

—Work on the new jail has commenced.

—The new bank building is beginning to loom up.

—M. Curran, the railroad watchman, is very sick.

—It is not hot, the mercury is less than 100 in the shade.

—A. T. Metcalf is rusticationing with friends in the country.

—Some correspondence and other matter is crowded out this week.

—Mr. and Mrs. B. Hellman also Miss Ray Ehrlich are visiting at M. Lauer's.

—Plymouth "Quick Steps" have reorganized and played a game of base ball yesterday.

—Ed. Lewis, Deputy Auditor, who has been quite sick for the past week is able to be out again.

—The Presbyterian social will meet this evening at Mr. W. Rogers's. Everybody is invited.

—There are forty seven teachers attending the Normal School and the number is increasing daily.

—Miss Maggie, Miss Dadie and Mr. William Dunn, of Indianapolis, are visiting at Mrs. Cressner's this week.

—The Rev. L. P. Tachefly, the first Rector of St. Thomas' Church in this city, will officiate here next Sunday.

—The crop of early potatoes is immense, and the rain Monday night was just what the late potatoes needed.

—Nussbaum and Mayer have bought Norman Woodward's stock of groceries and will close them out cheap.

—Major Cooper is again out of jail, but will not deliver any more temperance lectures in Plymouth we presume.

—Rev. G. H. Thayer, father of our fellow townsman, H. G. Thayer, will occupy the pulpit of the M. E. Church next Sabbath.

—The old settlers did not turn out in such large numbers as was expected last Saturday, but those that were present had a good time.

—Frank Hulverson, telegraph operator at Chicago, spent Saturday night and Sunday in Plymouth visiting his parents' and friends.

—New wheat is coming in lively. H. G. Thayer is taking in about 2 000 bushels per day, and other buyers are also doing a lively business.

—The rain Monday night came down steadily and gently, and when morning dawned all nature seemed to rejoice. It was just such a rain as was needed.

—Hundreds of visitors from all parts of the country through the shores of Maxenkuckee, and their camp fire at night look like the sea of large army.

—Wheat and oats were never better in this country, but corn will not be more than an average crop, and will probably not reach average without a favorable fall.

—Reformed Church social at the residence of Jonathan Brown, corner Monroe and Walnut streets, this, (Thursday) evening. The public are cordially invited to attend.

—A beautifully fragrant bouquet, the kind remembrance of Little Daisy Benham, daughter of Joseph Benham, gladdened the hearts of the boys of THE REPUBLICAN this week.

—John Edwards, whose legs were cut off by the railway train, was removed to his home last Sunday morning. The physicians think there is now no doubt of his recovery.

—At the M. E. Church next Sunday morning Rev. G. H. Thayer's subject will be "The theory and philosophy of Divine government," and in the evening he will submit some thoughts on the theories of "Free thinkers."

—One of our temperance men thinks the deadfall in front of Shakes' saloon as dangerous as that inside. It is a fact that such a miserable sidewalk cannot be found in the business portion of any other city in the world.

—Sixteen tramps spent Tuesday afternoon and night in the vicinity of the depot. They have a hard time now when so many farmers want hands. They have to be pretty sharp, to get out of doing a little work occasionally.

—Tuesday evening when Mr. E. O'Brien arrived at the railroad watch house he found that six tramps had taken possession of it and turned it into a barber shop. He soon turned them out on the railroad track.

—Miss Amelia Wolf, of Fort Wayne, who has been visiting friends in this city the past few months, was unexpectedly called home last evening, regretting to so soon bid good-bye to her many acquaintances for need while here.

—Somebody sent up a rocket in Plymouth Sunday evening, and somebody else reported to the Indianapolis Journal that a large meteor burst in the south-east part of the heavens, making an awful report which sounded like the rattling of artillery.

—When street supervisor McKague takes a tramp out of the jail to work him on the streets, he looks at his legs, and if one is larger than the other he fastens the chain on the small one. He did not do this until after one tramp had given him the slip, and he had learned that rags and paper sometimes made a difference in the size of a man's legs.

—The residence of L. Molter, three miles east of town, on what is known as the Gobie place, burned to the ground last Friday morning. Scarcely any of the contents were saved. We are informed that the house was insured in the Underwriters of N. Y. for \$1,250.

