Hon. Charles H. Test, of Monticello, is presiding over the Circuit Court now in session in this place. The Judge is hale and hearty, and we don't see that he appears older than he did ten years ago. His charge to the grand jury is spoken of by a gentleman who is competent to decide, as one of his best efforts, indicating a well-balanced mind, disciplined by education and toned by a clear perception of justice and equity. As a jurist, Judge Test stands among the first in the State.

Under an act of the last Legislature, each incorporated town is a separate road district, and is entitled to its proportion of the taxes collected for road purposes. This year the proportion due Rensselaer is \$220.76, of which perhaps two-thirds may be collected. This sum properly expended, together with from two to four days' labor which the law provides may be required of each voter under fifty, ought to make our principal streets good the year round.

Several of our Remington friends were over here on Tuesday, armed and equipped for catching pike, salmon, cat, bass, red-horse and dog-fish, which plentifully abound in the limpid waters of the meandering Iroquois; but their eyes were dim and their hands unsteady and only a few unsuspicious little fishes were taken by these tyro Nimrods of the water. Our native sportsmen were more successful and numbers of four, five and six pound pike and salmon rewarded their greater skill.

Dr. Fisk informs us that he has been recently employed by one of the largest publishing houses in New York to travel through the Bible lands, spending at least a year and a half in visiting all the towns, cities and sacred places; giving a minute account of their present condition, which is to be published in book form. Dr. Fisk will leave for Europe the last of August and will spend his time visiting the German states and in Italy (Rome) until next spring. He will then go up the Mediterranean to the Holy Land, and will spend at least a year in the countries mentioned in the Bible. Until the departure, Rensselaer will be his address.

Rain or shine, Mr. R. B. James will make a public sale next Wednesday, April 6th. It is the vital principle of the Pine Tree, obtained by a peculiar process in the distillation of the tar, by which its highest medicinal properties are retained. It invigorates the digestive organs and restores the appetite. It purifies and enriches the blood, and expels from the system the corruption which scrofula breeds on the lungs.
