William Vogeland of northeast of Kentland, had his arm caught in an "arm clipping" shredder last Tuesday, and amputation was necessary. George Tullis of Sheldon, had his arm so badly lacerated by a similar machine that it was necessary to amputate his arm also. He being the third victim of this same machine. It would seem more caution should be shown or else abandon the use of these "arm destroyers" entirely.—Remington Press.

A happy company of guests numbering about thirty, gathered at the beautiful home of Mr. and Mrs. W. S. Russell, two and one half miles west of town, Thursday evening, April 14, to witness the wedding of their eldest daughter.

At 8 o'clock to the strains of a wedding march, played by Miss Bonner, the bridal party entered the elegantly decorated parlors, the groom, Dr. S. C. Johnson, attended by Ernest Wishard, and the bride Miss Ruth Russell and her sister Della, advanced to the center of the room where the impressive ring ceremony was pronounced by the groom's father, Rev. R. W. Johnson of Weston, Ill. The bride's regal style of beauty was intensified by the simplicity of her white swiss costume, ornamented only with a fragrant bouquet of white roses.

After congratulations a very unique poem was read by Mr. Ernest Wishard of Rensselaer, much to the amusement of all present. Refreshments consisting of cake, ice cream and fruits were served. The bride is one of Remington's most charming belles, and the groom a prosperous young physician of Rensselaer. The Press extends congratulations.

LaPorte county is going to have a new town. It is yet in an embryonic state, but possibilities are before it, and a thriving community may develop. City Engineer Bruner, of La Porte, will go to La Crosse this week where he will be continuously engaged for about ten days in surveying and laying out the plat of a new town, the promoter of which is Richard Huncheon. The plans contemplate the laying out of a good sized town with streets, avenues, alleys and all the adjuncts, which go to constitute a city. Mr. Huncheon is the owner of immense tracts of land near LaCrosse. He has had a project of establishing a town in mind for several years and the result will be an attempt to locate industrial enterprises which will rapidly build up a town. A mammoth pickle industry has already been located by Chicago capitalists. A number of stores will be built at once and contracts have been awarded for the erection of dwellings. Capitalist are agitating the organization of a company to bore for gas and oil, surface indications being considered favorable.
