

JAPS ARE PUSHING ON

Advance Guard Occupies Sen-Cheng, the Russians Making No Opposition.

FIGHT HAD BEEN LOOKED FOR

But the Muscovite Seems To Be Withdrawing to the Yalu.

Marakoff Prepares to Give the Next Attack on Port Arthur Something Warm—Miscellaneous War Notes.

Tokio, April 4.—The advance guard of the Japanese army in northwestern Korea occupied the town of Sen-Cheng without opposition. Sen-Cheng is on the Peking road, eighteen miles west of Chong-Ju and about forty miles south of Wiju. When the Japanese drove the Russians out of Chong-Ju last Monday the Russians withdrew in two columns, one going over the Koak San road and the other

CAPTAIN REITZENSTEIN.

[Commander of Vladivostok squadron] over the Peking road. The Japanese advance from Chong-Ju was made very rapidly. It was anticipated that the Russians would resist this advance, but they failed to do so, and now it is not probable that there will be any further opposition south of the Yalu river.

Russians Falling Back to the Yalu. Chong-Ju, because of its superior natural surroundings, is the strongest place between Ping-Yang and Wiju. Besides these natural advantages there is an old Korean fort there, which had been defended with spirit, and which have been hard to take. The Japanese are gratified at the comparative ease with which they drove the Russians from this fort. Russian patrols are reported to be in the country east of the Peking road, but it is not probable that there is any considerable force of Russians in that section. The patrols are withdrawing gradually to the northward, toward the Yalu.

Kuropatkin's Plans Given Away. Faris, April 4.—The military attaché of one of the embassies says it is clearly part of General Kuropatkin's strategy to permit the Japanese to have a number of small victories in northern Korea so as to draw them northward toward Harbin. He adds: "These were the Russian tactics during the Turkish war, they permitting the Turks to win small skirmishes which drew them forward until the Russians were massed at Plevna. Several victories in northern Korea will stimulate the Japanese ambition that they will adopt the cry of 'On to Harbin,' which is exactly the point to which General Kuropatkin seeks to lure them."

FORT ARTHUR READY FOR TROUBLE

Japs to Get a Warm Reception Next Time—Russian Heroism.

Port Arthur, April 4.—Preparations have been made to give the Japanese a warm reception in case they again attempt to block the harbor.

A signal man named Andronenko, who during the bombardment of Vladivostok remained at a small signal station on Askold Island near the enemy's ships, and wired information of the movements of the enemy to the fortress, has been decorated with the cross of St. George.

St. Petersburg, April 4.—The Novik Kral, of Port Arthur, thus describes the scene on board the cruiser Bayan during the recent bombardment in which she distinguished herself: "Bursting shells bowled over man after man until the decks were slippery with blood. Amidst this hell the captain stood unmoved in the conning tower, calmly telephoning his orders to the gun captains. His wonderful calmness had a marvelous influence upon all the officers."

The cockpit was soon crowded, thirty-nine men being taken there before the fight ended; but amidst the crash of the guns, the hiss of flying projectiles, the thunder of explosions, the racket of splinters, and the din of the working engines the surgeons labored over the sick as at the hospital operating table. Although some of the men suffered frightful agony there were few groans, in spite of the fact that anesthetics were administered in only one case.

When the battle ended and the enemy began to draw off the officers on the bridge cheered, and the cheering extended down into the hold, the sailors, and even the wounded, joining in it."

CHICAGO SPECIAL IS STOPPED

He Ran Up Against the Russians at New Chwang and There He Is.

Chicago, April 4.—The Evening News has a cable from New Chwang from Richard H. Little, its staff correspondent, telling the paper that when his boat reached New Chwang it was boarded by Russian officers, who arrested the Japanese servants and held the boat, putting Little and his correspondent Washington, who was with him, and also the crew, under arrest.

The Associated Press dispatch relating the matter says that only the Japs were arrested, and would probably be kept under arrest, and that the crew and staff of the boat were under surveillance, with orders to leave the first favorable tide. The appearance of the correspondents in a part of Manchuria controlled by the Russians bringing with them Japanese servants is characterized by the Associated Press dispatch as an "indiscretion" likely to be interpreted "as indicating co-operation with interests inimical to Russia."

