

RED IN THE BLOOD

is the sign of life, of vital force, of the force that life has, of the force that life is.

When the red is lacking, life is weak, the spirits are weak, the body is weak.

Scott's emulsion of cod-liver oil puts red in the blood and life in the body.

It's the food you can turn into muscle and bone and nerve. It gives you the mastery over your usual food—you want that. What is life worth if you've got to keep dosing yourself as an invalid?

Red in the blood! get red in the blood!

We'll send you a little to try, if you like. SCOTT & BOWNE, 400 Pearl street, New York.

LOOKING INTO IT

Gas Consumers at Muncie Are Going to Investigate.

Muncie, Ind., Nov. 8.—It is stated that the Muncie Natural Gas company, whose patrons are shivering and even have to go to bed as soon as dark comes on, because there is not enough gas to make a light to read by, has refused an offer from the American Sheet Steel company to supply them with 6,000,000 to 8,000,000 cubic feet of gas daily. It was offered at 8 cents a thousand. The gas company at present is getting 12 cents from consumers. The people still insist that the gas company is manipulating affairs to force the consumers to join them in advocating the advance in rates that the company demanded permission to enforce. There is great indignation since the story of refusing to accept the gas has been circulated.

Preparations are being made by the citizens at least to accept the proposition of the gas company to investigate the wells and reducing station. If it is done the committee will secure experts from other cities and go to the plants when not expected.

Young Girl Wants Damages.

Delphi, Ind., Nov. 8.—In the circuit court Miss Flossie Fife, aged 15, is suing Miss Margaret Knettle for \$5,000 damages. Miss Knettle is a daughter of the late Jacob Knettle, who left a valuable estate. The plaintiff made her home with Miss Knettle for nearly a year. It is alleged that after Miss Fife left the home of Miss Knettle the latter circulated slanderous stories about the girl and Dr. Campbell of Flora. Dr. Campbell has also filed a suit against Miss Knettle for \$5,000 damages.

Indignant Farmers.

Alexandria, Ind., Nov. 8.—The farmers of this section of the state are forming "hunting trusts" and refuse to permit a town hunter on their lands. The trusts include almost everyone who has a truck patch. The farmers are indignant over the law which prevents any man from chasing a rabbit on his own farm unless he has a written permit, and their new trust is a retaliatory measure.

ARGUMENT ENDED

The Court Now Has the Schley Case All to Itself.

Washington, Nov. 8.—After sittings covering 40 days and with a record which when completed will cover about 2,000 pages, the Schley court of inquiry yesterday at 3:45 p. m. adjourned its last public session. To Captain S. C. Lemly, the judge advocate, had been assigned the duty of making the closing argument in the case, and soon after he had completed his speech Admiral Dewey, bringing his gavel down upon the big flat table, said: "There being no further business, the court is adjourned."

As was the case Wednesday, when Mr. Rayner spoke, the attendance was large. The entire time was devoted to Captain Lemly's address. He read his speech in clear and distinct tones and was given careful attention. The speech in the main was an analysis of the testimony, but occasionally a conclusion was drawn and frequently there was criticism of the course pursued by the admiral (then commodore) Schley. Speaking of Commodore Schley's conduct, Captain Lemly said: "From my knowledge of the man, having served under his command on two cruises, I have never believed, nor do I claim from the evidence that personal misconduct, or to call a spade a spade, cowardice, was exhibited by Commodore Schley in any part of his career as commander in chief of the flying squadron. But I submit with regret that in the passage from Key West to Cienfuegos, while at the latter port, en route to the southward of Santiago without settled destination in the retrograde movement, in return to Santiago, and in the affair of May 31, the commodore exhibited unsteadiness in purpose and in push and failure to obey orders."

This statement was made toward the close of Captain Lemly's remarks. After the adjournment the members of the court, Admiral Schley and counsel lingered for a time about the hall in which they have spent so much of their time, and there were many affectionate words of farewell spoken. Admiral Schley as usual was called upon to receive the greetings of a number of admirers, and a hundred or more people waited at the door of the building to bid him adieu.

Suspicion of Suicide.

Chicago, Nov. 8.—Relatives of Henry C. Hastings, a milk dealer, believe that a body found in a vacant lot at Covington, Ky., yesterday under circumstances that indicate a suicide or a murder is his. They base their belief on the fact that he has been missing since Wednesday, that the name of the man found is the same as his; that the descriptions are practically alike and that Hastings was despondent and had talked of suicide. Hastings some years ago was tried for the murder of Attorney Hillard and was acquitted on an insanity plea. Mr. Hillard was attorney for Hastings and the latter was not satisfied with an accounting, claiming that some \$5,000 had disappeared. The milk dealer waited for the lawyer in the Rookery building, where the latter had an office. When the attorney appeared his client shot and killed him. Hastings spent two years in jail, but finally was freed.

This is an average of 1850 inhabitants to the square mile, showing Norway to be the most thinly settled of all European countries.

Rheumatism

Omega Oil

Many people believe Rheumatism is a disease of the blood. Perhaps it is, and perhaps it is not. If it is a blood disease, why is it the pain often stays in the same place? Why is it the blood doesn't always carry the disease all over the body and into every muscle and joint? Your doctor may be able to explain it, but it is all guesswork anyhow. Omega Oil is what you ought to use for Rheumatism. It is to be well rubbed on the place where the pain is. No matter whether the trouble is in the blood or not—Omega Oil goes in, finds it out and cures it. What's the odds so long as you get relief? Drink plenty of fresh water every night and morning while using Omega Oil. The water will keep the kidneys well flushed, and will bring about a quicker cure of Rheumatism. Try this plan for two weeks and see the result.
