One week, by carrier - .08

MONDAY, MAY 20, 1901.

The C. I. & E., which was trying to get in here at the time of the C. R. & M. subsidy election, are claiming a tremendous business between Muncie and Converse, such that they put on two more local trains between those points today.

Muncie reports a falling off in the number of school children this year, though it took them a long time to figure it out. Though they have taken in a good deal of outside suburban territory during the year they gained but twenty one, which is really a loss. They have 5,628 children.

The Cincinnati public schools have abandoned the vertical style of penmanship. The grounds taken by the board were that it is too cumbersome and its formation makes rapid writing impossible. The board did not adopt the old slant style, but a creed on medium between the two, known as the Barnes system.

Mrs. Virginia C. Meredith, principal of the School of Agriculture of Minnesota University, who is a practical woman farmer, states that the remedy for young farmers, crowding into the cities to make farm life more attractive for young women, Mrs. Meredith might have gone further had she so desired and told how attractive to the city man also is always the neat and well informed country girl when backed up by her father's broad acres.

The telegraph reports assert that the recovery of Mrs. McKinley was due to the injection of salt water into her veins, which was done as a last resort, and now the physicians are

With over 600 mounted men of all nationalities, in the costumes of the various countries, under the leadership of Col. W. F. Cody (Buffalo Bill), will appear here for two performances on Wednesday, May 22, and they will be seen at every performance of Buffalo Bill's Wild West and Congress of Rough Riders of the World. The features of this entertainment are well known to the world over, and with each succeeding annual appearance it is well known as an old friend, without which the season's entertainment would not be complete.

This season Messrs. Cody and Salisbury have new features added to their regular attractions, and these are features of peculiar appropriateness which will appeal to all classes of people. Russian Cossacks, Russian Arabs, Russian American Gauchos, Mexican Indians, Cowboys, American and German soldiers, have all been brought from their distant homes in all parts of the world. Col. Cody and Mr. Salisbury have perfected them in giving in the confined area of their arena, the sports, pastimes and war indulgences that are characteristic of their various peoples. With a few performers, knowing nothing of "show" business, and with a firm hand all is brought to order, and the first few days of the season are a masterpiece.

The timely, exciting and historic episode of the Capture of Pekin is made a great and attractive addition to the Wild West. This is a reproduction on a large scale of the Battle of Tien-Tsin. Special scenery has been made from photographs of the walls and surroundings, and the battle has been built as nearly correct as the limited space in the arena will permit. This is the most popular feature this season and there will be a peculiar interest awakened in the public who will wish to see soldiers of the allied powers representing the most exciting episodes of the war, and in which they were so much important actors.

Quite a number of Baden-Powell's heroic warriors have been engaged, and they will appear in the same old show with a magnificent band, the northwest mounted police, colonial guards, Canadian mounted rifles and other up-to-date horsemen.

MARION LOSES

The C. R. & M. Won't Touch Her Within Three Miles.

H. A. Christy, vice-president of the C. R. & M. railroad, was in the city yesterday, says the Muncie Times, and is authority for the statement that Marion positively will not get the road as it will miss that city two and one-half miles, and will fully three miles from the Marion court house. The hopes of Marion residents that the road would run to the place even without a subsidy are not well founded he says. The subsidy was defeated in Marion upon the theory that the road would come within it.

Big Bridge Contract.

The C. R. & M. has just closed a contract with the Wabash bridge company for the construction of all the steel bridges on the line from Muncie to North Judson. The most important are the bridges across the Wabash at Peru, that across Elkhart river near Mexico and across the Tippecanoe near Monticello. Besides these are a large number of smaller spans. The work, with the contract the company has on hands, will keep the works running until the close of the present year. The railroad contract alone is in excess of \$15,000, and the company has just completed another contract fully as large for the same line between Muncie and Cottage Grove.

"Dingle-Dangles."

Every lad from Adam time to the present has had its origin, not from deep thought, but from a sudden impulse of the inventor. The following is a good illustration of the prevailing fad in feminine apparel:

"Dingle-dangles" are the black cords or strings, tipped with gilt, which my lady wears in all sorts of absurd ways about her costumes at the present moment. They have no uses; they are often not pretty, and they are in the way generally, yet the world continues to be dressed properly now without them. And though the "newest" thing of the times, they are old, very old.