The press boat was released yesterday by order of General Kuropatkin. The Fawan (name of the press boat) was detained because she had passed between lines, having come in directly from Chong-Ju. She was released on condition that she leave port. Her release was brought about wholly by the confidence of the Russian authorities.

HE HAS NO KICK COMING

Russian Captain Speaks of the Much-Mooted Chemulpo Incident.

Odesa, April 4.—Before proceeding for Sebastopol with the survivors of the wrecked Russian war vessels Varang and Korietz, Captain Stepanoff made a statement to the Associated Press regarding the United States gunboat Vicksburg incident at Chemulpo. He said:

"All the time the Vicksburg was stationed at Chemulpo, her captain held aloof. He took no part in the conference of protest preceding the fight for the simple reason that he was not invited to do so. After the fight, like the others, he sent a surgeon with a boat to the rescue. As regards his not taking Russian men aboard the Vicksburg, this was unnecessary, and it is more than probable that Captain Rudinoff (commanding the Varang) did not ask it."

Some Japanese Armies Reported.

London, April 4.—The Daily Telegraph's Shanghai correspondent gives an unconfirmed report that a Japanese army of 105,000 men has landed opposite Taku-Shan, in southern Manchuria, and is marching north and northwest; that another army of 40,000 has landed in northwestern Korea, and is marching toward the Yalu river, and that a third force has disembarked in northeastern Korea and is marching westward.

More Japs Land at Chemulpo.

Seoul, Korea, April 4.—Five Japanese transports, carrying light artillery, cavalry and infantry, have arrived at Chemulpo. The men are en-training for Seoul. General Haraguchi, the newly appointed commander of the Japanese forces here, has arrived.

Heroes at Sebastopol.

Sebastopol, April 4.—The survivors of the Varang and Korietz, which vessels were destroyed in Chemulpo harbor, have arrived here and received ovations enthusiastic as those with which they were greeted at Odesa.

Important to Russia If True.

St. Petersburg, April 4.—A correspondent of the Associated Press at Port Arthur telegraphs as follows: "Deposits of coal similar to that of Cardiff, Wales, have been found in the vicinity of Port Arthur."

Reports of Skirmishing.

London, April 4.—Reports of further skirmishing between the Russians and Japanese in the Yalu river region are reaching London, but no reliable details are given.

Retirement of Mail Clerks.

Washington, April 4.—Postmaster General Payne has transmitted to the house a number of petitions from railway mail clerks giving their preference on the matter of a retirement plan. Two schemes are favored. The first appointment as third or fourth-class postmasters on retirement from the railway service, and the second retirement on a pension to be provided by an assessment on railway mail clerks.

'Longshoremen and Dock Managers.

Cleveland, April 4.—The result of the first week's conference between the longshoremen's representatives and the dock managers is that all minor matters have been agreed to. The principal matter in dispute now is the insistence of the longshoremen for a shorter work day and to gain this they are understood to be willing to even suffer a reduction in wages.

BLOODSHED NARROWLY AVERTED

Mob of Steel Works' Men Objects to Non-Union Outsiders Working in the Mills.

Hammond, Ind., April 5.—Bloodshed was narrowly averted at the Republic Iron and Steel works, when Frank Chambers, a watchman, and Superintendent Crance advanced, with drawn revolvers, upon a crowd of striking laborers who forced the officials to retreat amidst a hail of beer bottles, clubs and scrap iron.

A riot call was telegraphed to this city and officers were sent to the scene of the disturbance. When they arrived the mob had dispersed. Two thousand men quit work and the walk-out followed an attempt of the company to import non-union laborers.

New Albany, Ind., April 5.—The carpenters and painters of this city struck and building operations have been suspended. The contractors insisted that the working day should be from 7 to 5 o'clock, while the men demanded that the working day should end at 4 o'clock. About 200 men are affected.

Ex-Bank Officials Arrested.

Port Wayne, Ind., April 5.—Albert Robbins, president, and Edward L. Robbins, cashier, of the late defunct Farmers' bank at Auburn, have been arrested in that city on warrants charging them with embezzlement. Complaint was filed by men who had deposited in the bank but a few days previous to the closing of the institution. The Messrs. Robbins were held to the DeKalb circuit court in the sum of \$3,000 each, which was furnished.

