

FIRST PREMIUM COOK STOVE.

This stove took the First Premium over all other Cook Stoves at the State Fair, held at Rochester, on the 1st day of October, 1862.

Also at the New York State Fair of 1863.

ECONOMY IS WEALTH.

This maxim will be fully demonstrated by buying an

AMERICAN HOT AIR**COOKING STOVE.**

As it will take, broil or roast better than any other Stove, with a saving of 25 per cent. in fuel, and a very large percentage in convenience.

They are constructed with a view of great durability; all the plates exposed to the fire are made of an extra thickness.

21. The flues are lined with non-conducting material, thereby applying the heat directly to the oven, and the oven can be heated and kept in king order with less fuel than any other Stove.

22. They have a hot air draft, which not only makes the fuel burn freely, and last longer, but also to the heating and baking facilities.

23. They consume all the gases from the fuel, thereby adding largely to the amount of heat obtained from the quality of fuel used.

24. The Stove is made, mounted and finished in the most superior manner. The oven is large and well ventilated. The Stove is convenient in form, and made for use; to adopt the language of one who has used this Stove, "it will do more work with less fuel than any other Stove." In proof we add the following testimony:

From the Auburn Advertiser.

AMERICAN HOT AIR COOKING STOVE.
—Our readers have noticed an advertisement in our columns of the American Hot Air Cooking Stove, manufactured by Shear, Packard & Co., Albany, N. Y. This Stove took the First Premium at the late State Fair, and a gold medal at the County Fair. It is worthy of the high compliment thus paid it. We have used the Stove for three months past, and have no hesitation in pronouncing it the best Cook Stove we have any knowledge of. It seems to be perfect in every respect. We guarantee that it will give good satisfaction to any family who purchase it. Baldwin & Chodell have it for sale.

MR. STOCKWELL—My Dear Sir: In reply to your inquiry as to the practical working of the "American Cooking Stove," which you sent up for us, Mrs. W. authorizes me to say, that in the matter of baking, which is the great desideratum in a Cook Stove, the American is perfect, baking evenly whatever part of the oven the article is placed, and requiring no turning of the pans to insure an equal heat on all sides. She pronounces it the most economical in fuel, and the most easily regulated of any she has ever seen.

Bridgeport, April 21st, 1863. J. M. WILLEY
Framingham, Conn., April 17th, 1863.

MR. GEO. P. STOCKWELL—Dear Sir: Last December we purchased from you the "American Hot Air Cooking Stove." We have seen nothing of the kind which is constructed on such sensible principles—insuring the thorough consumption of the fuel—obtaining the greatest amount of heat possible at a small expense, and so distributing it as to secure all the results for which a cooking Stove is required. We can safely say, it fully realizes all the expectations which we formed from the recommendations we had seen, and we can therefore honestly recommend it to any person in search of such an article, as combining economy and utility.
