

THE DEMOCRAT.

News About Home.

FAST horse in town.
THANKS to O. M. Packard for Dalles (Oregon) Papers.

MANY town folks are complaining of their cows being surreptitiously milked.

GREEN apples are plenty, at fifty cents a bushel.

ALL business houses belonging to the Jews in this place will be closed during the 6th and 7th inst.

WHEN was the Meddlesome Mullet-Head, alias "Man in the Moon," last week? He, She or It was doubtless busy with sacerdotal duties.

Mrs. Stowe's libel upon the memory of Lord Byron is denounced by every newspaper we have seen up to this time.

PROF. WILBUR will make his ninety-fifth ascension in his large balloon, the Mammoth Air Ship, Pacific, at the fair grounds, next Saturday afternoon. A treat for those who have never seen a balloon ascend.

We notice that two panes of costly glass have already been broken in a window of the new Lutheran Church—undoubtedly the willful work of some mischievous boys whose parents should convince them of the evil of their ways.

DR. CULBERTSON, the far-famed Oculist and Aurist, will be at the Parker House in Plymouth on Thursday and Friday of next week, September 9th and 10th, for the purpose of treating diseases of the eye and ear. Let no one think his case a hopeless one, but give the Doctor a call.

The Rochester Spy says that it was only in fun when it went for Jap. Packard and his flowing locks, and that Jap. is really a pretty good fellow. The occasion of this sudden change of heart was the receipt by the editor of \$25 from Packard to apply on subscription.

We should say that was rather cheap.

A loose paragraph, floating around among the newspapers, announces that it is no longer a secret of the chemist's laboratory that clear golden syrups can be made from starch and sulphuric acid; that delicious wines and brandies can be made from root beer; that a barrel of peanuts can be transformed into excellent corn; that rats can absorb an enormous quantity of water in certain conditions; that in fact there seems no limit to the adulterations which an intelligent and dishonest chemist can practice upon his fellow men.

SHAM ROBBERY.—We have the rumored particulars of a rumored sham robbery which is said to have occurred in this vicinity. Last Thursday a man requested Mr. B—— to take a check for six hundred dollars to the bank and get it cashed. This Mr. B—— kindly consented to do; but having obtained the cash, he proceeded to hide the full amount, together with his own watch and money, in the woods, and then reported that he had been robbed. His story was not credited, and a vigorous search was instituted, resulting in the discovery of the missing valuables—and the immediate disappearance of the robbed robber.

On last Tuesday and Wednesday evenings a squad of young squares gave entertainment at Corbin's Hall. The market exercise, as well as the bayonet and sword exercises, was exceedingly well performed, while the drumming was the best we ever heard. Colonel Young, who has the squad in charge, reports that he had a large number of these soldiers' orphans collected in New York City for the purpose of caring for and educating them, but that in consequence of the funds being insufficient to properly conduct the school he was obliged to find temporary homes for some of them, while with others he visits each town, receiving donations to enable him to again open the school. "Where, oh! where" are the G. A. R.'s?

EYE AND EAR.—Dr. Culbertson, Oculist and Aurist, will visit Plymouth at the Parker House, Thursday and Friday, September 9 and 10, Rochester, September 16 and 17, Logansport, September 16 and 17. He performs all the operations that are made upon the eye and ear. Cures Blindness and deafness; cures discharges from the ear in a short time; cures roaring and other unpleasant sounds in the head; cures all kinds of sore eyes, granulations he cures without caustic or pain; straightens Cross Eyes in a few seconds without pain. He also inserts artificial eyes without pain, that have the movements of the natural eye. All who need his aid should not fail to see him while in the city.

DIED.

On the 29th ult., infant daughter of Mr. and Mrs. W. W. HILL, aged five months.

In Chicago, Aug. 30th, 1869, W. W. HURLBUT, aged 42 years.

Mr. Hurlbut was, for a number of years, a citizen of this place, but on account of failing health he removed to Minnesota. His health was improved for a time, but his disease—which was one of the lungs—had obtained too deep a hold to be overcome, and after a little while he went into a decline from which he never rallied. Mr. Hurlbut was an upright, energetic business man, and by none will he be more sincerely mourned than by those who were formerly in his employ. He leaves a wife and little daughter to mourn his early death.

BUSINESS LOCALS.

BUCK & TOAN are now offering great inducements to those in need of anything in their line. See advertisement on second page.

PLYMOUTH LADIES' SCHOOL.—The fall term of this school will commence Aug. 26, and continue twelve weeks. Tuition the same as heretofore. To be held in the place previously occupied. For particulars consult

S. A. NICHOLS & L. C. KINNEY.

CLEAN YOUR WHEAT. Clean your Wheat.—Every farmer should have a good Fanning Mill. Dirty wheat is often saved, much improved and made fit for market by running through a good Fanning Mill. First class Mills for sale on one year's time by H. G. THAYER.

GRAND BALLOON ASCENSION.—While the big Balloon wings its way upwards, J. M. Dale & Co's. prices are coming down. Having just received a very large stock of dry goods which they are determined to sell at prices lower than ever before offered in Plymouth. Their stock embraces everything usually found in a first class store. Muslins as low as ten cents, Delaines fifteen cents, Poplins twenty-five cents, Gents Kid Gloves, seventy-five cents, all wool Cassimeres seventy-five cents, Hats, Caps, gents furnishing goods, etc., all of which will be sold at prices that defy competition. Call and be convinced.

Mr. S. BECKER of the well known and established house of S. & M. BECKER, is already in New York laying in his fall and winter stock of dry goods and clothing, which promises to be the largest that was ever brought to the town of Plymouth, and will compare favorably with any city stock. Their merchant tailoring department will be complete, all the newest designs of cloth and cassimers will be found there.

Prof. Cuno Selma will superintend the cutting, whose talent as a first class cutter is undeniable given them a call. Remember the place between H. B. DICKSON & BUCK & TOAN hardware store, Michigan st.

THE NEW BUCKEYES

Messrs. THOMAS & MAST, of Springfield, Ohio, the celebrated manufacturers of Grain Drills, are putting into market this season, Drills so much more simple and, in all respects, so much superior to any thing ever before offered to the farmer, that no one should purchase a Drill until he has seen these.

Wherever these new Drills have appeared, farmers are waiting to see their old Drills at a great reduction in order to become the owner of one of the new Drills.

There are no other Drills like them, and they are well adapted to the cultivation of Drills. See them in all the papers, and see them before you decide, for if you do not, you will regret it.

CLEVELAND & NICOLE.

20 We are also agents for the celebrated Kalamazoo three horse plows. Farmers call and examine the device, it is an implement worthy of your notice. Come one come all. Office five doors west of Providence store, LaPorte Street.
