Hicks' weather prophecy warns that what he calls a storm period began today at noon and that heavy storms of rain, wind and thunder will be with us from now until after the 20th, with very cool nights to follow.

Charles Blanchard, the printer who read the first proofs of "Uncle Tom's Cabin," has just been adjudged insane at Logansport and will be sent to the asylum. He is an historical character, but is now seventy years of age and much broken in health.

Dr. Lyman Abbott in a recent sermon to the students of Yale made the statement that New York was the worst governed city in this country, with Philadelphia close second and Chicago third, and added that in any city where vice exists "it is because the citizens do not care enough about the stigma attaching to it to make those responsible for it pay the cost."

Muncie has a war on in the high school which is waxing so hot as to have attracted the attention of the school board. The sophomore class have adopted the shirt waist and held a meeting at which they passed a resolution warning the freshmen against wearing them. The freshmen rebelled, and there have been several fights over it. At last accords it was still unsafe for a freshman to wear one.

An interesting question is to be tested by the city of St. Paul, Minn. It is interesting because if the matter is decided in the affirmative it will have a similar law and enforce it. Nearly every woman has one or more wives who have skipped out and left them without either a divorce or any means of support. The last legislature of Minnesota passed a law which should be, and will be, copied by other states, making wife desertion a felony, punishable by imprisonment for one to three years, with a provision for a suspension of sentence if the delinquent husband will give bond to support the wife until divorced. Acting on this law, the state is asking requisition papers in the cases of thirty husbands, who have been located in various states they have gone to. If the requisitions are honored there will be more of it, and the result will be watched with interest.

Among other interesting figures given out by the state meeting of the G. A. R. are the ones showing the rise and decline of the membership. The department being divested of all political tenets, it stands on its own merits and any figures come from the increase or losses from natural causes. Starting then with twelve posts and 314 members, the department now has 470 posts, which is the highest number ever reached, but while the membership was in 1890 nearly 25,000 it is now less than 17,000. The loss in the last eight years has been 8,000, or one-third. This loss has been mostly by death, and indicates but too surely the near approach of time when the G. A. R. will vanish from the earth because the heroes who constituted it have answered the last roll call. By the way, one of the two posts at the Soldiers' Home at Marion is named after a good soldier as ever followed the flag, our late fellow townsman, Thomas W. Bennett.

Of all the notices of sympathy with President McKinley we doubt if Christianity has anywhere all over the world furnished a finer example than this from the Daily Chinese World, published in San Francisco, and edited by pagans.

"It is our custom that each household erect within the living room a shrine, before which the wife of this great man, the heart of his heart, for whom he has shown a devotion which may excite the admiration of any true-hearted man, be he Christian or our religious faith, and because of thousands of years of training it is sometimes difficult for us to agree on certain ceremonial laws, still our love for those whom we have taken to our hearts is identical, and the same tender love for wife and family is common for all mankind. Our sympathy for the President is as sincere and as intense as it could be were it expressed by his own people."

Officers Elected.

At the County Sunday School convention at Milton the following officers were elected for the following year: President—Rev. J. P. Chamness, Richmond. Vice President—W. J. Hiatt, Richmond. Secretary—Miss Caddie Bond, Richmond. Treasurer—J. S. Harris, Hagers town. Supt. of Home Department—Prof. O. L. Voria, Hagerstown. Supt. of normal work—Timothy Nicholson, Richmond. Supt. city schools—E. J. Humpe, Richmond.

Harvard Scholarship Awarded to a Richmond Boy

The many friends of William H. Lough Jr., now a senior at Harvard, and a son of W. H. Lough Sr., of this city, will be pleased to learn of his success as a student, and that he has been awarded a \$200 scholarship in the post graduate course of Harvard for next year. Such award is given entirely upon the merits of the student as shown by marks or grades made in certain lines of the higher branches in the regular course, and was gained over a large number of competitors. This favor may seem to be a small thing, but it is a very real thing, for Mr. Lough's expected course for the near future and enable him to continue at least another year longer as a student in Harvard, and better prepare him for his choice field of future work, journalism.

GREATER THAN EVER.

Up-To-Date Warfare Introduced in Buffalo Bill's Wild West.

