D. MOTT'S
CHALYBEATE
RESTORATIVE
PILLS OF IRON

And aperient and Stomachic preparation of
IRON purified by combustion in Hydrogen.—
Sanctioned by the highest Medical authorities,
both in Europe and the United States, and pre-
scribed in their practice.

The experiences of thousands daily prove that
no preparation of iron can be compared with it.—
Inquiries of the blood, depression of vital energy
pale and otherwise sickly complexions indicate its
necessity in almost every conceivable case.

Innoxious in all malades in which it has been
tried, it has proved absolutely curative in each of
the following complaints, viz:

In debility, nervous affections, emaciation, dys-
pepsia, constipation, diarrhoea, dysentery, incipient
consumption, scrofulous Tuberculosis, Salt
Rheum, menses irregular, whites, chlorosis, liver
complaints, chronic headaches, rheumatism, in-
termittent fevers, pimples on the face, &c.

In cases of general debility, whether the result
of acute disease, or of the continued diminution of
nervous and muscular energy from chronic com-
plaints, one trial of this restorative has proved
successful which no description or attestation would
render credible. Invalids so long bed-ridden so
long as to have become forgotten in their own
neighborhoods, have suddenly reappeared in the
busy world as if just returned from protracted travel
in a distant land. Some very signal instances of
this kind are attested of female sufferers, emacia-
ted victims of apparent anorexia, sanguine ex-
haustion, critical changes, and that complication
of nervous and dyspeptic aversion to air and exer-
cise for which the physicians have no name.

In Nervous Affections of all kinds, and for reason-
one familiar to medical men, the operation of this
preparation of iron must necessarily be salutary,
for, unlike the old oxides, it is vigorously tonic,
without being exciting and over-heating, and gently
regularly specific, even in the most obstinate cases
of costiveness without ever being a gastric purga-
tive, or inflicting a disagreeable sensation.

It is this latter property among others which
makes it so remarkably effective for Piles, upon
which it also appears to exert a distinct and specif-
ic action, by dispersing the local tendency which
forms them.

In Dyspepsia, innumerable as its causes, a
single box of these Chalybeate Pills has often suf-
ficed for the most habitual cases, including the at-
tendant costiveness.

In unchecked Diarrhoea, even when advanced
to dysentery, confirmed, emaciating, and appar-
ently malignant, the effects have been equally de-
cisive and astonishing.

In the local pains, loss of flesh and strength, de-
bilitating cough and remittent hectic, which gen-
erally indicate incipient consumption, this remedy
has allayed the alarm of friends and physicians, in
several very gratifying and interesting instances.

In Scrofulous Tuberculosis, this medicated iron
has had far more than the good effect of the most
cautiously balanced preparations of iodine, without
any of their well known liabilities.

The attention of females cannot be too confi-
dently directed to this remedy and restorative, in
the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory
—in the latter, however, more decidedly—it has
been invariably well reported, both as alleviating
pain and reducing the swellings and stiffness of the
joints and muscles.

In Intermittent Fevers it must be a great re-
medy and energetic restorative, and its progress in the
new settlement of the West, will probably be one
of high renown and usefulness.

No remedy has ever been discovered in the
whole history of medicine which exerts such prompt
happy, and fully restorative effects. Good appet-
ite, complete digestion, rapid acquisition of
strength, with an unusual disposition for active and
cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50
pills, price 50 cents per box; for sale by druggists
and dealers. Will be sent free to any address on
receipt of the price. All letters, orders, etc., should
be addressed to
