Any person who has waded
through the Schley investigation
must be impressed with the fact that
up to this time Admiral Schley's
reputation has gained nothing by it.

The consulate at Zanzibar is vac-
ant. It has been occupied by three
Indians in succession; all of whom
resigned. Any Hoosier out of a job
would do well to apply for the place.
Address Theodore Roosevelt, Presi-
dent of the United States. For lo-
cation of Zanzibar consult any old
map.

As an evidence that natural gas is
rapidly falling in the gas belt the
price of gas at Elwood has been nearly
doubled lately. That city is in the
heart of the belt. The time is evi-
dently not far distant when Rich-
mond will again be on an equal foot-
ing with its neighbors in point of
fuel.

Congressman Charlie Landis will
be the chief orator at the banquet to
be given by the Marquette club at
the Chicago Auditorium October 9,
in celebration of the anniversary of
the great fire. "William McKinley"
will be Mr. Landis' subject. Indi-
ana orators are in demand every-
where and for all sorts of occasions.

There is no better prosperity
barometer than postoffice business.
According to that the business of
this country is growing at an enor-
mous rate, especially in the large
cities. The postoffice receipts at In-
dianapolis the past month were
\$2,200 larger than in the same month
last year. The Chicago postoffice is
literally swamped with business. Al-
though the fall and winter season of
heavy shipments of second, third and
fourth class matter has only just be-
gun, the mailing division of the post-
office is already unable to handle the
matter sent into it, and even by the
employment of every man in the di-
vision all day long on Sunday it is
unable fully to catch up with the pre-
ceding week's unfinished work. Last
Saturday night there were 1,200 sacks
of second, third and fourth class mat-
ter left over undistributed after the
day's work. This meant that every
man had to be kept busy all day Sun-
day, and that there were still
seventy-eight sacks unhandled at
the end of the day. The second,
third and fourth class matter han-
dled at that office has grown since
the last of August from twenty-five
and thirty-five tons to fifty-five and
even seventy tons a day. In addi-
tion to this the first class matter
(letters) averages eighty tons a day.
There are men yet living in Chicago
who can remember the time when
the postmaster of that city could
carry a day's first class mail matter
in his hat. There are 631 men em-
ployed in the Chicago postoffice and
still they cannot keep up with the
increasing business. It is now
feared that the mammoth govern-
ment building being erected in that
city will be inadequate for the post-
office business.

ECONOMY.

Charley Harris has sold his prop-
erty to Philip Replegle.
Quite a number from here attended
the yearly meeting at Richmond the
past week.
Rev. J. M. Kovich of Daleville
preached at the U. B. church Mon-
day night.
Perry Cain of Williamsburg was in
town Monday.
James Atkinson has purchased
Philip Replegle's property south of
town.
Mrs. Ella Conley of Richmond is
visiting relatives here.
Mrs. Lena Lawellen of Detroit is
the guest of her mother, Mrs. Mary
Cook.
Mrs. Etta Gadd's and children of
Madoc called on relatives here Satur-
day.
Quarterly meeting at the U. B.
church one week from next Saturday
and Sunday, October 12 and 13.
Mr. Joe Cain and daughter, Win-
fred, of Anderson are the guests of
James Atkinson and family.
Mr. and Mrs. Frank Gibson of
Muncie were the guests of relatives
over Sunday.

AMUSEMENTS.

PRINCE OTTO TONIGHT.
When the Kansas City Star says a
good word for a show, you can al-
ways depend upon it that the show is
worth it and has earned the notice.
The critic on that paper is worse than
Willie Winter when it comes to find-
ing fault. He has this to say under
date of September 2 for Glazier in
Prince Otto, which is the attraction at
the Gennett this evening. Those
who have not reserved their seats can
do so feeling certain of being nicely
entertained.

The organization, including the
star, Harry Glazier, compares favor-
ably with the original cast. Although
he is not well known in this city, Mr.
Glazier has had considerable experi-
ence in the romantic drama, and he
is an actor of very acceptable accom-
plishments. He resembles Mr. Skinner
somewhat in size and features and
is not unlike him in method. He
takes his honors as a star easily and
modestly and yet has the bearing of
authority without which even so un-
usually a prince as Otto is shown to
be for a time cannot command re-
spect.

A few members of the Skinner
company are still in the cast, which,
as a whole, is really an excellent one.
Miss Elizabeth Lea, the princess, has
beauty, fervor and dignity. She may
seem a little too girlish to realize all
the qualities of the assertive Sera-
phina, yet she is none the less en-
tertaining for that. Miss Catherine
Countiss is a particularly vivacious
and charming Countess von Rosen.
The Mme. Paffnitz of Miss Katharine
Miller is another very pleasing
characterization. All of the Skinner
costumes and scenery are used, so
that the production, in a material
way, is identical with the original.