Never since the organization of Buffalo Bill's Wild West and Congress of Rough Riders has there been so pronounced as during the present season. This can be accredited in a measure to the unique general character of the exhibition, and to the fact that it is in every respect different from any other exhibition now before the public. One material feature, that has added greatly to the drawing powers of the exhibition, is the timely production of the capture of Pekin. The details of the battle of Tien-Tsin being so recently and firmly impressed upon the minds and hearts of the whole world, that they welcome the enterprise of the management of the Wild West in affording them an opportunity to see this wonderfully realistic presentation of this famous battle; and at the same time, allow them to give expression of the patriotism, almost directly, to the many scores of the heroes of the allied powers. The audiences attending the Wild West have been, from the beginning, of a similar law and enforce it. Nearly every woman has one or more wives who have skipped out and left them without either a divorce or any means of support. The last legislature of Minnesota passed a law which should be, and will be, copied by other states, making wife desertion a felony, punishable by imprisonment for one to three years, with a provision for a suspension of sentence if the delinquent husband will give bond to support the wife until divorced. Acting on this law, the state is asking requisition papers in the cases of thirty husbands, who have been located in various states they have gone to. If the requisitions are honored there will be more of it, and the result will be watched with interest.

Cashing Pay Checks.

On the Pennsylvania lines the old practice of cashing checks on the pay card is again coming into vogue. For some years it has been the custom for the men, after receiving their checks from the pay card, to go to some bank or hotel or saloon where they are known and have the checks cashed. The present month, on some parts of the system—all which will soon be extended over all lines—checks are given without revenue stamps attached and the employee is required to rear of the car, where the check is paid. It is understood that this is the beginning of the end of the check system of paying wages, it being just as well to pay the men the cash as to carry cash on the car and then pay by check.

C. R. & M. Progress.

(Muscle Times) G. T. Stockwell and J. T. Helch of Boston, together with H. A. Christy of the C. R. & M. road, today drove over the route of the road from this city several miles to the south. The Boston men are practical railroad men and their visit here was for the purpose of an inspection of the company's progress. Commencing Wednesday of this week the track layers began to lay steel north from Richmond. Herring delays the gauge will be able to lay the steel at the rate of about a mile and a quarter per day. The work will be pushed as rapidly as a large force of men is able to push it.

Red is a danger signal on the railroad, on a fellow's nose and on a woman's face. Men and women use Rocky Mountain Tea. Ask your druggist.

SENIORS MUTINY

Graduating Class of Anderson High School May Have Trouble.

CLASS PLAYS "HOOKEY"

Picnic Was Preferable to Books and Now the Seniors Are Up Against the Principal.

Incidents and Accidents and Doings of Note Throughout Hooisierdom.

Anderson, Ind., May 18.—Most of the members of the senior class of the Anderson high school were absent yesterday from class work in violation of an order of Prof. J. W. Carr. The class numbers sixty, and commencement is but two weeks off. Invitations to a class picnic were issued by one of the members, but the matter was kept secret. It was the intention to take the entire membership without asking permission of the school officials, but Prof. Carr learned of the plan, ordered that it be not carried out and asked the parents of the pupils to co-operate with him in the effort to enforce discipline. But few of the students attended the classes yesterday, and the rest will be given an examination by the faculty on Monday morning. The "bolt" of the class may operate to prevent the graduation of some of the leaders in the insubordination.

TRAIN WRECKERS

Detectives Investigating Suspicious Circumstances On the Moon.

Bloomington, Ind., May 18.—Officers of the Moon railroad think systematic attempts have been made in the last three weeks to wreck passenger trains on the road. Two weeks ago a bridge was discovered in flames by a farmer's wife near Delphi, and she stopped a train by waving a signal of danger. Edith Emery, near Salem, discovered a bridge on fire last Monday, and she stopped the Chicago express in time to prevent a wreck. The officers thought the bridges had caught fire from sparks, but changed their minds when an attempt was made to wreck the express train from Louisville, six miles south of here, by placing a tar of iron five feet long on the rails, weighted down with a boulder.

Indianapolis Arsenal Grounds.

Indianapolis, May 18.—Major Frank Thorpe, an artillery officer from Fort Sheridan, arrived in the city today to examine the arsenal grounds, with a view to determining whether or not they can be utilized by the government for artillery or cavalry purposes. He was assigned by General Otis, at Chicago. Major Thorpe will make a report to the ordnance department at Washington, which will have the final disposition of the grounds.

No Extension of Time.

Franklin, Ind., May 18.—Splice bars needed for the construction of the road will be in running order by June 1. Under terms of the local franchise the road must be completed to Adams street, which is two blocks from the present terminus by June 1. The city council has declined to grant an extension of time.

Fatal Jealousy.

Terre Haute, Ind., May 18.—Harvey Crouse, a stable hand, shot and instantly killed himself yesterday after making a drunken assault on his sweetheart, Lee Taylor. He was one of the girls and fired at her twice, one of the shots striking her in the face and inflicting a slight flesh wound. Crouse thought he had killed her, and after wiping the blood from her face, fired a bullet into his right side.

Plumbers Still Out.

