School began Monday at Burnstown with George Collins as teacher.

More cement walks are being laid on River St.

Peter Lutes, the boss of constructions at the court house, spent Sunday with his family at Rochester, Ind.

Albert Fendig of Brunswick, Ga., who has been visiting his parents for the last week, will depart for his home today.

The ladies of the Presbyterian church will serve dinner and supper in the Nowel's block on Oct. 31st. Any one wishing a good meal will do well to call on them.

Rev. Waterman, who is traveling through this state, preached last Sunday morning and evening at the First Baptist Church.

Mrs. Borchardt, who has been visiting her parents during the summer, departed for her home at Tampa, Fla., Tuesday. Her brother, B. F. Fendig, accompanied her, to be absent until Oct. 30th.

The Woman's Relief Corps will serve dinner and supper on election day in Leopold's room, south of the Pilot office. All comrades or others who will, are requested to help by donations of food or money. Profits to be used for relief.

Mrs. Hershman, near the depot, has all the late styles in millinery, a fine line of hats, everything new in trimmings, a really beautiful display of all the things so dear to woman's heart, and the prices are always the lowest in Rensselaer, by at least 25 per cent.

Perry Craig of Wisconsin is visiting his son, F. D. Craig, this week. He brings favorable news of the silver movement in the badger state, and predicts the success of Bryan there. Wisconsin is naturally a republican state, but was carried for Cleveland four years ago where there was an independent populist ticket in the field. There is fusion there this year and the prohibition vote is nearly solid for Bryan.

Chronic constipation is a painful, disagreeable and life-shortening difficulty. It deranges the system, causes sick headache, bad breath, and poisons the blood. It can be easily overcome by DeWitt's Little Early Risers. These little pills are great regulators.

A. F. LONG.

Dr. Alva Mills died at the city hospital, Indianapolis, Wednesday morning, of typhoid fever, after an illness of several weeks. The funeral occurred last Friday from the home of his father, Aaron Mills, at Plainfield, Ind. He came to Rensselaer last spring, a graduate of Indiana Medical College. He was twenty-nine years old, well prepared to assume the responsibilities of a physician's calling, in which work he was fast rising to success and good repute. Dr. Mills was well pleased with his selection of Rensselaer as his place to start in life and had won many warm friends during his brief stay here.

Hog Cholera: Suggestions to Swine Growers.

Last year Indiana lost five hundred and eighty thousand two hundred and sixty hogs by disease, entailing a property loss of three and a quarter million dollars. Nearly the entire loss was due to cholera and swine plague. It was distributed as follows: In two hundred and thirty-two townships the loss was from ten to twenty per cent; in one hundred and twenty-seven, from twenty to thirty per cent; in fifty-nine, from thirty to forty per cent; in fifty-three, from forty to fifty per cent; in twenty-four, from fifty to sixty per cent; in twelve, from sixty to seventy per cent, and in one seventy-seven per cent, while the remainder lost less than ten per cent of all the hogs that were produced.

The disease is well disseminated in the state this fall, and the season of greatest loss will soon be upon us. Every effort should be made to lessen its ravages as much as possible. An important factor in reducing the loss, is to provide shelter, as all hogs with only a mild attack, or having apparently made a recovery, may take a relapse if exposed to a cold rain or a sudden change to rough weather.

There are thousands of hogs now in a condition to become affected with pneumonia, which would escape if given a little protection. Any shed which will keep off the rain and break the wind is sufficient. The floor should be dry, but little bedding is needed, and that renewed frequently. Burn all litter and bedding once a week. Keep the herd divided so that crowding is impossible. Remember a straw stack is the most unfavorable place that can be provided for sick hogs.

The essentials in prevention are good food, pure water and clean, dry quarters.

The station would be pleased to receive information from any source as to the presence of the disease and of all successful ways of checking it. Address

Ernest Lowther spent Sunday in Lebanon. He says that in central Indiana the tide is running strongly in favor of Bryan and free silver.

The republicans are beginning to realize that the "silver craze" is not abating. They are reaching the conclusion that it will forceably manifest itself on the 3rd of next November. They feel that explanations are now in order, and are telling "how it all happened."

While Mr. Bryan was going from the depot to the State house in Indianapolis, he passed under a transparency, stretched across the street, which bore these words: "Gold Democratic Headquarters." Mr. Bryan smiled. It was significant, you know, to see the sign "gold democrat" flanked by an undertaker on the one side and a pawnbroker on the other.

There are probably some surprises in store for some of the republicans, when the vote of Jasper county is cast.

It would have shaken the faith of the staunchest republican to have been present at the Union Township Free Silver League held at Center School House last Friday evening. This was the most enthusiastic meeting since the organization. The League was addressed by Lee Glazebrook and Austin Lakin, who were frequently interrupted by vigorous applause, evidencing the strong sentiment of the audience. The music was furnished by the Martial band and the Glee club led by Alf. Lee. Union township has some home talent that cannot be surpassed by any in the county.

Fifty Years Ago.

This is the way it was bound to look when grandfather had his "pictor took." These were the shadows cast before The coming of Conjurer Daguerre And his art; like a girl in a pinacore Some day to bloom to a goddess fair. Men certainly were not as black, we know As they pictured them, 50 years ago.

Ayer's Sarsaparilla

began to make new men, just as the new pictures of men began to be made. Thousands of people fronted the camera with skins made clean from blotch and blemish, because they had purified the blood with Ayer's Sarsaparilla. It is as powerful now as then. Its record proves it. Others imitate the remedy; they can't imitate the record:
