A lecturer at Rochester gives the following patriotic word pictures of Uncle Sam's domain: "The United States is the seat and foundation of liberty, and any man of whatever nationality who does not recognize it as being bounded on the north by the aurora borealis, on the east by the rising sun, and on the south by the equinoxes and on the west by the day of judgement, should return to his native land and stay there."

The post office authorities have advertised for carrying the mails between Rensselaer and Mt. Airy. Just why this primitive mode of mail carrying should be resorted to, for a town already situated on a line of railroad, is not apparent.—Remington Press.

The reason is very plain. Because it is because the "cow" path road is a great deal slower and more uncertain than the primitive mode of carrying the mails.

Commissioner Martindale circulated a paper Monday asking for subscriptions to purchase a new flag for the court house. The "big flag" is liable to be damaged by high winds and to valuable to be exposed in damp weather, and the one to be purchased is to be used on days when it is too damp or windy to use the big one. Our citizens showed their patriotism by liberal contributions.

The War Situation.

TROOPS ARE ASSEMBLING

125,000 Volunteer Soldiers Called For.

War Formally Declared and Fierce Battles May Occur at any Moment.

There is so much and yet so little to be said about the war situation that it is difficult to give a true synopsis of the case. Event after event and capture after capture has crowded so fast one upon another and the public interest is worked up that the generality of people has perhaps informed itself through the medium of the great dailies as the main situation, that there remains but the latest facts to be told.

The following is the list of Spanish prizes captured by American ships since the war began:

Date.	Prize.	Captain.
April 22—Str. Buena Ventura.	Cruiser Nash.	Vila.
April 22—Str. Pedro.	Cruiser New York.	Chalmers.
April 23—Fishing schooner.	Torpedo boat.	Krieger.
April 23—Schooner Mathilde.	Torpedo boat.	Porter.
April 23—Schooner Condalia.	Gunboat.	Wilmington.
April 24—Str. Catalina.	Cruiser Detroit.	Wilmington.
April 24—Str. Saturnia.	Revenue cutter.	Wilmington.
April 24—Schooner Antonio.	Torpedo boat.	Porter.
April 25—Str. Panama.	Lighthouse tender.	Manrove.
April 25—Sloop Paqueta.	Gunboat Newport.	Port.
April 25—Schooner Firenze.	Gunboat Newport.	Port.
April 27—Ambrose Bolyar.	Monitor Terror.	Port.

So far it is not positively known that any American boat has been captured by the Spaniards, but a recent dispatch from the Philippines islands via Spain's capital says that the Spanish gunboat El Cano has arrived in port with the American bark Saranac.

The dons from the Havana fortress have sent a few scattering shots at our blockading fleet which were not returned by the Americans. In the capture of several of the vessels several lively races took place, but after a few shots from our vessels the enemy always have surrendered without any blood being shed.

It is confidently expected that our fleet now in Philippine waters, will come in conflict with the Spanish gunboats in the very near future—perhaps before the end of the week. In the meantime the officials have been doing their utmost to get the army and navy into the very best shape possible.

A call has been issued by the President for 125,000 troops which have perhaps been more than raised by the present time. In response to the call the governors of the several states have called for the state militia to assemble and be reorganized ready for the field. The regular army is being increased from 27,000 to 61,000 troops, and the regulars are being rushed across the continent at the fastest speed possible to the old battle-fields at Chickamauga, which is now over-run by infantry, cavalry and artillery companies.

At Springfield, Ill., 10,000 state troops are assembled at the fair grounds, at Indianapolis a like number of Indiana guards are in camp, the same is the case all over the nation. A paper of the date of the 28th, says the only trouble is to discriminate who shall go to war, there being so many more applicants than places for men. If the President wanted an army of 1,000,000, instead of 125,000 he could get it just as easily.

It is very likely that no attack will be made on Havana until the army and insurgents are ready to co-operate with the squadron when the attack can be carried surely and swiftly to a successful finish.

It is also asserted that a fleet of Spanish gunboats are headed for America with the purpose of bombarding some of our least protected cities along the Atlantic coast.

It is very difficult, however to gain any positive knowledge on account of the great secrecy exercised on both sides.

THE LATEST.

The first actual fighting of this campaign occurred off the coast at Matanzas, at 12:57 p. m. Wednesday. The American ships New York, Puritan and Cincinnati opened fire on the forts at that place and it is supposed destroyed them. The object of this bombardment was to prevent the completion of the earthworks at that point. About 300 shots were fired from our battle-ships, and were responded to by a few shots from the forts, most of which fell short. No one was hurt on the American side but it is not known how many lives may have been lost on the shore among the Spaniards.

P. T. Banta the Ohio nursery man is looking after his interest here this week.

T. W. Muir of Monon will occupy the room now occupied by C. D. Nowels after May 1st. Mr. Muir will handle a full line of dry goods.

John C. Kaupke, trustee of Kankakee township, Jasper County and formerly of this county, was in town adn called at the Democrat Journal office Monday. Mr. Kaupke is one of the two democratic township trustees in that county, the remaining eleven all being republicans.—Winamac Journal.

The Independent Order of Foresters has purchased a part of the lodge furniture belonging to the G. A. R. and will now occupy the hall in the I. O. O. F building alone. Ever since the completion of that building the two Orders have occupied the same lodge room but by the removal of the G. A. R. in their new hall in the new court house the I. O. F. becomes the sole occupant. This order was organized five or six years ago and for some time had a struggle for existence but for two or three years past has been growing rapidly and promises to soon become one of the strongest secret orders in the city. G. W. Goff one of its members, is the High Chief Ranger of the Grand Lodge of the state, and many of our best and most substantial citizens are members of the order. One of the popular features of the order is the cheap insurance to its members.
