ARTHUR'S HOME MAGAZINE.—The December number closes the year with a highly attractive number. THE CHILDREN'S HOUR, EDITED BY T. S. ARTHUR.—The December number completes the first year of this Magazine for the little ones, which has attained a degree of success rarely, if ever equaled by a periodical of its class in so short a time. The publishers in issuing the first number, said that it should be "as beautiful as the best typography and the best artists in the country could make it," and they have kept their word to the letter. As to the reading matter, it is universally conceded to have been unequalled in purity and interest.

For the new year, the publishers promise increased elegance and excellence, if that be possible. The number for January, 1898, they announce as a HOLIDAY NUMBER, and say that it will be the most beautiful number of a juvenile Magazine ever published. It will be ready by first December. As sample copies may be had for ten cents, every one who desires a good magazine for his children should send for a number and examine it. The Children's Hour is \$1.25 a year. Five copies are sent for 50 cts. Published by T. S. Arthur & Son, Philadelphia.

THE AMERICAN COOKING STOVE.
This stove has again been awarded two first premiums at the State Fair at Buffalo, one for cost and one for sale. We are now able to announce the unparalleled result of this stove having taken the first premium at the New York State Fair for the last 6 consecutive years, notwithstanding it has been brought in competition with all the best stoves made in the State, and many from other States, and notwithstanding its persistent, combined and determined efforts of its competitors to defeat it. And its success is not alone confined to this State. On the 19th of September it was awarded two first premiums in the New Jersey State Fair, and has also been awarded the first premium at the Pennsylvania State Fair, and has never been exhibited at a State Fair and failed to take the first premium, and the premiums it has taken at County Fairs are too numerous to mention. And these awards are fully endorsed by the people throughout the country. Its name has become a household word from Maine to California, and from the Great Lakes to the Gulf of Mexico, and the demand has become so large that notwithstanding our large and increased facilities for manufacturing, we are unable to supply the demand promptly.

It is seldom that a town the size of Bourbon is so well supplied with everything the people want to buy. The dry goods houses are full to overflowing from the eastern markets, and are selling at greatly reduced prices. The hardware stores are full of new goods; boots and shoes are in large supply and clothing is so plenty and cheap that it is a wonder everybody doesn't come here to buy. The grocery stores are well supplied with everything necessary for the comfort of every "well regulated family," and all in all if consumers have the requisite amount of stamps, their wants can be supplied here as well as any place in the north.

On Sunday last the remains of Mrs. Dale, who was murdered some time ago, were exhumed for the purpose of making some tests on the body by which it was understood the murderer would be detected in case he should be among those present. It was said that if the guilty party touched the corpse the blood on his fingers would accumulate in sufficient quantities to satisfy any one that there was "something in it." The tests proved—it proved anything—that none of those present were guilty, for no blood could be seen on their hands. It is natural enough for those who were near the scene of the murder on that day, to make use of every means in their power to show to the world that they are innocent of any complicity in the matter, but in raising the body after it has been so long dead for the purpose of proving the innocence or guilt of any one who was supposed to know anything in regard to the murder, by applying to the body the touch of the fingers, is going farther back into the days of witchery than the people at this day and age of the world are willing to go.

We have a lot of boys who are not generally enjoying themselves unless they are into some devilment. The other night they heard of the marriage of a young man, the son of a shoemaker, and as is their usual custom they proceeded to give the newly married couple an old fashioned "shivaree." Every kind of an instrument that would make a noise was brought into requisition; old tin pans, drums, files, shot guns, dry goods boxes to pound on, &c., &c., made noise enough to arouse the seven sleepers. It was a long time before the "man of the house" could be convinced that no wedding had taken place, and that their compliments were entirely premature. They were, however, finally induced to disband and go home without the usual "beverages" required on such occasions. The boys were wonderfully "sold," but they declare if the fellow is not married he ought to be!

The switch stand belonging to the rail road company, about which so much has been said, has been set farther east and out of the street. It would take but little now to open the street so that teams could pass over the track at that point, and it is hoped that our "city dads" will pass an ordinance to enforce an ordinance already passed to have it opened. They have been rather remiss of late in the ordinance line. Give us an ordinance by all means.

A horse belonging to Aaron Eller, near this place was stolen on Thursday morning. The thief was overhauled twelve miles north of Plymouth, and finding that he was about to be captured leaped from the horse and made his escape through the woods. The horse was caught and brought home.

The side walk at the end of the street, opposite the Rail Road House is a "regular nuisance." If it is anybody's business to fix it, it ought to be done at once.

School opened at the seminary on Monday morning. Dr. B. K. principal, assisted by Misses L. Cumberland and Lizzie McCoy.

Dr. Manville has gone to Galvesto n, Kosciusko County, where he intends to reside for the purpose of practicing medicine.
