Your Boy Won't Live a Month.

So, Mr. Gilman Brown, of 34 Mill St., South Gardner, Mass., was told by the doctors. His son had lung trouble, following Typhoid Malaria, and he spent three hundred and seventy-five dollars with doctors, who finally gave him up, saying: "Your boy won't live a month." He tried Dr. King's New Discovery and a few bottles restored him to health and enabled him to go to work a perfectly well man. He says he owes his present good health to the use of Dr. King's Discovery, and knows it to be the best in the world for Lung trouble. Trial bottles free at F. B. Meyer's Drug Store.

Municipal Electricity.

Logansport Lighting Plant a Profitable Venture.

From The Logansport Advance.

To each one of our exchanges to-day we send a marked copy of the Advance containing the yearly report of the electric light plant committee, upon which we will make no further comment, as the report shows municipal ownership to be a success beyond a question. There is not a city in the union but should own its own lighting plant. The only mistake Logansport made was in not comprehending the magnitude of the work. The plant at the commencement was too small, which has been enlarged twice within two years to meet the demands of the public. Many hundreds of dollars could have been saved had the first plant been ten times the size of the first experiment.

To the honorable mayor and members of the city council:

Your electric light committee in submitting to you the second annual report of the electric light clerk, beg leave to submit the following deductions:

Very early in the year it became apparent to the electric light committee that it would be necessary to add very materially to the capacity of the plant in order to enable the department to meet the rapidly increasing demand for light. This want was made known to the council and authority was given to your committee to purchase a 240 horsepower engine, one eighty light arc dynamo and one eighteen hundred light incandescent dynamo. These machines, together with the construction of the necessary lines of installing the necessary transformers and meters, cost the department \$14,116.27. We paid during the year on the Standard Electric Company contract an account of interest (that had not been previously charged to the construction account) \$1,050.

Adding these accounts to \$69,120.91, the cost of the plant up to January 1, 1896, makes the total cost of the plant up to January 1, 1897, \$84,287.18. The plant now has in engine capacity six hundred and eighty horse power and four hundred and fifty horse power in water wheels. We have arc dynamo capacity for two hundred and sixty arc lights of 2,000 candle power each, and incandescent dynamo for fifty-six hundred lights of sixteen candle power each.

One year ago we had forty-five hundred incandescent lights connected up. We now have eighty-five hundred and eleven; showing an increase during the year of four thousand and eleven lights. Our total cash income for 1895 was \$6,211.49, our total cash income for 1896 was \$13,550.17, showing that our income from private lighting has more than doubled during the year just past.

In addition to our income from private lighting, the department is entitled to a credit of \$13,214.70 for lighting the public streets, city offices, engine houses, water works and police headquarters; making the total earnings of the plant \$26,744.87. It will be noticed that while we have eight thousand incandescent lights connected up, we only have dynamo capacity for fifty-six hundred lights. This without some qualification would appear that

we were overtaxing the machinery, which is not the case, as in the resident districts, not over one-fifth the lights connected up are actually burning. We now have about forty-two hundred lights burning each night, leaving us a reserve capacity of about fourteen hundred lights.

The operating expenses of the entire plant for the year is \$11,275.57. In this item is included office stationery and \$640.10 paid for incandescent lamps which were sold to the city's patrons and credited to our cash income. It is a very plain case now, that this venture will be a very profitable one to the city. In the opinion of your committee in two years from this time, the maximum capacity will be reached, and after that time the expense for betterment and extensions will be light, the price for lighting to consumers may then be reduced. This can be done, notwithstanding the fact that our present rate is as low, if not lower, than in any city in the United States.

Respectfully submitted,
GEORGE HAIGH,
W. H. KENNEY,
S. B. BOYER,
Electric Light Committee.

Free Pills.

Send your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are in action and are particularly effective in Constipation and Sick Headache. For Malaria and Liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and are purely vegetable. They do not weaken by their action, but by giving tone to stomach and bowels greatly invigorate the system. Regular size 25c. per box. Sold by F. B. Meyer's Druggist.

Remington.

Citizens of Benton, White and Jasper counties have organized a Farmers, Mutual Fire and Lightning Insurance Co. with headquarters at Remington Ind. The Company is composed of the best farmers, also the wealthiest in the three counties, and it seems to me that the company will certainly
