

The Skin AN INDEX TO THE BLOOD

Millions of little glands or tubes connect the blood with the skin, and through these small drain pipes perspiration passes out, carrying with it the impurities that are thrown off by the blood. Should the pores of the skin be entirely closed for even a brief space of time, and the poisonous matter forced back into the circulation, instant death would result. In addition to the sweat glands, the skin is provided with certain others which pour out upon it an oily substance, keeping the skin pliable and soft and protecting it from heat and cold. The blood and skin are so closely related that whatever affects one seriously interferes with the functions of the other. Not only health, but life itself, depends upon perfect harmony between the blood and skin. When, therefore, the blood becomes poisoned from any cause, it quickly **Internal and External Poisons**

Pure Blood—of sores and ulcers, pimples and various eruptive diseases. By the character of the sore we are enabled to determine the nature of the poison or humor in the blood, as every disease originating in the blood has its own peculiar sore or pimple. The skin is not only affected by the poisons generated in the system, but poisons from without enter through the open glands or pores and quickly infect the blood. Mercury rubbed upon the skin will produce Rheumatism, and Poison Oak and Ivy and other wild plants gain easy access to the blood through the skin. As so-called skin diseases originate in the blood, the application of powders, soaps and washes can do no permanent good, but often do immense damage by closing up the outlet to these little tubes and interfering with the natural action of the blood, and the acid or other poisons are not only neutralized. S. S. S. does this and purifies the circulation, builds up the blood and flushes the little glands or pores with pure, new blood, and restores healthy action to the skin. The use of cosmetics never yet brought health and beauty to a rough, red, pimply skin or sallow complexion. What is needed is rich, pure blood, such as S. S. S. makes. It not only relieves you of all disfiguring blackheads, blotches and irritating, itching eruptions, but improves your general health. S. S. S. contains no mercury, potash, arsenic or other mineral, but is a purely vegetable remedy and the safest and best in all blood and skin troubles. Write our physicians for advice or information; they have made a study of blood and skin diseases, and you can have the best medical advice without cost. Book on **Blood and Skin Diseases free.**

MATRIMONIAL MISFIT

Gets a Couple of Families into a Bad Tangle in the Relationship Line.

ANOTHER SORT OF LOVE STORY

In Which the Small Divinity Proves Stronger Than Patriotism—Those Dye Millions.

Marion, Ind., June 3.—William and John Church, brothers, lived in Indianapolis. The two young men courted and married young women who were friends. The young woman who married William became infatuated with William's brother, John, before the wedding, and the young woman who married John was in love with William. This fact developed after the weddings of the two brothers, but they lived with their respective wives for number of years, and children were born to both households. Separations followed, and the brothers secured divorces from their wives.

Mixed Those Babies Up.

They then married their first loves, the wives took the children, and their uncles became their step-fathers. Church came to Marion and embarked in business, and John went to Peru. Last Saturday Mrs. William Church left her husband and home in this city, took her children and went to Peru. It is now asserted that she has gone back to her first husband, who is her brother-in-law, and has taken his own children, who had become his niece and nephew, and also her children, born to her second husband. The double marriage has badly complicated the relationship of the two families.

She Said "Perhaps."

Kokomo, Ind., June 3.—Three years ago Joshua C. Freeman wanted to marry Nora B. East, and threatened to enlist in the army if she refused him. "Enlist," she said, "the country needs you worse than I do. Perhaps when you return I will marry you." Freeman enlisted, and returned from the Philippines Saturday. By chance he met Miss East in town.

"You said 'perhaps,'" was his greeting to her.

But She Meant "Yes."

"I meant yes," was her reply. "If you re-enlist," Squire de Haven married them, and the groom departed at once for Fort Sheridan to again offer his services to the government. On the way he received a telegram saying: "You need not re-enlist if you do not want to." His return is expected.

DYES ARE NOT LOSING SLEEP

Over the Alleged Fortune Awaiting Them in Pennsylvania.

Wabash, Ind., June 3.—The report sent out from Marion of the vast fortune awaiting the Dye family, most of the members of which reside in Indiana, may in some particulars be true, but the alleged heirs profess to have very slight assurance that they will ever realize any considerable amount from the windfall. The story that the Pennsylvania Railroad company had deposited \$1,500 in a Wabash bank to pay the expenses of perfecting the title in order that a quit-claim deed might be procured is untrue.

