**SATURDAY, APRIL 27, 1901.**

Fighting new theological doctrines is unprofitable. There is no universally accepted standard of theology. Results are the only tests of religious creeds. Time alone can correct their errors.

Earlham is to be congratulated on the result of the debating contest last night. The Earlham boys had the unpopular side of the question discussed, which fact adds to the importance of their victory.

The forthcoming bulletin of the state board of health will assert that the people of the state lose \$15,000 a day on account of the adulteration of common food products. The board claims the adulteration is widespread.

It seems to be settled that the Presbyterian creed will be revised by the general assembly which meets in Philadelphia the 10th of May. The revision will be in the doctrine of foreordination and predestination, which has been a bone of contention for many years.

In the supreme court yesterday it was held that the law of 1893 requiring the holder of any recorded mortgage which has been paid off to release it, under a penalty of \$25 and an attorney's fee of like amount, to be recovered by the mortgagee, is constitutional.

Attorney-General Taylor has given an opinion that insanity proceedings should be held by a justice of the peace exclusively under the provisions of the different insanity acts and that a town clerk has not the authority and jurisdiction to hear and determine such cases.

The bungling job that was made yesterday at Clayton, New Mexico, in the hanging of the notorious outlaw, Thomas K. Ketchum, suggests the propriety of the general adoption of electrocution in capital punishment. It is no argument against the infliction of the death penalty.

Orth Stein, a brilliant newspaper writer but notorious degenerate, died in New Orleans yesterday evening. He was a native of Lafayette this state and son of Ex-Senator Stein. Both his father and mother died of grief over the waywardness of the son, after spending a fortune to save him from the gallows.

Mrs. Benjamin Harrison who under the state law would be entitled to one-third of the general's estate, \$375,000, has filed formal notice of her intention to accept the provisions of the will, by which she receives \$15,000 in cash, the summer home in the Adirondacks, the use of the Indianapolis home during her life, and the interest on \$125,000 during her life. This settles all talk and any litigation which might have been possible.

The fact that over 600 delegates of the Indiana Travelers' Protective Association were present at the eleventh annual convention at Vincennes yesterday shows that the trusts have not interfered with the vocation of traveling salesmen. About a year ago there were many gloomy predictions concerning this business, and a good deal of unwarrantable political capital was made out of it in the last Presidential campaign. There are more traveling salesmen on the road now than ever before.

Yesterday the papers were full of the story of Frank Wilson and wife and D. C. Hazlrigg and wife all of Rushville and prominent in business and society there. Wilson, who was worth considerable money, died all he had to his wife but \$8,000 and left her. Mrs. Hazlrigg told her husband she had about all of him she needed and was taken home to her mother, where she said she thought much the most of Wilson anyway, and she and Wilson it was thought would go together. The second chapter of the story seems to indicate that Wilson is getting the hot end of it all round. Last night Mrs. Hazlrigg returned to her husband and they made up; and Wilson writes home from Chicago that he is a little bit sorry himself. The question now is, whether his wife will keep the

property and let him slide or whether she will forgive him.

Spring is here, gentle Annie, if just for today. Tomorrow—well, sufficient to the day is the evil thereof.

The robbers who carried away a 300 pound safe from an Anacosta, Montana, saloon, in broad daylight, evidently did not take away any of the "evil" goods in the establishment. They must have been sober and industrious men.

**A Richmond Man to Go Up.**

The Pittsburgh Dispatch asserts that L. F. Loeve of the Pennsylvania lines is to be made second vice president of the road and that J. J. Turner, an old Richmond boy, now general manager of the Vandallia lines, will be made fourth vice president, the position now held by Mr. Loeve. The reorganization of the Vandallia lines will be dissolved and the line absorbed into the Pennsylvania system, giving a continuous line to St. Louis.

