## I. D. &amp; C. R'y.

## FORMAL OPENING OF THE ROAD TO DELPHI, THURSDAY, SEPT. 4TH.

The following letters explain themselves:

DELPHI, IND., Aug. 25, 1879.  
A. McCoy, Esq., Rensselaer, Ind.

Dear Sir:—The committee on invitation take pleasure in inviting through you the town officials of your town to be present at a formal opening of the I. D. & C. R. R. at this city on the 4th of September prox.

Hoping this may be sufficient to enlist a large interest and full representation, I am respectfully yours,  
E. WALKER, Mayor.

DELPHI, IND., Aug. 27, 1879.  
To the Board of Trustees of the Town of Rensselaer, Indiana.

Gentlemen:—The committee of general arrangements for the celebration of the formal opening for business of the I. D. & C. R. R. on the 4th day of September, 1879, from Rensselaer to the city of Delphi, have directed me to extend to you, and through you to the citizens of your town, a cordial invitation to be present upon that occasion and join in the celebration of that long looked for event which we regard as being not only of importance to us alone, but to all citizens along the line, as the completion of this last division, now about to be celebrated, will add much to the more rapid construction of the contemplated route to Indianapolis and Chicago.

Please be kind enough to extend to your citizens generally a cordial invitation to be present on the occasion above referred to.

I am, gentlemen, with respect, your humble servant,  
J. T. RICHARDSON,  
Ch'n Com. Gen. Arrangements.

The Board of Trustees and other officials of our town have accepted the above kind invitations to be present at the formal opening of the I. D. & C. R'y to Delphi, and extend a cordial invitation to the citizens of Rensselaer and the county generally to join in the celebration of the important event.

## The Fatted Calf.

RENSSELAER, IND., Aug. 25, 1879.  
Dr. J. T. Richardson, Chairman of N. G. Rally.

Sir:—Four of our citizens hereby tender you, in honor of opening of the Narrow Gauge on Sept. 4th, one 1700 pound steer, that is finely formed, and only 28 months old. The tender is made by Mr. A. Parkison, Wm. Parkison, Alfred Thompson and myself.

Respectfully,  
A. McCoy.  
P. S.—We claim this to be the finest animal in Northern Indiana of the age.

DELPHI, IND., Aug. 27, '79.  
Alfred McCoy, A. Parkison, Wm. K. Parkison, Alfred Thompson, Rensselaer, Ind.

GENTLEMEN:—In behalf of the citizens of Delphi and Carroll county it affords me pleasure to acknowledge the receipt of your favor of yesterday. A calf less than two years old weighing 1,700 pounds will contribute much to the substantial part of the feast to be given here September 4th next, in celebrating the completion of the iron bands henceforth to bind together your city and ours. We shall appoint a committee, of which Col. Yeoman will be chairman, to visit your city, receive the calf, your generous contribution, and confer upon him the distinguished honor of being the first four-legged calf transported over the I. D. & C. Railroad from Rensselaer to Delphi. Upon his arrival here we shall further distinguish him by escorting him, with music, properly decorated, through the main streets of our city. This ceremony will occur upon the arrival of the train from your city at 4:30, Wednesday, Sept. 3, 1879.

You, as donors, and your citizens generally, are invited to be present upon the occasion. The whereabouts of the I. D. & C. Railroad here, for a long time, has been very uncertain; but now the prodigal son has returned to his home, and it is eminently fitting that your happy conception of killing the fatted calf in honor thereof, shall be put in execution; we shall proceed to do this, and cordially invite both you and your fellow citizens to join in the feast.

I am, gentlemen, with great respect, your most grateful servant,

J. T. RICHARDSON,  
Chairman Com. Gen. Arrangements.

The democrats of Ohio are badly demoralized. It is asserted on good authority that at a private meeting of prominent democratic politicians of that state it was decided to abandon the gubernatorial contest and concentrate all their efforts to carry the legislative ticket. There is no news talking; the democratic goose in Ohio is cooked.

## DELPHI'S JUBILEE.

September 4—the Day Designated.

Celebrating the Completion of the I. D. & C. to this City.

Delphi Times.  
The following letter will fall as a soothing balm upon the lacerated patience of the citizens of Delphi. For years we have worked, waited and dreamed for the event now definitely announced for next Thursday week. The shrill whistle of the "Rowland Hughes," reverberating through the Wabash bottoms, will be the sweetest music that has fallen upon the ears of the people for many years:

To the Mayor and Common Council of the City of Delphi:  
I have the honor of presenting the compliments of the Board of Directors of the I. D. & C. railway and their thanks to the citizens of the City of Delphi and Deer Creek and Tippecanoe townships for the honest and steadfast financial and moral support given by them to the enterprise, and also am instructed to inform, through you, the citizens of Delphi, Deer Creek and Tippecanoe townships, and other localities who have aided and fostered the enterprise, that the Board of Directors have ordered that the Delphi division of the road, between the city of Delphi and Monticello, be formally opened for business to the city of Delphi on the 4th of September, 1879, and am further directed by said board to co-operate with your honorable body and the citizens of Delphi in any programme that you and they may see proper to adopt for the celebration of this important event in the history of the city and Carroll county.