POPULAR LECTURE COURSE.
The sale of tickets for the Popular
Lecture course begins tomorrow and
its success is beyond question, for the
reason that about the only chance we
get to see entertainments of this
calibre is through this source. Lec-
tures and the like, under regular
opera house management have for
some time been known among the
managers of play houses as "Dead
ones." As a general thing people
go to shows to be entertained, not
instructed. They will once in a while
turn out to something that is meant
to teach, but not often enough to
make managers feel safe with them;
they are too apt to lose money. The
people who patronize lectures, too,
are not regular patrons of the play
houses, and are exceedingly
shy as to what they do attend.

When they go, they want a sort of
guarantee that what they are going
to see will be such as they can ap-
prove of, and worth their time and
money. For that reason the popular
lecture course is always successful.
It is well managed in the selection of
attractions, and in every other way.
The price, too, is awfully cheap.
Think of six fine lectures and mu-
sical entertainments for a
dollar, and these guar-
anteed by Earlham college and the
First English Lutheran people. Then
consider what they have to offer—
Ernest Seton-Thompson, the Men-
delssohn Quartette Co., Durno-Em-
met combination, Fred Emerson
Brooks, and J. P. Dolliver. The
first in the course is Mr. Thompson.
The second, the Quartette, has Mar-
guerite Smith with them, and her
performance alone is worth the whole
dollar.

"WAY DOWN EAST."
The novel snow storm in the pro-
duction of "Way Down East," which
is to be given at the Gennett next
Saturday, October 5, is worked by
electricity. The scene is a kitchen
with a door and window. About
ten feet above the floor and just at
the stage right of the door are erect-
ed appliances so placed that the
wind causes the air to take a sort of
a whirling course down past the
door and the window. The papers
are dropped from a box while salt
goes from cylinders into this wind.
The beautiful snow beats against the
window and when the door is opened
the wind and snow whistles chill in
the doorway.

FOXY GRANDPA.
An idea of how successful "Foxy
Grandpa" has been since its incep-
tion some few weeks ago can be
readily understood when Atlantic
City gave over \$12,000 in two weeks
while the three weeks' engagement
of Buffalo netted nearly \$16,000, and
from every indication will play to
nearly \$7,000 in Baltimore this week
at Ford's.

The following is the program for
the Home Minstrels for the benefit of
Hokendauqua tribe of Red Men at
Phillips opera house tomorrow evening:

THEY ARE ANXIOUS

Britons Are Looking to South Africa
With Anxiety.

London, Oct. 2.—Within two weeks
the war in South Africa will have
entered upon its third year and in the
face of a recrudescence of organized
operations by the Boers and of the im-
possibility of carrying out Mr. Brod-
rick's promise to reduce the war ex-
penses by sending home some troops,
the government organs are again be-
coming restless.

There is a mystery surrounding the
operations and the whole situation in
Natal and the denials and evasions of
the war office concerning the alleged
friction between Mr. Brodric and
Lord Kitchener form the subject of
editorial protests on all sides. "We
have the right to expect," says the
Standard, "that the government will
lose no time in sending out such ample
reinforcements as the military chiefs
on the spot deem necessary." The
Daily Mail, which finds evidence that
Lord Kitchener is in a difficult
predicament and fears that the govern-
ment is delaying reinforcements out of
a desire to avoid summoning parlia-
ment to vote the necessary supplies,
warns the government that if this be
the case a grave risk is being run.
Similar protests are made on all sides.

CHURCH CONVENTION

Protestant Episcopal Conference at
San Francisco.

San Francisco, Oct. 2.—The general
conference of the Episcopal church
was opened with impressive commu-
nion services in Trinity church today.
The convention will be largely attend-
ed. Ninety bishops, 400 clergymen
and 2,500 laymen are expected. The
convention promises to be the most
notable since the original convention
112 years ago. Many important ques-
tions are scheduled for consideration.
Foremost among them are the final
acceptance of the constitution drafted
by the convention at Washington in
1888 and since carefully scrutinized
by every diocese in the country; the
canons or laws of the church; the special
report on the canon on marriage
and divorce as understood by the Epis-
copal church, and the church's course
toward Porto Rico, the Philippines,
Hawaii and Cuba.

According to the rules of the church
the convention is presided over by the
bishop of longest service present. Ac-
cording to this rule Bishop Tuttle of
Missouri is the presiding bishop.

Caught By a Train.

Elmira, N. Y., Oct. 2.—John Nevills,
of New York, a prominent newspaper
writer and inventor, was killed by an
Elrie freight train six miles south of
here last evening. Nevills was the in-
ventor of the international cable and
telegraphic code in use in all parts of
the world.