—W. E. Thompson, one of the old settlers, called on us Saturday, and left two dollars, an act which he never forgets to perform once a year. Having been one of the proprietors of THE REPUBLICAN in days when it was not so prosperous as now, he knows that it takes money to publish a paper.

—John Greer, who resides about three miles south-east of town, threshed twenty acres of wheat last Thursday that made 567 bushels. Mr. Greer has forty acres yet to thresh which he thinks will yield more per acre than this. He says that most of the wheat in his neighborhood will make from twenty fifty to thirty bushels to the acre. Mr. Greer and nearly all his neighbors take the REPUBLICAN and pay for it in advance. This probably accounts for their big crops. Others can have it on the same terms.

—All the planets are visible this month—an unusual spectacle. Venus can be first seen in the evening twilight. Mercury is visible as a bright star glimmering in the west just after sunset. Mars is seen toward morning, and is increasing in its glow. Jupiter is wonderfully bright in the east about midnight. Saturn can also now be seen shining with a pale yellow light just before midnight. Uranus was near the new moon on the 21st, and Neptune may be detected in the east a little above the horizon after the 27th.

—Our Argos correspondence came too late for publication in full, but we condense the following items: J. C. Gordon received 2,300 bushels of wheat last Friday. S. N. Stevens is attending the Normal at Plymouth. Farmers generally threshing out of the shock. R. v. Strickland intends leaving Argos for other fields of labor. Forty persons from Indianapolis passed through Argos, Monday, on their way to Maxenkuckee. The annual conference of the Christian Church will commence August 6th. Rev. A. J. Clifton attended the quarterly meeting Sunday. Emanuel Camp, Sr., was fined fifteen cents for provoking an assault by Mrs. J. Clarke.

—The annual report of the Plymouth Public Schools, printed at this office, will be ready for distribution next week. It contains eighty pages of matter, and much of interest to every citizen of Plymouth, and should be carefully read by parents and taxpayers. Each pupil is designated by a number instead of his name, and parents will be given the numbers of their children. The conduct of pupils is designated by figures, and while each parent will know just what his child has been doing others will know nothing about it. Professor Chase uses very emphatic language in condemning some of the pupils, and parents will know just what he expects of them in the future. The financial exhibit shows that Dr. Reynolds and Messrs. Buck and Cooper, have performed their duties well as members of the School Board. The cost of tuition per pupil as based on average membership and as based on enrollment has gradually decreased since 1874, while the school has been made better every year. The cost of tuition per pupil during the year 1879, based on the enrollment, is \$6.91, and is less than that of any surrounding cities or towns. The number of teachers for the ensuing year will be the same as last year, and their salaries will remain unchanged.

The Marshall County Fair.

We are glad to be able to announce that Marshall county will no longer be behind other counties in the State, as regards an opportunity for the display of all farm products, manufactured articles or anything else that her citizens should take pride in exhibiting at a county fair. We have no agricultural society, mechanical association, or other organization to inaugurate a fair. But we have in North township two enterprising and substantial farmers who own the old fair grounds and have already put the track in as good condition as that of any other fair grounds in the State. These two men, John Seltenright and William Scofield, have determined that Marshall county shall have a fair, and with the assistance of the farmers, mechanics, merchants, laboring men, professional men, and the wives and daughters of all these, they expect that the Marshall County Fair will be excelled by few counties in the State. The list of premiums will soon be ready for publication and will probably appear in THE REPUBLICAN next week. Liberal premiums will be offered in every department, and every man, woman and child in Marshall county should labor to make the fair one of the best ever held in this section of the country. We have one of the best counties in the State, and there is no reason why we should not have one of the best fairs in the State. We have fine horses, cattle and hogs. We have good farmers, and farm products in abundance; we have mechanics as good as can be found anywhere, and all we want now is interest and co-operation with the managers and the fair will prove a success, and every property owner in the county will be benefitted. If every citizen of the county would try to place some article on exhibition, we would clearly establish the fact stated above that we have a county which when fully

developed will be second to none in the State; the people of other counties and other States would soon learn this; men of enterprise and capital would seek locations in our midst and all would be glad that they helped make the fair a success, and though all could not be awarded premiums all would be benefited.

Old Settler's Meeting.