**Milton High School Commencement.**

The sixteenth annual commencement of Milton high school was held last Thursday night at Kinsey's hall, in the presence of a large audience. The stage was very pretty in its decorations of blue and white, the class colors, while the jars of carnations, the class flower, lent fragrance as well as beauty to the scene. Palms and ferns were also used effectively, forming a pretty background for the graduates, the real objects of the evening's interest. The graduating class numbered five, and so uniform had been their work that class honors were dispensed with. The young ladies wore dainty white dresses, garnished with the class flower. All the orations were well written and distinctly delivered. The program was as follows:

Runge's orchestra of Richmond played between the numbers.  
Invocation—Rev. E. E. Urner.  
Wm. Ewart Gladstone—Miss Ida Moore.  
I Am an American—Frederick Laz.  
The Hope of Our Future—Miss Maudie Bell.  
The Healed Wound—Blanche Hale.  
The Light That Never Failed—Ralph Benton Lamb.  
Benediction—Rev. Wm. F. Shearer.  
Our neighboring towns were well represented in the audience.  
Solo.  
Dr. E. Detchon's Anti Diabetic.  
May be worth to you more than \$100 if you have a child who soils bedding from incontinence of water matter during sleep. Cures old and young alike. It arrests the trouble at once. \$1. Syld by A. G. Luken, druggist.

## THEY CELEBRATE.

The Odd Fellows of Richmond Jubilate in Proper Manner Over Their Age and Successes.

The celebration of the 82d anniversary of Odd Fellowship by the combined lodges of this city was a most auspicious event. No particular attempt at display had been made, and the affair was confined to the Odd Fellows and their families and their friends; and that was one trouble. The friends of the Odd Fellows at all events in Richmond, are legion. The result was that the entire Odd Fellows building that is devoted to lodge uses was overrun with people so that not near all who came could get in to see the exercises, which were put on in splendid style. They took place in the lodge room proper and opened with a selection by the orchestra, followed by prayer, then an anniversary address by L. A. Handley and the song "America." John Taggart sang a solo in his usual manner; a song followed by Miss Meda Roe, violin obligato by William Buhl, some remarks by William Buhl in blackface, a solo by Gus Eggemeier and recitation by Lillian Miliken. The benediction by the chaplain, Rev. Mr. Channess, closed this part of the program and was followed by the drills. Two degree staffs—Whitewater and Eden—were present and on account of the crowd each drill was repeated. While one staff was giving a drill before the bringing in one of the lodge rooms or the banquet hall the other drill was being given before the audience in the other room. It took nearly an hour for this part of the program, which ended in a most social dance in the banquet hall ending at midnight. The orchestra was composed of William Buhl, Frank Hasler, Harper Porter, violin; John V. Conley, cornet; John Kline, clarinet; C. L. Davis, trombone; Theodore Newman, drums; Elmer Hawkins, bass; Mrs. Mary Swaine, piano. Stereoscopic views of the order were shown by Hungerford and Baker.

The Richmond lodges of Odd Fellows are to be congratulated on their success, being among the most influential as well as richest orders we have in the city. Their personal property and real estate is valued at \$150,000. They have nearly 900 members outside of the membership of the Rebekah lodges, as follows: Whitewater lodge No. 41, organized May 21, 1847, now has 275 members; Herman lodge No. 139, organized May 14, 1858, has 199 members; Woodward lodge No. 212, organized May 20, 1859, has 212 members; Richmond lodge No. 254, organized March 12, 1866, has 225 members; Eden degree Daughters of Rebekah organized September 8, 1869, has 350 members; Herman lodge Daughters Rebekah, organized July 23, 1860, has 100 members.

The degree staffs giving the drills were: Whitewater—Gus Eggemeier, James Meyer, Edward Neff, John Darnell, M. E. Mason, E. O. Dunham, Frank Kitson, Frank Hore, George Johanning, Everett Ogden, L. A. Handley, Thomas Bradford, Harry Avey, Charles Jackson, G. W. Sauer, John Edwards, John Gaudin, Forrest Vansant, Gilbert Tracey, P. S. Sine, E. L. Evans, Wm. Paxson, Oscar McDearis, W. E. Evans.