Every bank in the city denies that any sum has been deposited with it by the Dye family or the railroad company, and all were in ignorance of the alleged windfall until they saw the Marion story in the papers. While the Dyes have all along believed they had an interest in valuable property in Pennsylvania, they are anything but sanguine of realizing even a modest fortune therefrom, to say nothing of a share of \$33,000,000.

Soldiers' Monument Dedication.

Indianapolis, June 3.—At the call of Governor Durbin, representatives of the Grand Army of the Republic in Indiana, committee from the Royal Legion, the Spanish-American war veterans, and the Sons of Veterans and prominent citizens of the city and state met in the governor's parlors at the state house and decided that at the dedication of the soldiers' monument here the president and cabinet with others eminent and prominent should be invited to take part.

Dray Pin vs. Revolver.

Rushville, Ind., June 3.—Jessie Hilling, aged 25, shot and killed George Rutherford, aged 50. The two men engaged in a fight and were separated by friends. Hilling returned in a few minutes, flourishing a revolver. Rutherford picked up a dray pin and started toward Hilling, who shot him down as he approached.

Lincoln's Mother's Monument.

Evansville, Ind., June 3.—The monument to be erected over the grave of the mother of Abraham Lincoln at Lincoln City, Spencer county, has arrived and will be put up at once. The unveiling will be marked with elaborate ceremonies and the state officials will be invited to take part.

Cast of Gen. Harrison.

Indianapolis, June 3.—The bust of General Benjamin Harrison has been placed in position at the Columbia club in the great hall near the entrance. No ceremonies attended the receiving of the bust, which, later on, will be appropriately mounted on a pedestal.

Company Must Accept Transfer.

Terre Haute, Ind., June 3.—The Southern Indiana Express company, operating over the Southern Indiana railroad, secured an injunction against the American Express company Saturday, compelling the company to accept transfer packages.

Left His Family a Letter.

Evansville, Ind., June 3.—Brooding over the formation of trusts and fear that he would be left penniless led William Brown, a brick mason, aged 53, to kill himself Saturday by a dose of morphine. He left a long letter to his family.

Would Burnish the Cards.

Portland, Ind., June 3.—The Ministerial association has passed resolutions asking members of all churches to cease playing social games of cards.

St. Louis, Mo., June 3.—Guy Burnside, of Knoxville, Ills., won the Re-public cup at Dupont shooting park Saturday.

LABOR ASKS FOR PRAYER

Barefacedly Calls on a Religious Assembly for Help.

Chicago, June 3.—Prayer from the United Presbyterian assembly and from preachers of every religious denomination was requested for the success of the eight-hour work day by the Chicago Federation of Labor at a meeting here yesterday. The federation formulated a telegram to the synod, now in session at Pittsburg, and the secretary was ordered to send the message.

In this dispatch the synod was reminded that no scoring of labor unions for meeting on Sundays would be necessary if the hours of labor were shortened to the union standard of eight hours a day, and that the Chicago Labor assembly invited the synod and religious workers throughout the country to inaugurate a vigorous campaign of prayer for the success of the eight hour movement.

From the declarations of President Bowman and other speakers favoring the sending of the message it was apparent that it was intended as a bit of sarcasm to the synod for the criticisms recently uttered against union labor on the floor of the religious assembly. These criticisms were largely because of the secrecy of the meetings—secrecy being one of the pet aversions of the United Presbyterian church.

HANNA BELIEVES IT NOT

That Story That the President Would Have Lower Duties.

Cleveland, June 3.—Senator Hanna does not believe there are many Republican leaders who favor radical modification of the Dingley law at the next session of Congress, or, in fact, within several years. When asked what he thought of M. Siegfried's statement in a Montreal speech that President McKinley had told him he was no longer an ultra protectionist, "he replied:

"Of course I cannot assume to speak for the president, but you may say that I don't believe the president ever said anything of the kind to M. Siegfried or anybody else. Mr. Siegfried's statement must have been based on a misunderstanding."

His Views Are Too "Liberal."