The first annual meeting of the Old Settler's Association was held on the 19th, inst., at Magnetic Park, near the great magnetic flowing well, and found to be a very enjoyable occasion to many. The day was beautiful. The society was called to order by Robert Schroeder, President, the second white settler in the county. The Bourbon band volunteered its services and rendered some good music during the "day, for which a resolution of thanks was tendered them at the close.

The President's address was interesting, and received with applause. The Glee Club sang some very fine pieces during the exercises.

The oration by D. McDonald, Esq., who came here forty-four years ago, was full of interest, and received with hearty applause. The responses to the four regular toasts, "The Pioneers," by A. C. Thompson; "Our County and its progress," by M. L. Smith; "Our successors and their trusts," Rev. Chaplain, and "Our Life, its Clouds and Sunshine," by Rev. G. H. Thayer, were worthy of the subjects, the men and the occasion.

D. McDonald, was elected President, Stephen White, Vice President; John W. Houghton, Secretary, and G. H. Thayer, Chaplain for the ensuing year. The constitution was altered so as to admit as members any person who has resided here continuously for twenty-five years. Many new members were enrolled. The dinner, in true pic-nic style, was abundant, sumptuous and partaken of with relish, while the magnificent well close at hand furnished a beverage cool, sweet and unexcelled anywhere in the world, pouring out its five hundred gallons per minute. The attendance was not so large as it should have been, owing to the harvest and haying, which is late, because of the large crop and scarcity of help. Those complaining most of hard times in hundreds of cases refusing to work at all, or in some cases unless they could get presidential salaries.

The speeches were all written and it was expected they would be handed in to the committee for publication; but for some reason it was not done, and we are not able to produce them. We could not find the minutes, the Secretary elict knowing nothing about them, and we are indebted to Senator Reeve for this synopsis, not having been able to remain on the ground until the meeting closed.

Next year the society will be in better working order, and whoever lives to see it, will see one of the pleasures of a lifetime. We hope old time may be kind and spare all those now with us to meet again a year hence, and that then every man and woman who has been twenty-five years in the county will be present and have their names enrolled.

WALKERTON.

BY ST. JOSEPH.

Seventy-four loads of wheat were bought in Walkerton Saturday, at 98 cents. Formerly all the wheat bought here was purchased by Stevens, and shipped by the I. P. & C.; but now Mr. I. C. Bailly, recently of Elkhart county, and who has a large stock of dry goods and boots and shoes, buys in competition with Stevens and ships by the B. & O. R. R., which Co. will soon have an elevator here; consequently Walkerton is becoming a lively wheat market.

It is estimated that on Sunday, 20th inst., more than 2,500 people visited South Chicago, the city of the fens and huckleberry marshes of LaPorte, St. Joe, Starke and Marshall, and situated 2½ miles from this place. The band of Walkerton was there in all its pristine glory. The instruments being new, glistened like burnished gold in the sunlight, and the boys seemed to feel as proud as a regiment of 2nd Lieutenants on dress parade, with no enemy near. On the grounds were many who picked berries there when children, and who mourned that they were now too old to pick, *sic transit, &c.* People were there from Chicago, LaPorte, South Bend and Plymouth. Mr. N. Schroeder, of Iowa, has leased two hundred acres of marsh belonging to I. F. Duffey, of Chicago, and also the marsh belonging to Sam Koonts, a well known fat, jolly Dutchman, of Starke, which, together with about 350 acres of his own, gives him control of about 600 acres, and he also ships from Teegarden and LaPaz his shipments daily amounting to from 8,000 to 6,000 quarts. The crop this year is regarded as only an average. There are many families in parts of Starke, St. Joe, Marshall and LaPorte, who almost depend on the huckleberry crop for their subsistence, and there is probably about \$1,000 paid out here daily for berries by the different shippers; Schroeder, Stevens and others.

Oats in this vicinity are waiting for the sickle, having ripened rapidly during the past two or three days, and the crop is a fine one. Corn is booming faster than either Tilden or the big Daniel of Illinois. We think that there never was in this county any period of two weeks in which corn has grown faster than it has in the past two, and it is rich with the promise of a golden harvest. God has certainly been kind to the people

of this section during the present year.

The extra train on the I. P. & C., running to the temperance jubilee at LaPorte, has not taken many from Walkerton as yet. Probably a large number here are waiting till the busy season is past.