The present craze for "dingle-dangles" started in Paris, of course. A man-dressmaker there was wondering one day what he could invent that would be new and would catch the fancy of the feminine. He looked about at a print on his wall where upon was depicted a belle of centuries ago. He saw that her bodice was laced with cords, and that she ends hung in a bunch, showing metal tips, at her waist. He went out and secured a bunch of the strings that are used in Oxford-broad silken strings. These he tipped with some twisted gilt wire and made into a bunch, which he placed at the waist of a costume he was then making. They made a hit, and the craze for "dingle-dangles" has been active ever since.

LATEST BATTLE.

The Affair at Tien-Tsin to be Fought Here

With over 600 mounted men of all nationalities, in the costumes of the various countries, under the leadership of Col. W. F. Cody (Buffalo Bill), will appear here for two performances on Wednesday, May 22, and they will be seen at every performance of Buffalo Bill's Wild West and Congress of Rough Riders of the World. The features of this entertainment are well known to the world over, and with each succeeding annual appearance it is well known as an old friend, without which the season's entertainment would not be complete.

BIG STRIKE PENDING

Today Will Determine Extent of the Machinists' Strike.

Cincinnati, May 20.—No agreement has as yet been reached between the machinists' union and the National Metal trades association and one of the greatest strikes in the industrial history of this city will be inaugurated unless the labor leaders who arrived here today will succeed in bringing the warring interests together. President Gompers of the American Federation of Labor arrived from Columbus, O., this morning to take charge of the strike. In addition to Mr. Gompers, Thomas J. Kidd of the Amalgamated Wood Workers' union, John B.annon, treasurer of the American Federation of Labor, and other prominent leaders will assist in directing the strike.

General Strike Not Likely.

New York, May 20.—Whether today is but the beginning of a machinists' strike which shall rival the one in the engineering trades in England which played so important a part in the opening of the markets of the world to the Americans is problematical. Leading labor men and representatives of the leading employers think that pending questions will be settled without any general strike.

Calling Them Out At Chicago.

Chicago, May 20.—According to the decision of the executive board of District No. 8, International Association of Machinists, representing all union machinists of Chicago and vicinity, the general strike went into effect in this city this morning. The men are being called out as the business agent of the union visit them and find a refusal on the part of the employers to sign the scale.

Arbitration Was Refused.

Scranton, Pa., May 20.—The 1,000 Scranton and Wilkes-Barre employees of the Dickson Manufacturing company machine shop, a part of the Allie-Chalmers combine, refused to accept the company's offer of a 9-hour day and arbitration of the wage question, and went on strike this morning.

A Third of Them Out.

Philadelphia, May 20.—About 2,000 machinists went on strike in this city today for the 9-hour day. They are about 6,000 machinists in the city, employed by about 150 firms. Of these firms 47 went on nine hours today.

Dedicated to Peace.

Buffalo, May 20.—Today at noon a parade partly military and partly civic, with ceremonies of dignity befitting the occasion, the Pan-American exposition, devoted to peace, and the liberal and peaceful arts which it typifies. The great buildings in the exposition city are practically completed, and the installation of exhibits has proceeded very slowly, and completeness in that respect stretches away to some indefinite date in June.

Head Blown A Quarter of a Mile.

Guthrie, Okla., May 20.—The sawmill owned by Solomon Riley at Arlington, Lincoln county, was completely demolished by an exploding boiler. Engineer Otto McAnally was instantly killed. His 14-year-old nephew were both badly injured. Not a vestige of the mill was left standing. The remains were torn down 50 and 75 yards away.

Ready to Apologize.

Constantinople, May 20.—Ahmed Tewfik Pasha, minister of foreign affairs, called upon the ambassadors and notified them of Turkey's desire to re-establish the status quo in the post-war question, and her intention to send a high functionary, probably the foreign minister himself, to apologize for the violations of the foreign mail bags.

TERRESE TELEGRAMS

Brigadier General Frederick D. Grant has just returned from Manila. Everything connected with the Shamrock II is now in a satisfactory condition for a thorough racing trial.

A suspension of hostilities is reported on the part of the Colombian rebels, and the negotiators are believed to be negotiating to end the revolution. The returns for April, 1900, Germany's customs and trade figures show a decline of 3 per cent.