Terre Haute, Ind., May 18.—Terre Haute master plumbers and journeymen are still at the outs. Men are being brought from outside towns and old plumbers will be asked to remove their tools from the shops Monday if they do not yield. The men want a raise from 30 to 33 cents an hour for a 9-hour day.

Good Roads in Benton.

Fowler, Ind., May 18.—It is now certain that Benton county will have about 18 miles more of gravel road. The new line starts south of Benton, and runs in a northerly direction to Aydelott, thence southeast. This makes the county a total of about 163 miles of good roads.

Gasoline Instead of Coal Oil.

South Bend, Ind., May 18.—Mrs. Estella Cook was sold gasoline, as it is alleged, by mistake for coal oil, and she was using the fluid in burning garbage in her yard, when there was an explosion which set her clothing on fire. She was badly burned, and the result is problematic.

No Need For Police.

Madison, Ind., May 18.—The city council has voted free water to all factories, abolished the entire night police force, and ordered a reduction in the city tax from \$1.14 to \$1.12 on the \$100 valuation.

Fertilize Your Lawns.

This is a good time to fertilize your lawns and gardens. Pure animal matter is the best. Telepho e Tom Mertz, No. 163 and he will deliver it to you in any quantity.

It Saved His Leg.

P. A. Danforth of LaGrange, Ga., suffered for six months with a frightful running sore on his leg; but writes that Buckler's Arnica Salve wholly cured it in five days. For Ulcers, Wounds, Piles, it's the best salve in the world. Cure guaranteed. Only 25c. Sold by A. G. Luken & Co.

DR. FENNER'S
Blood & Liver
NERVE TONIC.

MRS. GAGE DEAD

Wife of Secretary of the Treasury Passes Away at Washington. Washington, May 18.—Mrs. Lyman J. Gage, wife of the secretary of the treasury, died at her residence, 1715 Massachusetts avenue N. W., at 9:30 o'clock last night, after an illness of nine weeks' duration. With her when the end came were her husband, her married daughter, Mrs. E. F. Pierce of Evanston, Ill., and Dr. W. W. Johnson, the attending physician. For

MRS. LYMAN J. GAGE.

a time before her death Mrs. Gage suffered considerable pain, but she maintained her bright and cheerful demeanor and was conscious to the last. Her trouble, the result of grip complications, was the immediate cause of death. Mrs. Gage was exposed to the inclement weather for about an hour on inauguration day, but at the time her health did not seem to have been affected. On the 11th of March she left for Evanston to visit her married daughter. While there she experienced a chill and took to her bed, and soon recovered sufficiently to return to Washington, where she had been confined to her room ever since. Mrs. Gage was a native of Albany, N. Y., and 58 years of age. She was married to Secretary Gage in Denver, Col., in 1887. There were no children from their union. Mrs. Pierce being a child by a former husband, Mrs. Pierce has two children living at Evanston.

QUIETING DOWN

Prospect of a Settlement of Albany Strike Subdues the Crowd. Albany, May 18.—A drizzling rain succeeding a warm, humid day made it unpleasant for the military guarding the city last night, but had the effect of clearing the street corners of crowds.

There was no repetition yesterday of the riotous disorders and turbulence that have marked the other days of the strike. There was the same imposing show of military strength, and in mid-afternoon 100 additional troops of the Ninth regiment of New York city were added to the already large force now on duty here. Two elements seemed to contribute to the quietness that prevailed, one the general anticipation of a settlement of the strike, and the other a feeling of sobriety that succeeded the night of the killing of William N. Walsh and L. Leroy Smith. More non-union men were brought into the city, but contrary to expectations, to an appreciable extent.

Will Preserve Order.

Atlanta, Ga., May 18.—Governor Canfield has ordered two companies of the state militia with ball and cartridge to report at Andersonville, Ga., for duty on May 20. This is done to preserve order at the famous Confederate prison and burial place of Federal troops, the negroes for years having made the Federal Decoration Day an occasion of drunkenness and disorder.

TELESE TELEGRAMS

SUSPICIOUS CASE

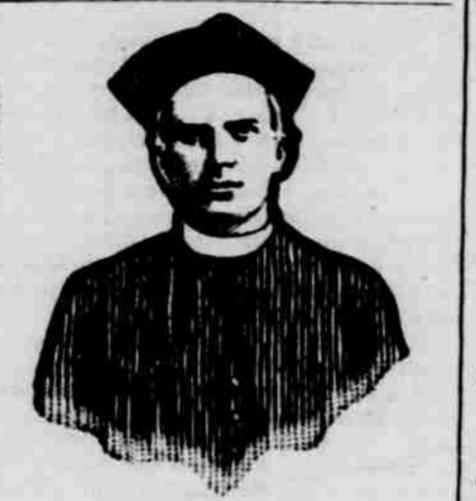

Father Phillips, Friend of Miners, Found Dead In New York.

