## AMALGAMATED ASSOCIATION

Its Convention Adjourns Since Die—Most Important Work Done.

Milwaukee, Wis., June 8.—The Amalgamated Association of Iron, Steel and Tin Workers' convention adjourned since die last evening after electing the following officers: President, T. J. Shaffer, Pittsburg; secretary-treasurer, John Williams, Pittsburg; vice-presidents—Fourth district, W. C. Davis, South Chicago; fifth district, Clem Jarvis, Anderson, Ind.; ninth district, John W. Quinn, Granite City, Ills. The next convention will be held in Wheeling, W. Va.

The most important work of the convention is considered to be the adoption of the so-called continuous scale plan. It is really not a continuous scale, but a continuation of the present method of annual wage settlement, with some amendments. The most important of these is the continuous operation of the mills while the scale is being considered in conference, and the extension of time within which an agreement must be arrived at.

The limit of time for settlement in force now is July 1, at which time, if no agreement is reached, the men walk out. The new plan extends the period of conference from three to eight weeks.

## SQUATTERS OWN THE LAND

Although the Illinois Steel Company Has Paid the Tax for Twenty-Five Years.

Milwaukee, June 8.—The claims of the Illinois Steel company to the ownership of thirty-three acres of land in Jones island, estimated to be worth at least \$1,000,000, were virtually denied yesterday by the jury in the case of that corporation against Alexander Rudzisz, which had been on trial in the circuit court for five weeks.

In spite of the fact that the company has paid taxes on the property for a quarter of a century, and was conceded to have a paper title, the jury decided that it could not eject the defendant, who is adjudged to have a paramount right to possession because he and the other settlers from whom he claims title had held open, exclusive and continuous possession of the property for more than the statutory period of twenty years.