A cabinet crisis is reported to be imminent in Peru. It is said that the Peruvian cabinet is in a state of confusion, and that the government is threatened with resignation. The cabinet crisis is reported to be imminent in Peru. It is said that the Peruvian cabinet is in a state of confusion, and that the government is threatened with resignation.

The threatened strike of the manufacturing machinists of New York has been averted. The local members of the National Metal Trades Association have agreed to a 9-hour day and a wage increase of 3 per cent.

Minneapolis, May 20.—Katherine Germaine, playing the leading role in "The Highwayman" at the Metropolitan Opera House in this city, swallowed nearly one dozen strychnine pills Sunday afternoon and may die. She had toothache and a dentist gave her the pills with instructions to take one every three hours. The instructions were misunderstood and Miss Germaine took the overdose.

Grand Rapids, Mich., May 20.—Mrs. Elizabeth Wilson, alias Mildred Preston, alias Mrs. Zing, alleged clairvoyant, who has gained notoriety in many of the large cities of the country, has been convicted by a jury in the superior court of withholding Miss Ethlyn Quinby, daughter of a wealthy lumberman of this city, out of \$500. The jury was out only 20 minutes.

Centennial Celebration.

Frederick, Md., May 20.—To commemorate the centennial anniversary of the founding of their denomination, the quadrilateral conference of the United Brethren Church in Maryland, today dedicated their memorial church here with imposing services.

BLOOD

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor. There is nothing else to live on or by.

When strength is full and spirits high, we are being refreshed, bone muscle and brain, in body and mind, with continual flow of rich blood.

This is health. When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it.

Back of the blood, is food, to keep the blood rich. If it fails, take Scott's emulsion of cod-liver oil. It sets the whole body going again—man woman and child.

We'll send you a little to try, if you like.

SCOTT & BOWNE, 109 Pearl Street, New York.

TO ADJUST CREED

Presbyterians Seeking to Adopt New Articles of Faith.

Philadelphia, May 20.—The great question before the Presbyterian church for years—the revision of the confession of faith—will be taken up by the assembly on Thursday. The hearing and the consideration of the report of the committee upon the revision of the creedal statements of the church appointed at St. Louis last year, was made a special order for that day, and the matter will remain before the assembly until it is disposed of. At this time it is impossible to forecast the action of the commissioners. The committee in its report recommends the appointment of a committee as provided for in the form of government, and that this committee be instructed to prepare a brief summary of "The reformed faith, bearing the same relation to the confession which the shorter catechism bears to the larger catechism and formed on the general model of the consensus of 1802, or the 'Articles of faith' of the Presbyterian church of England."

There is a considerable number of commissioners who believe that such a committee will be appointed, but many of them will not venture an opinion as to what will be the character of the instructions to be given the new committee. There are six or seven factions, and each one will contend that the committee ought to be given instructions along the lines of its belief.

WARNING TO NEGROES

A Pennsylvania Town Dangles a Rope From Town Hall.

Cumtelsville, Pa., May 20.—The town is much quieted down after the terrible excitement of Saturday night over the murder of Assistant Yardmaster William Moore and the attempted lynching of William Fairfax, the negro murderer. By a counter excitement at 3 o'clock Sunday morning the police diverted the attention of the mob and then dashed down a rear way to the railroad with Fairfax and got him safely away to Uniontown jail. All day Sunday a heavy rope dangled from an upper story of the town hall, as a warning to the negroes of this vicinity. It is said that in answer to an advertisement for 500 workmen to work on big sewer improvement contracts, many negroes are coming from Roanoke, Va. The citizens are discussing means for self-protection during the next six months. It is not to the excitement of the fair, but to the excitement of the town hall, that the rope was hung.

Anti-Clerical Movement.

Mexico City, May 20.—The breaking up of the convent of the Carmelites in this city is believed to be the beginning of a movement all over Mexico to drive out monks and nuns living in communities in disobedience of the reform laws.

DIFFERENT OPINIONS

General Assembly of Presbyterian Church Confronted By a Problem of Long Standing.

The Issue Is to Be Met Squarely At Present Session and Action Is Expected.

TO ADJUST CREED

Philadelphia, May 20.—The great question before the Presbyterian church for years—the revision of the confession of faith—will be taken up by the assembly on Thursday. The hearing and the consideration of the report of the committee upon the revision of the creedal statements of the church appointed at St. Louis last year, was made a special order for that day, and the matter will remain before the assembly until it is disposed of.