Edon Degree—Mrs. J. M. Houts, Mrs. Jeff Wilson, Mrs. Frank Speckner, Mrs. W. C. Johnson, Mrs. M. E. Mason, Mrs. J. M. Glover, Mrs. Elmer Jenks, Mrs. Russell Stratton, Mrs. Reynolds, Mrs. Bradfield, Mrs. Lou Cox, Mrs. Wm. Moffitt, Mrs. Dornier, Mrs. Elmer Hall, Mrs. Ed Stevenson, Mrs. Geo. Scott, Mrs. McMan, Mrs. Meyers, Mrs. Personet, Misses Meule, Crampton, Pitman, Morrow, Foulke, Rost and Teale.

**G. A. R. and W. R. C.**  
Members of the G. A. R. and W. R. C. who are to attend the encampment at Logansport, May 14 to 17, can get entertainment in private homes in this place. Send to H. Douglass, Logansport, your names, grouped by twos, if you desire to room together, and he will return to you cards with addresses of your hosts. On arrival, guides will conduct you direct to those homes, saving you much time and annoyance.

**APRIL CROP OUTLOOK.**

Cold Snap, It is Said, Has Not Damaged Fruit—Good Crop of Wheat, Oats, Apples, Cherries, Etc.

The April crop bulletin, covering reports from all the counties of the state, was issued by State Statistician Johnson today. The reports were submitted by the county assessors, who have made a careful investigation of the crops and their conditions in their respective counties. The bulletin is compiled on a basis of 100 per cent, representing a full crop in each county.

Mr. Johnson says reports received from various parts of the state since the recent cold snap show that the fruit has not been injured in the least and that the crop conditions are continually improving. Plans will soon be sent out for the May reports which will be submitted to the printer by May 20.

The bulletin shows the following: Sixty-seven counties show an average of 70 per cent. of a full crop of wheat. Fifty-five counties show an average of 80 per cent. of a full crop of oats. Sixty-eight counties show an average of 82 per cent. of a full crop of timothy.

Sixty-nine counties show an average of 76 per cent. of a full crop of clover. Fifty-five counties show an average of 88 per cent. of a full crop of rye.

Twenty-two counties show an average of 83 per cent. of a full crop of barley. Fifty-nine counties show an average of 89 per cent. of a full crop of apples.

Fifty-nine counties show an average of 90 per cent. of a full crop of peaches. Fifty-five counties show an average of 90 per cent. of a full crop of plums.

Forty-eight counties show an average of 86 per cent. of a full crop of peaches. Forty-eight counties show an average of 86 per cent. of a full crop of plums.

age of 90 per cent. of a full crop of plums. Forty-eight counties show an average of 86 per cent. of a full crop of peaches.

**AN UNSTABLE MAJORITY**

British House of Commons May Soon Have a Surprise.

London, April 27.—The unstable character of the government has been received a pointed illustration last evening in the house of commons during the discussion on money votes. Numerous divisions were taken in a hurried manner, the government majority ranging from 40 to 90. In one case, that of the reduction of the salary of the attorney general, the government majority fell as low as 33. At the same time, the opposition, for although, as Herbert Gladstone, the chief Liberal whip, said in a speech at Leeds last night, "the government presented all symptoms of the decay, but it was impossible to think of another general election or alternative move," the Liberals are pleased to see so speedy a result of the government's war and financial policy.

The Nationalists were greatly disappointed at the outcome, because when this particular division was taken, 21 of their members were absent. It is evident that unless the government can maintain a strong underlying tone, which seems constantly to be alert in order to prevent an unpleasant surprise.

**TRADE REVIEW**

General Trade Manifests a Strong Underlying Tone.

New York, April 27.—Bradstreet's weekly review of trade today says: While adversely affected by unfavorable weather conditions, general trade manifests a strong underlying tone, which seemingly lacks only the advent of better weather to become buoyant. Cold weather has undoubtedly affected planting and germinating in some sections, but the probable damage to crops is not great, as earlier advances appeared to indicate. In some directions activity is pronounced, as, for example, in iron and steel, the production of which is apparently taxed to its capacity, though seemingly more to meet existing requirements than because of new orders.

The backward spring has worked to the advantage of dry goods, but the trade is looking up somewhat, and the promise of improved weather conditions. Heavy clearings continue to reflect a large speculative movement.