Society Notice.

The Executive Committee of "The St. Thomas Lytmans' Missionary Society" at their meeting Tuesday evening, decided to call a meeting of the society, and all wishing to become members of the same will meet at the church on next Sunday afternoon at 4 o'clock p. m., at which time the object of the organization, constitution, by-laws, etc., will be explained and adopted. The Committee hope there will be a full attendance to help on with the work. Membership is open to all.

CARRY the news, the glorious news to Mary—yes, and to your Uncle your Cousins and your Aunts—Little Mack the Poor Man's Friend, as also the rich man, as he is as welcome to the bargains, will re-open at Woodward's grocery stand Saturday, instead of next to Barney Ryder's.

Stockholder's Meeting.

PLYMOUTH, Indiana, July 8th, 79.

There will be held a meeting of the Stockholders of the Plymouth Building, Loan and Savings Association, at the office of the Secretary, on Monday evening, August 4th, 1879, at 7:30 o'clock, for the transaction of such business as may be brought before them.

By order of the board of directors.
C. E. TOAN, Sec'y.

I was bound to stay with you, and I was bound to secure a large and light store room, and succeeded—will re-open next Saturday at Woodward's grocery stand, opposite Buck & Toan's—LITTLE MACK.

Try It, It Will Cure You.

If you are troubled with a Lamæ Back, Gravel, Leucorrhœa, Non Retention or Incontinence of Urine, Inflammation or Ulceration of the Bladder and Kidneys, or Liver Complaint, try Hill's Compound Extract of Bile and Catals. It will cure you. For sale by L. Tanner. 32 33

EVERYBODY says: Mack, I'm glad your coming back. I traded with you before and I will trade with you again. Yes, and I promise that you won't regret it. I'll sell cheaper than anybody, or "but."

—There will be a grange fair Sept. 27, 1879, at or near the hall of Yellow River Grange No. 155, in Union township, Marshall county, Ind., free to all.
B. ADAMSON, Sec.
jull7/1879:27

I HAVE secured a central location for the greater convenience of my customers, although my friends all say: It don't make any difference where you go, Little Mack, we will find you. I have secured Woodward's grocery stand.

Giles' Liniment Iodide Ammonia cures Neuralgia, Face Ache, Rheumatism, Gout, Frosted Feet, Chilblains, Sores Throat, Erysipelas, Bruises, and wounds of every nature and kind, or any kind of Catals. The remarkable cures this remedy has effected classifies it as one of the most important and valuable remedies ever discovered for the cure and relief of pain.

From over-exertion, I contracted a pain across my loins. My sufferings were intense. One bottle of Giles' Liniment Iodide Ammonia cured me.
T. B. MCGEE,
Conductor N.Y. and New Haven R.R.
Giles' Pills cures Suppurations.
Sold by G. Blain & Co. 32 33

PERSEVERANCE and sweet oil and the everlasting grit of Li Mac in getting Woodward's store for a business room shows that Little Mack is a business man of the first water. Mr. N. S. Woodward sold out to Nussbaum & Mayer, and now Little Mack has the whole room for his own business. The Grand Opening takes place next Saturday.

It Is Well Known.

Many grocers sell Dr. Price's Cream Baking Powder at the same price of the cheaper kinds; and as they pay more for it, make less money, hence, they never sell it unless the purchaser demands it. Pure articles can not be made as cheap as those that are adulterated.

Business.

All persons knowing themselves indebted to me by note or account will find it to their interest to call at my office and settle the same before the 1st of Sept. 1879.

to sept 1 DR. BORTON.

Stop that Cough.

If you are suffering with a cough, Cold, Asthma, Bronchitis, Hay Fever, Consumption, loss of voice, tickling in the throat, or any affection of the Throat or Lungs. Use Dr. King's New Discovery for Consumption. This is the great remedy that is causing so much excitement by its wonderful cures, curing thousands of hopeless cases. Over one million bottles of Dr. King's New Discovery have been used within the last year, and have given perfect satisfaction in every instance. We can unhesitatingly say that Catals is really the only *sure* cure for throat and lung affections, and can cheerfully recommend it to all. Call and get a trial bottle for ten cents or a regular size for \$1.00 at L. Tanner's and also G. Blain & Co's, Plymouth.