Very truly yours,  
S. N. YEOMAN,  
General Manager I. D. & C. R. R.  
Mayor Walker at once called a special meeting of the Council for Wednesday evening. Pursuant to the call, that body assembled at the Council Chamber, and, after a brief interchange of congratulations, adopted the following resolution by a unanimous vote:

Resolved, That the Mayor be instructed to call a mass meeting of the citizens of Delphi at the Court House on Thursday the 21st inst., at seven o'clock p. m., to take action on the communication of Col. S. N. Yeoman, General Manager of the Indianapolis, Delphi and Chicago railroad, relative to the opening of the division of the road, on the 4th of September, between the city of Delphi and Monticello.

On motion of Mr. Fisher, the Mayor was requested to have printed and circulated posters announcing the meeting.

So often has the Times congratulated the citizens of Delphi and Carroll county upon the progress of this road that anything further which we might say would almost of necessity be in the nature of repetition. As Colonel Yeoman truly says, the people of Delphi have given the enterprise honest and steadfast financial and moral support. So earnest and unwavering has been this support on the part of our citizens that the Indianapolis, Delphi and Chicago railroad has come to be considered distinctively a Delphi enterprise. Long and patiently have our people waited, earnestly have they labored, to secure the building of this road, and now, when it has been completed to our city, we may be excused for the indulgence in what might be termed a delirium of enthusiasm. We hope every citizen of the county will heartily endorse the action of the meeting last night, and by united effort, make the forthcoming celebration a jubilee to be remembered for years, and made a part of the history of our beautiful city.

## REMINGTON POT-POURRI.

[From our special correspondent.]

Not many Remingtonians took in the Niagara Falls excursion. About two were all I heard of.

As early as last Sunday the nine minute trotting horses began coming to the Fair Ground in squads.

Jim Tribby, who went to Denver, Col., last spring, has returned satisfied that "a rolling stone gathers no moss."

S. E. Morgan has sold his farm, three miles East of town and will devote his time to looking after town property.

John Bowman's Kansas team indulged in a little runaway on Tuesday. Beyond tearing up things a little no harm was done.

While taking a horseback ride last Friday Charley Peak had the misfortune to have his horse drop dead without any warning. The animal was purchased only the day before.

The business room now occupied by I. C. Kingsbury & Co. has been sold, S. M. Solomon being the purchaser. They will probably move into their new quarters in September.

We are soon to lose one of our prominent citizens. S. M. Black has made arrangements and will depart for Colorado next week. There are many who could be better spared.

"Charity" in last week's issue of the Reporter, his nail squarely on the head. In "Why people talk." These are Gates' sentiments exactly, and always have been, although he lacked the ability to express them in words.

As predicted before, the excellent crop of wheat raised this year has incited the farmers to make an attempt in the same direction for another crop. Should all be successful, judging by the number of acres to be sown, several thousand bushels of this grain will be shipped from this point, the surplus over and above, needed for the bread for the wheat growers.

Not every one who left for the promised land (Kansas) last spring, found the country flowing with milk and honey. If they did, that kind of provender failed to satisfy them. They are coming back one after another, the latest arrival being B. E. Coover, who arrived here with his family last Friday morning, and John Bowman on Saturday. They went, they saw, and they returned.

How the warehouse are going to manage to handle all the grain, should it mature as now promises, is an uninvolved problem. It is very likely that with good roads, they will be filled to overflowing most of the winter. This opinion is founded on the probability of the impossibility to procure cars, with which to move the vast crop of corn now growing in this jurisdiction. The company controlling the railroad through Remington, has always supplied our grain men with facilities for transportation when there was no call for cars at the same point where was a competing road, and it will doubtless pursue the same course in future. They know that they have this business safe and can take their own time for it.

The Fair opened auspiciously on Tuesday, the weather being very pleasant, albeit the roads were rather dusty. Of course there was not a very large attendance on the first day, most of the time being devoted to entering and getting in position articles for the exhibition. The walking match in the afternoon excited considerable interest and the participants came down to their work manfully. There were eight entries at first, but learning it was no use, four withdrew and the distance was cut down to seven miles instead of ten. Linfoot lost, Garrison 2nd, Loring 3rd. Shearer withdrew at the end of the 9th round (44 miles). Time of winner 56 min., 6 sec. The mule race flailed for the want of sufficient entries. Wednesday Floral hall was filled to its utmost capacity with a display, which for variety and excellence is seldom equalled. The marble works deserves special mention, consisting of monumental and statuary work of Vermont, Italian and Tennessee marble. More poultry was on exhibition than I ever saw at a fair. Hogs in large number and a good showing of cattle. This has always been noted for the number and excellence of horses and the reputation is fully sustained this year. As there are two more days yet, anything like a fair description is impossible. The weather remains all that can be desired and everything is working smoothly and universal satisfaction is apparent. Fast pacing and three minute trotting (Wed. morning) afternoon. This is undoubtedly the best Fair ever held here and the most largely attended. Hundreds are here from abroad.