Railway gross earnings continue to show a steady upward trend. The receipts of the Northwestern lines being the best in their history, and Western and other roads are doing almost as well.

**Fish Poacher Killed.**

Akron, O., April 27.—A desperate battle occurred on Long lake, five miles south of this city, between Game Warden Charles Ruckle and Levi Fox, and Ed Frye and Frank Wages, who were caught in the act of fishing illegally with a net. Frye received five bullets in his body and died yesterday afternoon at the hospital in this city. Wages was badly wounded and is recovering.

**First Freshmen Exaggerated.**

Frankfort, April 27.—It now appears that the statement that 80 bodies had been recovered from the explosion in the powder works at Grisham was greatly exaggerated. The fact is that the number of killed is much under the early estimates, some now placing it as low as 25. Nothing definite, however, can yet be ascertained.

**A Demoralized Army.**

Vienna, April 27.—Wholesale desertion among the troops of the Turkish army owing to destitution and military neglect. Most of the deserters join bands of brigands, who plunder the population in various districts with impunity.

**TERRE TELEGRAMS**

The applications for the British war loan aggregate \$240,000,000.

Activity on an enormous scale continues to rule in the New York stock market. Tom Cole, colored, was hanged at Clinton, Ky., yesterday for the brutal murder of a negro woman last winter.

Failures in the United States for the week number 21, as against 212 last week and 182 in this week a year ago.

Eight new cases of bubonic plague were reported at Cape Town yesterday, four of which were Europeans and four colored persons.

Two men boarded a Central of Georgia train near Macon, bound and gagged the express messenger and secured \$500 carrying safely.

The dead almost dead body of Richard Starr was found in an alley at Frankfort, Ky. Friends suspect foul play, but there were no marks of violence on his body.

An anti-clerical demonstration was dispersed by the police at Lisbon yesterday. The figure of a Jesuit was burned in effigy by the mob, who indulged in anti-Jesuit cries.

L. P. Hunner, on trial at Alma, Wis., for illegal banking, pleaded guilty to the charge of receiving money after knowing the bank was insolvent, and was sentenced to one year.

Burglars boldly carried away a safe from the store of A. A. Anacosta, Mont. Statist, Mich., was hanged at Clinton, Ky., yesterday for the brutal murder of a negro woman last winter.

The Russian government has forbidden the exhibition at Moscow of Regnier's life-size portrait of Count Leo Tolstoy, representing him in the costume of a peasant and barefooted.

## JUDGE IS PERPLEXED.

Court Can't Decide Between Two Old Neighbors.

Bloomington, Ind., April 27.—Judge Martin of the circuit court has been hearing a suit over some property of the Bedford sons, the title of the case being Jackson vs. Palmer. The judge is well acquainted with both men, and knew them to have characters above reproach. There were but two witnesses, the two men in the case, and after they had concluded Judge Martin, wearing the expression of a "hung" jury, said:

"I confess I am unable to decide this controversy, and will not say either of these men has told an untruth, but will pass the case to you attorneys to prepare a special finding on facts."

**Eloped at Fourteen.**

Litton, Ind., April 27.—Miss Vangle, 14 years old, only daughter of Mr. and Mrs. Nelson Union, eloped on marriage intent with Jesse Moon, a prosperous farmer, 30 years old, living two miles south of this place. The wires are being used in every direction to intercept the marriage, the parents objecting because of the extreme youthfulness of the bride-elect.

**Released on Bond.**

Evansville, Ind., April 27.—Fred Best, Jr., accused of embezzling \$10,000 from A. Brown & Co. of this city, has been released on \$3,000 bond. His trial will begin next Monday, and it is said that he will offer no defense.

**Kicked to Death.**

Valparaiso, Ind., April 27.—William Salamander, 71 years old, of Chester, Ky., just across the river from this city, was kicked by a horse, dying shortly afterward. He leaves a family.