Prisoners Taken to Indiana Mills.

Indianapolis, April 5.—The sign point to the indictment of General Nelson A. Miles for president by the Indiana prohibition convention, which began this morning. The county convention is in LaGrange and Pulaski counties, recently indicted Miles.

A Spring Blessing for all mankind.

There's nothing like Hollister's Rocky Mountain Tea does. 35 cents, tea or tablet form. People's Drug Store.

SCALE WORK IS SLOW

Miners at Terre Haute Hope That the Settlement Is Close at Hand.

BRAZIL MEETING TAKES RECESS

To Await the Decision of the Hoist-Engineers—Porch Climber's Loot—State News.

Terre Haute, Ind., April 4.—After two days spent in an ineffectual attempt to reach an agreement the convention of miners and operators turned the matter over to a sub-committee on scale and adjourned. Speaking of the situation President John Boyle said: "Nothing whatever has been accomplished so far and the committee has spent the time discussing the various points. It is hard to tell now whether any changes will be made by either side." It is the opinion of both the miners and operators that a settlement will be reached early next week.

Miners Install Officers and Celebrate.

The new officers of the mine workers have been installed, President Hargrave retiring in favor of Vice President Boyle, who is now head of the organization in this district, his former place being filled by Phillip Walters, of Hymer. The miners have also celebrated the anniversary of the eight-hour day. Meetings were held in several places over the district. At Clinton the national board member, George Purcell, of Terre Haute, delivered an address to the miners.

Men Hopeful of an Agreement.

The convention of operators and miners reconvened Saturday to hear the report of the joint scale committee, which reported that it had not reached an agreement and the convention adjourned until today, the miners believing that an agreement would be reached before the convention reconvenes.

Engineers to Take a Vote.

Brazil, Ind., April 4.—At a meeting of the officers of the Coal Hoisting Engineers' association and the leaders of the block coal miners it was decided that the question as to whether or not the engineers shall join the United Mine Workers shall be submitted to a vote of the engineers, which will be taken Wednesday. The operators and miners will not meet again until after the vote is taken.

LOOTED BY A PORCH CLIMBER

Bank President's Home Robbed of Jewelry Valued at More Than \$10,000, at Indianapolis.

Indianapolis, April 4.—The biggest diamond and jewelry robbery ever perpetrated in Indianapolis was effected at the residence of Medford B. Wilson, president of the Columbia National bank. A low estimate of the value of jewelry taken is \$10,000. The family was at dinner at the time. There was a noise at the side porch and Mrs. Wilson turned on an electric light that lights the porch chandelier just in time to see a negro jump from the roof of the porch to the ground below.

The lawn and grounds had been thoroughly mowed, so that the burglar sank above his shoe tops into it. The alarm was sounded, but the negro extricated himself from the lawn and ran down Delaware street, pursued by two servants. The burglar, however, escaped. The jewelry comprised two diamond set watches which were purchased in Europe and were valued at \$1,000 each. Diamond brooches, rings, silver pins and cuff buttons were also taken.

Two Deaths Near Vincennes.

Vincennes, Ind., April 4.—The first deaths near here as a result of the flood have occurred, the victims being Mrs. Alice Christy, who lived south of the city, and Jacob Kellum, an old soldier, who lived in the same neighborhood. Mrs. Christy was ill when the backwater reached her home and she contracted pneumonia. Kellum was blind and his home was surrounded by fifteen feet of water. He died in a small room which he built on top of his home when the waters began to rise.

Flood Situation Improved.

Indianapolis, April 4.—The flood situation throughout Indiana has improved considerably. Dispatches from all towns menaced by the high waters indicate that there is no danger of further damage. A dispatch from Evansville says that the rivers will probably be back in their natural channels by Saturday.

Mortgage on a Railway.

Lafayette, Ind., April 4.—A mortgage for \$7,500,000 on the property of the Fort Wayne and Wabash Valley Railroad company has been filed here by the National American Trust company, of Philadelphia. The mortgage was given to secure the issue of bonds.

Young Wife's Husband a Scoundrel.

Indianapolis, April 4.—Walter Westlake, who with his young wife had been living for several days at a hotel here, has been arrested on a charge of having passed worthless checks, drawn on a Salt Lake City bank.

