FACTS IN FEW LINES

Canada last year added 541 to its railway mileage and Mexico 640.

The Paris fortifications are to be razed and a boulevard constructed at a cost of \$10,000,000.

In England builders strike more often than any other workmen. Next come colliers and then cotton and wool spinners.

During the first half of this year 261 textile mills were built, of which 143 were cotton, 53 knit goods and 25 miscellaneous.

Exports of horses and mules in Missouri last year brought a return of \$9,000,000, and a great deal of the money came from foreign countries.

The St. Louis Globe-Democrat suggests that the world's fair there in 1903 can make a hit by giving a practical illustration of the best systems of public bathing facilities.

The Dominion government lobster hatchery at Caribou, N. S., this season has put out 100,000,000 lobsters along the coast of Nova Scotia, New Brunswick and Prince Edward Island.

Experts have come to the conclusion that what kills so many trees in London is not the soot flakes or the want of air or the drought, but the sewer gas, which attacks the roots, so that the tree soon withers and dies.

The terms "dowager" and "chaperon" seem likely in the near future to fall into desuetude. Nowadays women not only refuse to grow old, but they dislike titles which seem significant of a too mature acquaintance with Anno Domini.

There is a standard joke about thieves carrying off redhot stoves, but this is equalled by the recent theft of two modern six inch Spanish guns at Santiago, Cuba. They were carried into a forest and broken up, but the thieves were captured and are now in jail.

Parts of Australia are becoming lively rivals to Canada and the United States in the European apple trade. Tasmania especially has been found a first class apple raising country. There are 8,373 acres in apple orchards there, and the product in 1899 was 363,015 bushels.

After a thorough study of the drink question in Russia Stanislas Prosper, a St. Petersburg editor, has published a book in which he seeks to prove that the government monopoly and the closing of saloons on Sunday have led to a great diminution of the evil of intemperance.

In Illinois the foreign white persons and the native white persons of foreign parentage represent a little over one-half the entire population, 40 per cent in Idaho, 18 to 20 per cent in Delaware and the District of Columbia, over 8 per cent in Florida and less than 2 per cent in Georgia.

Singapore Chinamen are indignant with the English on account of the Duke of York's visit. Some officials thought fit to decorate the hats of the jirikisha men with gold buttons, the Chinese mark of mandarin rank, and the Chinese in the colony refuse to accept apologies for the insult.

Subscriptions are discouragingly slow to the proposed memorial to Sir Arthur Sullivan in London. Hardly anything has been contributed in this country, and personal friends of the late composer will probably supplement the money on hand sufficiently for the erection of a statue on the Thames embankment.

During the recent Ashanti campaign the megaphone was tried by the British officers for giving orders, since the columns traversing through the African bush were so long that it was impossible to convey orders in the usual way. The experiment was unsuccessful, however, because the thick jungle and the winding paths prevented the sound from traveling.

Though it does not cause so much excitement in the world, the apple crop of the United States exceeds in value even its wheat crop. Last year, for instance, the apple crop was 215,000,000 barrels, or 538,000,000 bushels. At a base of \$2 per barrel, which is considered a conservative estimate, the crop netted \$430,000,000, or nearly \$107,000,000 more than the value of the wheat.

The trees now growing on the farm (near Franklin, N. H.) where Daniel Webster was born are to be cut up into friction matches, a manufacturing company having paid \$2,800 for the standing timber upon it. The legislature of New Hampshire refused at its late session to pay \$3,000 for the entire farm, though many patriotic citizens of the state petitioned to have it preserved as a perpetual memorial of New Hampshire's greatest son.

About twenty-five years ago government engineers decided to pave Pennsylvania avenue in Washington with asphalt. That was the beginning of the general use of the scientific mystery of street pavements. Today over 234,000,000 square feet of street pavements in the United States and Canada are covered with asphalt. This asphalt paving would make a boulevard twenty-six feet wide, over 1,750 miles long and would reach from New York to New Orleans and then have several miles for side streets.

An instrument called the gradometer has been designed to enable the occupants of any vehicle to determine at a glance every inequality of the ground over which they are traveling. The new instrument may be attached to the side of the seat of any vehicle or to the top tube of a bicycle, and the grade the vehicle is ascending or descending can be seen in an instant. The instrument consists of a nickel plated casing containing a curved glass tube filled with spirits, leaving a small bubble, which acts the same as a spirit level.

A. J. Cottingham went to Washington county, Ark., to see his sister and while there was taken with flux (dysentery) and was very bad off. He decided to try Chamberlain's Colic, Cholera and Diarrhoea remedy and was so much pleased with the prompt cure which it effected that he wrote the manufacturers a letter in praise of their medicine. Mr. Cottingham resides at Lockland, Ark. This remedy is for sale by A. G. Luken & Co., and W. H. Sudhoff, druggists.

Notice to the Public.

On and after October 1, 1901, street car tickets will not be sold by conductors and motormen, but may be had during business hours at Ross' drug store, near eighth and Main streets, at the present rate of six for 25 cents.

FAVORITE Base Burners

Have advantages over all others—They have more radiating surface and will do more heating with the same amount of fuel than any other base burner of corresponding size made.

FAVORITE... .. Steel Plate Ranges

Excel All Others,
Are More Durable
Bake Better
Use Less Fuel.

Every Range Warranted Perfect

Peter Johnson Stove Store.

We are
Always
Anxious

To have our goods compared with other makes—that invariably is our best and strongest argument. We tell of the various qualities of the Hart, Schaffner & Marx clothing, and then ask you to come and examine the garments, look at every feature, test all our claims. Our line is much more than we have ever said of it. Yoke, Varsity, Riton and Regular Overcoats are special features.