## AN APPEAL FOR AID.

To the ex-Federal Soldiers:

Come!—During our present calamity of a yellow fever epidemic, we appeal to you, comrades, to extend to us a ready and helping hand. Our families are suffering, either languishing with fever, or starving for want of bread. We have formed our own relief association, known as the ex-Federal Relief Association, of Memphis. Every one of us applicants has had the yellow fever. Do you desire us to camp, aged and infirm, as the most of us are? Men who have fought on the plains of Mexico, we appeal to you. We do not endorse the way and manner in which charitable contributions sent to this blighted city are expended. Forward your contributions to our treasurer, Captain I. B. Sloan, 35th Iowa Vol., office, 42 North Court street, Memphis, Tennessee.

## DELPHI AND INDIANAPOLIS.

Two Townships in Clinton County Voted the Tax.

The Early Construction of the Lido and Amended Fact

Delphi Times.  
On Wednesday morning a dispatch was received by P. Lyle, President of the Delphi and Indianapolis railroad containing the gratifying intelligence that two townships in Clinton county had voted a tax in aid of the construction of the road. These two townships are Warren and Michigan.

The projectors of the enterprise have felt assured that they would carry the former; and they were equally certain that the opposition in the latter was too great to be overcome. The result is consequently an agreeable surprise. The managers think that after their success in Michigan township they will experience but little trouble throughout the line. The election in Burlington township; this county, takes place on Monday, September 1, and there is not a shadow of doubt that the tax will be voted. The prospects of the Delphi and Indianapolis railroad have assumed a rosy tinge which every citizen of Carroll county will hope may continue until the last rail is laid and the last spike driven.

HOW ADVERTISING WINS.  
The following from an exchange contains much truth and reveals the real secret of advertising. The average reader will readily recognize his own experience:  
The first time a man looks at an advertisement he does not see it.  
The second time he does not notice it.  
The third time he is dimly conscious of it.  
The fourth time, he faintly remembers having seen something of the kind before.  
The fifth time, he half reads it.  
The sixth time he turns up his nose at it.  
The seventh time he reads it all through and says "pshaw."  
The eighth time he ejaculates, "Here's that confounded old thing again."  
The ninth time, he wonders "if there is any thing in it."  
The tenth time he thinks it might be somebody else's case.  
The eleventh time he thinks he will ask his neighbor if he has tried it, or knows anything about it.  
The twelfth time he wonders how the advertiser can make it pay.  
The thirteenth time he begins to think it must be a good thing.  
The fourteenth time, he happens to think it is just what he wanted.  
The fifteenth time, he resolves to try it as soon as he can afford it.  
The sixteenth time, he examines the address carefully, and makes a memorandum of it.  
The seventeenth time, he feels tantalized to think he can hardly afford it.  
The eighteenth time, he is painfully reminded he much needs that particularly excellent article.  
The nineteenth time, he counts his money to see how much he would have left if he bought it; and  
The twentieth time he frantically rushes out in a fit of desperation, and buys it.

## INTERESTING TO MARRIED WOMEN.

A question of considerable interest to married women throughout the State is pending in the United States court, involving their rights in real estate owned by their husbands who have gone into bankruptcy, and held at the time of filing the petition. Until the law of 1875, a married woman was compelled to await the death before she could resolve her share in her real estate. As the law now stands she takes an undivided one-third of her real estate in fee simple immediately upon a "judicial sale" of her husband's interest being made, and may have partition as though he were dead. The question raised is whether the bankruptcy of the husband and the sale made by the assignees are a "judicial sale" within the meaning of the law. It has been held by Judge Elliot, of the Superior Court, that the sale of the real estate by the assignees is a judicial sale, and entitles a wife to partition. Under the bankrupt law a deed is executed by the judge or register in the court, of the bankrupt's property to the assignees. It is claimed that this alone entitles the wife to partition, and it is this particular question that is under consideration by Judge Graham. [Indianapolis Journalist.]

This may be a civilized country, but the mode of punishment now used in the Sing Sing prison, New York, must have been borrowed from the savages. The instrument used is a paddle two and a half to three feet long, shaped like an oar, and shaved thin, so as to be flexible. The blade is perforated with 25 to 30 holes at the end. The victim is stripped and fastened at the wrists and ankles in a stooping position, and is struck with the paddle with such force that the flesh is forced into the holes, and when the paddle is raised for another blow the section literally tears the flesh away, lacerating the back of the victim in a most horrible manner. No wonder that men who have been subjected to this terrible punishment once become perfectly reckless, and will die rather than submit to it a second time. [Warsaw Republican.]

If you want a paper that is in favor of more bonds, less currency, and an increase of the national debt, we advise you to subscribe for a radical Republican paper. It will be sure to endorse your principles. [Starke County Ledger. If you want a paper that is in favor of the shot-gun policy, states rights and the destruction of our present form of government, subscribe for one of the rampant democratic papers.