Found Dead in His Office.

Terre Haute, Ind., April 4.—Nicholas Dodson, traveling auditor of the Vandallia railroad, was found dead in his office at the Union depot. It is thought that death resulted from an internal hemorrhage.

Discharge Turned Away His Head.

Richmond, Ind., April 5.—William Morgan, a farmer near Centerville, committed suicide, using a shotgun, the discharge tearing away his head. He was 46 years old, and owned a farm of sixty acres in Center township. He was well-to-do, and stood well with his neighbors.

A spring blessing for all mankind.

There's nothing like Hollister's Rocky Mountain Tea does. 35 cents, tea or tablet form. People's Drug Store.

GIANTS TO GO TO WAR

Their Field of Battle To Be a Court, and the Price, Railway Stocks.

HARRIMAN IS AGAINST MORGAN

With Other Other Big Guns of the Financial World in the Struggle.

St. Paul, April 4.—None of the attorneys for the defendants in the suit of E. H. Harriman and Winslow Pierce and the Oregon Short-Line Railway company against the Northern Securities company, notice of which was served Saturday, would make any extended statement with reference thereto. It was admitted, however, that the suit was a step in the struggle for control of the Northern Pacific Railway company which is being waged between E. H. Harriman and allied interests and James J. Hill, J. P. Morgan and others.

Surprised, Though Expecting Something.

That some step was anticipated the attorneys seen admitted, but each stated that the filing of the petition on Saturday came as a surprise, and that he would be unable to state what course would be pursued until the principals had been consulted. The citation in the suit is directed to the Northern Securities company, the Northern Pacific Railway company, the Great Northern Railway company, James J. Hill, J. P. Morgan and others, and gives notice that on April 12 Harriman, Pierce and the Oregon Short-Line Railway company will apply to the judges of the United States circuit court for leave to file a petition of intervention in the suit of the United States against the same defendants, with reference to the execution of the final decree of the court which was filed April 9, 1903.

Resurrection of an Old Fight.

The action taken by the Harriman interests to compel the Securities company to return to the original holders the Northern Pacific shares exchanged for Northern Securities company stock, instead of the proposed division of Northern Pacific and Great Northern stock. The Harriman interests prior to the formation of the Securities company held a controlling interest in Northern Pacific stock, the struggle for which culminated in the memorable 9th of May panic on the New York Stock Exchange.

Substance of the Petition.

The petitioners ask the court to intervene in the suit of the United States against the Northern Securities company. The purpose of the intervention is to have the decree of the court modified and to have the court direct that the Northern Securities company shall deliver in exchange for its shares the stock of the Northern Pacific that it acquired, and to prevent a rateable distribution of the Great Northern and Northern Pacific stock among the shareholders as was planned by the directors of the Northern Securities company.

Just a Friendly Contest.

New York, April 4.—At a recent conference in the office of J. P. Morgan & Co., it is said, there was a practical and friendly agreement by representatives of the Harriman-Beckwith interests on the one side and the Hill-Morgan interests on the other side to have the court decide the plan of distributing the securities held by the Northern Securities company.

SOME BEET SUGAR TALK

Report That a Fight for Control in Wisconsin Will Be a Sugar Factory Boom.

Milwaukee, April 4.—A Sentinel special from Eau Claire, Wis., says: The announcement of the incorporation of the Eau Claire Sugar company is believed to mean a fight between two big companies for control of the beet sugar industry of the state, a feature of which will be the building of four or five big beet sugar factories at a total cost of about \$4,000,000.

These factories will probably be located at Janesville, Eau Claire, Chippewa Falls, Madison and Fond du Lac, and will cost in the neighborhood of \$1,000,000 each. The Janesville and Eau Claire plants are said to be assured, and will be built by the so-called Davidson interests. The other plants, it is said, will be built by the Wisconsin Sugar company.

New York To Be for Parker.

Albany, N. Y., April 4.—From a source very close to ex-Senator Hill that it may be understood as representing Hill's own views it is learned that it is intended that the New York state delegation to the convention at St. Louis shall be positively instructed in favor of Judge Alton B. Parker.

Oldest Traveling Man Dying.