Madison, Wis., June 3.—Rev. H. T. Colestock, pastor of the First Baptist church, has tendered his resignation to take effect not later than the last Sunday in August. The resignation will probably be acted on at the regular church meeting tomorrow, and there is little doubt of its acceptance. Rev. Colestock's views are too liberal to suit some of the older and more conservative members of the church.

Iowa Bank Statistics.

Des Moines, June 3.—The quarterly statement of 225 savings and 217 state banks in Iowa at the close of the business April 24 made to the auditor of state shows an increase of about \$14,000,000 in deposits since last December and an increase of over \$25,000,000 since June 30, 1900. The deposits now aggregate \$112,465,254. Ten years ago the deposits were about \$84,000,000, and in 1896 \$44,000,000.

Supposed To Be Owen's Body.

Saginaw, Mich., June 3.—Lewis Dubey, a fisherman, while returning from his nets in the bay found the body of a man floating in the water. The floated wore a life jacket and a heavy gold ring on his finger bore the initials "C. E." The body is supposed to be that of Edward Owen, wheelman on the ill-fated Baltimore.

Michigan Wins the Pennant.

Cincinnati, June 3.—The annual meet of the "Big Nine" colleges of the middle west was held Saturday for the first time under the auspices of the new intercollegiate conference athletic association, Michigan winning the pennant, 38 points; Wisconsin, second, 28; and Chicago, third, 17.

Minister Fees Petchadar.

Washington, June 3.—The state department has been informed that Phay Petchadar (pronounced "Pees Pet-chadar") has been appointed envoy extraordinary and minister plenipotentiary of Siam to the United States, and that the appointment to this post includes no other country.

Adopts the Kruger Idea.

Willemstad, Curacao, June 3.—President Castro, of Venezuela, has dismissed Senor Galvez, the attorney general, because of his opinion on the last judgment in the case of the New York and Bermudez Asphalt company.

Twenty Persons Burned to Death.

Chicago, June 3.—A dispatch to The Tribune from Oaxaca, Mex., says that in a great fire which raged on the isthmus of Tehuantepec for several days seventy people were burned to death. The fire burned ten days.

Senator Culom at Home.

Chicago, June 3.—United States Senator Culom has arrived in Chicago from Washington. He went at once to the Moraine hotel in Highland park, where he will make his residence for the summer.

King Drives Out with Draga.

Bograde, June 3.—Queen Draga and King Alexander drove out together yesterday for the first time in weeks, search and will probably give a military. They were cheered by sympathetic crowds.

Chancery's Troops at Nagasaki.

Washington, June 3.—The war department is informed by cable that General Chaffee with his troops on the transport Sumner have arrived at Nagasaki on the way to Manila.

Indiana Man Gets a Post.

Washington, June 3.—A. L. Wishard, United States attorney for the state of Indiana, has been appointed solicitor of the internal revenue bureau, vice G. M. Thomas, resigned.

Rockefeller's Latest Gift.

New York, June 3.—John D. Rockefeller has given \$200,000 to start the Rockefeller Institute for Medical Research and will probably give a million more.

Still More Delegates for Cummins.

Sioux City, Ia., June 3.—Buena Vista and Lyon counties Saturday chose Cummins delegations to the state Republican convention.

Illinois Man Wins the Cup.

St. Louis, Mo., June 3.—Guy Burnside, of Knoxville, Ills., won the Re-public cup at Dupont shooting park Saturday.

PETROLEUM AGAINST COAL

Texas Gushers May Make Trouble for the Bituminous People.

Pittsburg, Pa., June 3.—Pittsburg coal may have a competitor in Texas oil. This is made evident by the fact that the J. M. Gurney Petroleum company is negotiating at Cleveland with one of the largest vessel owners on the lakes for the purchase of two whaleback boats by which oil may be delivered at all lake points. The J. M. Gurney Petroleum company now has two pipe lines from its wells at Beaumont, Tex., to Port Arthur, sixteen miles away up Sabine Pass, where there is always sufficient water for the largest steamers.

The wells now flowing are producing over 100,000 barrels of oil a day. It is possible to load the tank steamers at Port Arthur with oil, send them around the gulf, the Atlantic ocean, the St. Lawrence river and the Welland canal, into the chain of great lakes, and deliver the oil in less than thirty days. It is estimated that for fuel purposes three and one-half barrels of oil are equal to a ton of the best Pittsburg coal.