WAS MISSING TEN DAYS

Decomposed Body Found In a Massur's Room, the Keeper of Which is Under Arrest.

Autopsy Reveals No Evidence of Murder, Though Conditions Are Suspicious.

New York, May 18.—The decomposed body of Father Phillips of Hazleton, Pa., the great friend of the coal miners, was found in the room of a massage operator in this city yesterday. Kirk Stanley, the masseur, has been arrested on suspicion. Decomposition had advanced so far when the body was discovered that a cursory examination was not sufficient to reveal the cause of death, and an autopsy was held. At the conclusion

FATHER PHILLIPS.

of the autopsy Coroner Bausch said: "A complete autopsy was made by Dr. O'Hanlon, and it shows no marks of violence, no fracture of any kind and no hemorrhage of the brain. The condition of the organs of the body would indicate that death was due to chronic nephritis and fatty liver. There was about a drum of dark fluid found in the stomach, the character of which cannot be determined except by chemical analysis. Owing to the suspicious circumstances attached to the case, it was deemed reasonably that a chemical analysis should be made of the organs, which will be sent to Prof. Withams. The matter now rests with the district attorney, and a justice of the peace court and will be held whether or not his sanction it cannot be made." Dr. O'Hanlon said: "The autopsy showed that the man suffered from chronic Bright's disease, fatty liver and heart, any of which would have been sufficient to cause death. Of course he might have been given a hot bath and might have been smothered. There were no signs of alcoholism in the stomach."

Assistant District Attorney Garvan said that he agreed with Coroner Bausch that an autopsy of the vital district attorney's office would authorize an analysis.

Father Phillips' friends expect to have a lengthy examination of the priest's acts to May 9—the day on which he is supposed to have met his death. The police theory so far is that the priest died in Dr. Stanley's room, either after having been drugged for robbery, or simply as a result of intoxication and excitement, and that Stanley was afraid to notify the authorities, putting it off from day to day. The case of the said late case, the priest, told conflicting stories. Mrs. Bornius, from whom Stanley leased four rooms, said the tenant claimed to be from San Francisco and called himself "Dr. Stanley." He was accompanied by a young woman whom he introduced as the priest's sister, and she was quickly seized by the police and remanded to the custody of the coroner. He refused to make any statement in court.

Scared Him Near to Death.

Waverly, Ia., May 18.—Mark Gilson, a young clerk in the postoffice here, has been lying in a stupor since Wednesday night, when he was initiated into the Modern Woodmen. His collapse occurred when he was spun about strapped to a revolving wheel. His body bears no marks of violence, and his condition is attributed merely to fright.

A Speedy Boat.

Bath, Me., May 18.—The torpedo boat Bagley was given an official trial of two hours at sea, and her performance was even better than that of the Barney. Her average time over the entire course was 29.2 knots. In the last hour she made 30 knots, and for a period of five minutes she attained a speed of 30.2.

A TRICKY QUEEN

Drags of Serbia, Gives European Counts Something to Talk About. London, May 18.—A remarkable state of affairs in the Serbian royal family has been revealed by official telegrams from Belgrade. The Vienna newspaper in February announced the announcement of Queen Draga, who was married Aug. 5, 1900. This was shown to be untrue. Recently the

QUEEN DRAGA.

same papers reported she was about to be confined. As the czar was one of the attending witnesses of the marriage, he sent a special envoy to investigate the strange rumors. The envoy summoned a trio of Russian and French specialists, who declared the queen was not encephalic, and an official notification to this effect, yesterday sent to the diplomatic corps.

GETTING READY

Battled for Big Machinists' Strike Will Be Cincinnati.

Cincinnati, May 18.—That Cincinnati is considered the center of the threatened trouble between the machinists and their employers scheduled for Monday next is evident by the announcement that a number of prominent labor leaders will arrive here tomorrow to open headquarters. Among those who will arrive here Sunday are: Samuel Gompers, president of the American Federation of Labor; Frank Morrison, secretary of the American Federation of Labor and one of the executive committee; John L. Lewis, president of the International Association of Machinists; Douglas Wilson, International secretary of Machinists' National Union, and John Mitchell, president of the United Mine Workers of America. While all of these leaders will not remain here, it is stated that President Gompers will be left in charge and manage the strike in Cincinnati and vicinity.

Caught in the Squeeze.

New York, May 18.—Gustave Edward Graft and Thomas F. Nevins, composing the firm of C. Nevins Graft & Co., stock and bond brokers, have made an assignment for the benefit of their creditors. The firm was a member of the consolidated exchange and was caught in the recent squeeze. The liabilities are said to be about \$300,000, with assets of \$150,000.