Racine, Wis., April 4.—Delos S. Mills, the oldest traveling man in the United States, is dying. He was on the road for fifty-seven years and is 80 years old. He is one of the oldest Free Masons in the state.

Peril Past at Celina.

Celina, O., April 4.—There is no further apprehension of either the east or the west bank of Lake Mercer breaking its banks unless another heavy rain comes in the near future.

Pay-Gets Down State.

Washington, April 4.—Postmaster General Payne's condition has improved sufficiently to permit him to come downstairs.

Receding Waters Disclose a Corpse.

Delaware, O., April 4.—The receding waters here have disclosed the body of Shadrock Westbrook, a prominent farmer of Ashley who has been missing since March 17, on which date he was purchased a farm, paying cash therefor and having a considerable sum of money in his possession after the transaction.

Kaiser's Health Is All Right.

Berlin, April 4.—The North German Gazette, a government organ, denies the rumors printed in London and circulated in the United States that the health of Emperor William is such that it gives occasion for concern.

IN THE FLOOD REGIONS

Some of Them, the Situation Has Not Greatly Improved, Is the Report.

WATER IS GENERALLY FALLING

Services in an Isolated Church—Adventure of the Gunboat Family—Inundation Notes.

Vincennes, Ind., April 5.—True flood is at a standstill, but the situation here has not improved. High winds have been blowing for twenty-four hours and have still further weakened the levees. More men are working on them than ever before. Breaks are constantly occurring. The water in the river is three feet higher than in the fields. Easter services were held at St. Thomas' church, though it is surrounded by water. Ferry boats and skiffs were used by the congregation and clergy. One boat upset with five women. All were rescued.

Gave Alarm with a Bell.

The house of James Gunious, with Mrs. Gunious and two daughters inside, was swept away Sunday. The house finally lodged against a dinner bell pole. One of the girls seized the rope and sounded an alarm. A rescuing party took the occupants of the house to a place of safety. They had been without provisions for three days. It is believed that A. A. Cunningham and William Lockman have been drowned. They have not been heard from since Friday, when they started upstream to look after some live stock.

Found in a Dying Condition.

Frederick, of Decker, was found in a dying condition among the drifting logs near Decker.

Imprisoned in Their Homes.

Evansville, Ind., April 5.—All the streams in southern Indiana will probably be back in their channels by the last of the week. As the water is receding slowly the farmers have abandoned all hopes of saving their wheat crop, and the wheat ground will be plowed up and planted in corn. There are many people living in White river bottoms in the second story of their houses, and cannot be reached by the boats. They must remain there until the backwater recedes. The estimate of the property and crop losses along the Wabash and White rivers is \$400,000.

Still Damp at Indianapolis.

Indianapolis, April 5.—Although White river has fallen the larger part of West Indianapolis is still under water from six inches to five feet deep. The Standard Wheel works and the Indianapolis handle company, employing 600 men, having closed down on account of the water which seeps through the levees. Part of the machinery of the waterworks has been started. Cannelton, a suburb, is still under water.

Lost in the Flood, Probably.

Portland, Ind., April 5.—Wyle Brice, and Henry Redman and their wives have been missing since last Thursday, when they were compelled to abandon their homes on account of the high water. It is believed that they were drowned by the capsizing of their boat.

Good Words for Parks.

Hon. John W. Parks, of Plymouth, has been nominated for senator by the republicans of Marshall and Kosciusko counties, which indicates that his services in the last legislature are highly appreciated by his constituents. According to precedent the nomination this year should have gone to Kosciusko county, and Mr. Parks refused to be considered a candidate for a second term until fully persuaded that his renomination was desired by a majority of his party in both counties. Mr. Parks is known as a thoroughly conscientious legislator. He was author of the anti-cigarette bill in the last legislature, which was throttled through the machinations of Senator Will Woods, of Lafayette, tool of the cigarette trust and chairman of the senate committee on public morals.—Indianapolis Independent.

When a woman gives up it is because she has gone to the utmost limit of strength and endurance. It is a marvelous thing when a woman gives up under the daily household burdens when the whole body is racked with pain.

For the nervous, run-down condition which so many women experience, as a result of overstrain in household cares, there is no medicine can equal Dr. Pierce's Golden Medical Discovery. It strengthens the weak stomach by curing diseases of the organs of digestion and nutrition. It purifies the blood of poisons which cause rheumatism and other painful diseases. It nourishes the nerves, and builds up the body with sound, healthy flesh.