**TORE UP THE TRACKS**

Bellevue, People Indignant At Lack of Flood Accommodations. Cincinnati, April 27.—At Bellevue, Ky., just across the river from the eastern part of Cincinnati, a large indignation meeting was held last night because the Cincinnati, Covington and Newport street railway did not furnish boats for transfers at all the flooded points. The street railway claim that boats are in such demand that they could not be had at all places where the water was over the tracks. A considerable number of those attending the meeting and others later tore up the tracks for some distance in the more elevated parts of the town. At Ripley, O., the inundation is so complete that all business has been stopped since the water will not run away. The Ripley National bank at Second and Main streets is reached by a temporary elevated plank walk. From Main street to East 10th everything is submerged. The water has made a rise in the Scioto river has made the situation worse in the northern part of that city. Over 2,000 people have been driven from their homes in this city.

**Situation At Evansville.**

Evansville, Ind., April 27.—The river is rising slowly at above 40 feet. A stage of 40 feet is expected by Sunday afternoon. Farmers' houses are built on stilts and men are going about in shifts. Thousands of logs are passing here. The indications are that the river will begin falling here after Monday. The City of Pittsburg, which passed yesterday, reported hundreds of people homeless.

**Revisionists Score a Point.**

Pittsburg, April 27.—After a pleasant and harmonious meeting the committee on revision of the Presbyterian confession of faith decided upon two important features of the plan for revision, which will be presented to the general assembly. These features are as follows, and are the most urgently demanded by the Presbyteries: 1st, a new statement of the plan for revision, which will be presented to the general assembly; 2d, a revision of the confession itself, either by the addition of a declaratory paragraph or a change in the text.

**Marconi Will Marry.**

New York, April 27.—Miss Josephine Bower Holman of Indianapolis, a daughter of the late Justice J. A. Holman of the Indiana supreme court, and a cousin of the late Congressman W. S. Holman of Indiana, has confirmed the report that she was engaged to Signor Marconi, the inventor of wireless telegraphy. It is said that the marriage will take place this fall. Miss Holman is now living in this city with her mother and sister.

**Death of Orth Stein.**

New Orleans, April 27.—Orth Harper Stein, the well known newspaper man, died yesterday of consumption. Mr. Stein for nearly three years has been a member of the Times-Democrat staff, his chief work being the preparation of the "By and By" column, in which he established an enviable reputation. He was in his 33d year and was a native of Logansport, Ind.

**EDISON'S NEW MARVEL.**

**Magnetic Power For Extracting Iron Ore Attends How Edison Discovers.**

The story of how Edison discovered the process of transforming low grade nonmagnetic ore into high grade beset with difficulties, and the inventor's power is in itself a small romance. It has long been an accepted axiom that the low grade ore are repelled by the magnet. One day, however, Edison put several magnets together and observed a movement among the ore. He added several other magnets until he had 14, and then the rich part of the ore came into being. The influence of the accumulated magnets was attracted from the poorer constituents. Why this should be so Edison cannot explain. He himself was astonished at the discovery. Many great scientists in Europe, says the London Mail, consider that the result of this experiment is likely to have stupendous effect on industrial affairs.

The pivotal fact of Edison's discovery is the possibility of extracting specular hematite by means of magnets acting in tandem. This is a fact which has never been possible before. It has attracted English iron and steel owners, and Edison himself when he discovered it.

St. Paul, Minn., Jan. 4, 1901. Dear Sirs:—One can show no greater faith than by taking a remedy for one's health. No better testimonial of excellence can be offered than the recommendation of that remedy to one's friends. I have taken Paine's Celery Compound and it has cured me of my ailments.

## SECRETARY OF STATE.

Minnesota Has No Firmer Believer in Paine's Celery Compound.

Paine's celery compound has acquired its tremendous reputation for making people well by direct personal testimony from men and women who have used it. No testimonial has ever been published for this great remedy that could not be easily verified at first hand by one out of a hundred of cases.

For the guidance of thoughtful people who recognize the need of purifying the blood and regulating the nerves in the spring, the following letter to the proprietors of Paine's celery compound from Secretary of State Berg of Minneapolis will be of the utmost value in determining upon a trustworthy spring remedy.
