Mrs. Morton's intimate account of the heroic labors of her husband, Dr. W. T. G. Morton, in overcoming incredible prejudice and obstruction and getting his humane discovery of anesthesia perfected and introduced, and so giving painless surgery to the world; the vivacious, yet sympathetic account of the painter Whistler (that most picturesque of men) and his eccentric ways and witty speeches; and Elizabeth Stewart Phelps' account of her life down among the Gloucester fishermen—all of these are the very best of good reading in their several ways. All are fully illustrated with portraits and other pictures.

Considering abiding value as well as immediate interest, the feature of the number is Lincoln's "Lost Speech"—raised to the fullness of life as it were from the very dead. It is truly a great speech, as persons who heard it have always so ardently testified. Delivered at Bloomington in 1856, it practically created the Republican party in Illinois. But the reporters were so absorbed in listening that they forgot to report, and the speech was supposed until now to be irretrievably lost. Mr. Joseph Medill, editor of the Chicago "Tribune", who heard the speech, introduces it with an interesting description of the occasion.

#### Something to Know.

It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy tone is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centers in the stomach, gently stimulates the Liver and kidneys and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it.