There is no alcohol in "Golden Medical Discovery" and it is entirely free from opium, cocaine and all other narcotics. Accept no substitute for the "Discovery." There is nothing "just as good" for weakness, nervousness and debility.

"I want the whole world to know what Dr. Pierce's medicine has done for me," writes Mrs. Helen Hargrove, of Bangs, Knox Co., Mo. "I had many of the ills of woman's life. My lungs and throat troubled me badly, and I had rheumatism. About a year ago I had to give up work I was so bad. I had heard so much about your medicine I thought I would try it. I took four bottles of your 'Golden Medical Discovery' and Pills, and by the time I had taken half of the first bottle I began to gain, and kept on getting better. And now I have no more of my old ailments and am entirely cured of rheumatism. I feel like a new woman."

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamp. Address Dr. R. V. Pierce, Buffalo, N. Y.

SAVED BY

F. MILK'S EMULSION

CURES LIKE MAGIC

Saved the person who gave this testimonial and will save you if you give it a trial. Milk's Emulsion is positively Guaranteed to Cure

Chronic Stomach Trouble, Constipation, Indigestion, Dyspepsia, Asthma, Bronchitis, Colds, Coughs, Croup, Catarrh of the Throat, Stomach and Bowels, Lung Trouble and Gastritis.

It is especially beneficial in the case of children, such as Summer Complaint, Cholera Infantum and many of run down systems. Thousands of people have been cured of the above complaints in a few months. We have not space for all their testimonials, but if you will write us we will be pleased to forward same to you.

Read this Testimonial

Which comes from the heart of one benefited by this remedy:

The Milk's Emulsion Co., Terre Haute, Ind.: Gentlemen—As I often tell my friends, Milk's Emulsion saved my life. And I feel that the least I can do would be to continue such strong evidence as I can offer to my acquaintance, and to give it to you for publication if you see fit. In the winter of 1901 and 1902 I suffered a severe attack of pleurisy. Being manager of a large retail shoe store in Dayton, O., at that time, I found it impossible to remain away from the store long enough to receive proper medical attention. This resulted in my being compelled to give up my position in the spring. After a rest, I came to Terre Haute and accepted a position with the J. B. Walsh Shoe Co. My old trouble soon returned, and after a great deal of doctoring, the physicians here advised an operation, and, upon opening my side, they removed one quart of water and pus, which was due, the doctors said, to a neglected case of pleurisy. After the first operation my health continued to fail, until I was an object of scorn to all my friends. It reduced me from a strong athlete of one hundred and eighty pounds to one hundred and thirty-six pounds. Physicians told me I had lung trouble and in order to save my life I must leave this climate and go to Colorado. By this time I hadn't strength enough left to make the trip home alive. After a few days' rest at home, my father took me to a noted specialist at Cincinnati, where I was again operated on and received treatment, but was finally compelled to return home without being benefited. By this time I was thoroughly discouraged and ready to give up all hope, having undergone four operations with the knife, in that many months. About that time, however, Miss Kathryn Roach, 121 South Fifth street, Terre Haute, Ind., sent me a package containing a box of Milk's Emulsion, which she had been highly recommended to her by friends in Terre Haute. After using the first box, I felt greatly benefited and wrote Miss Roach to send me two more boxes by mail at once. By the time I had used the three boxes of Milk's Emulsion I felt strong enough to leave for Terre Haute, where I arrived about September 1, 1902. I continued to use your Emulsion and improved so rapidly that it was only a short time until I was able to return to my duties with the J. B. Walsh Shoe Co. I have not undergone any more operations and my lungs and entire system are as strong as ever. I feel that my duty to suffering humanity to explain what a golden Milk's Emulsion has been to me. No man can appreciate my feelings for this truly wonderful remedy unless he has at some time been able to turn back from the very brink of the grave.

Wishing you the success you so richly deserve, I remain, Sincerely yours, JOHN C. SCHNEIDER, with the J. B. Walsh Shoe Co., Terre Haute, Ind.

January 24, 1903.

Money refunded by your druggist if the first bottle used does not bring results.
