## SEVEN PERSONS KILLED

Fierce Resistance to a Proposed In  
novation Leads to a Serious and  
Riotous Demonstration.

Twenty Thousand Athenians Assem  
ble At the Ruins of the Temple  
of Jupiter Olympus.

Athens, Nov. 22.—The agitation against the proposal to translate the Gospels into modern Greek was continued yesterday. Twenty thousand persons assembled around the ruins of the Temple of Jupiter Olympus and took part in a demonstration organized by the students. A resolution was passed calling on the holy synod to excommunicate any person who translated the Gospels into Greek as now spoken. Eight hundred marines were landed and co-operated with the troops in patrolling the locality. Several collisions occurred and occasional shots were fired. The students still hold the university buildings. During the demonstration following the assemblies, several shots were fired at M. Theotokis, the Greek premier, but without effect. During the encounters between the military and the turbulent demonstrators, seven persons were killed, 30 were severely, and many others were slightly wounded. Great excitement prevails. Strong military detachments guard the palace and the residence of the premier. Everywhere anxious groups are discussing the situation. Heartrending scenes occurred when the bodies of the dead were handed over to their relatives.

It is rumored that armed men have arrived at the university, but the building is still guarded by the students, who are adopting military discipline. Opposition deputies paraded the streets during the day, exciting the rioters by violent language. Among those slightly injured are the prefect of police of Athens and the prefect of Attica. A force of 800 marines have been landed to help maintain order. As a result of the demonstrations the metropolitan has resigned his office.

## SECURING THE DEAD

First Estimate of the Loss of Toll  
Bridge Changed But Little.

Telluride, Colo., Nov. 22.—The number of victims of the terrible disaster in the Smuggler Union mine is now known to be at least 29, with a considerable portion of the mine yet unexplored. Besides the 23 bodies already taken out and identified, six have been located in the north end of the ninth level, but the gas is still too strong to permit the rescuers to reach them, and their identity is as yet unknown. Several members of the searching parties were overcome in their efforts to bring out the bodies last evening. It will probably be some time before they can be reached, or any further explorations made.

## MORE GRAVE ROBBERS

Indianapolis Ghouls Again Ply Their Horrid Trade.

Indianapolis, Nov. 22.—The discovery was made yesterday that the body of Mrs. Cora Shaw, 28 years old, wife of Perry Shaw, who died a week ago last Saturday, has been stolen from the New Hope cemetery, north of Millersville. Jacob Sargent, son of John A. Sargent, whose body was found at the Central College of Physicians and Surgeons of this city, saw that the grave of Mrs. Shaw had been disturbed. In company with the woman's relatives he investigated and found that the body was missing. Search was made of the medical colleges, but the body was not found, and it is believed that it has been sent to another city.

The fact that the cause of Mrs. Shaw's death was of interest to the medical profession is thought to have led to the theft. New Hope cemetery is in the same neighborhood as Ebenezer cemetery, from which the body of John A. Sargent was stolen recently. This with the despoiling of the grave of Ebenezer makes the third case of grave-robbing within a few weeks.

## A NEW MOVE

MINERS IN THE EARLINGTON DISTRICT  
MOBILIZE FOR SOME PURPOSE.

Earlington, Ky., Nov. 22.—In the coal mine regions the miners are conflicting. All of the striking miners have been ordered by President Jas. D. Wood of the United Mine Workers of this district to report at the Madisonville camp at once. This order was issued yesterday afternoon and runners were sent to the various quarters of the district where the men assemble. The miners mobilized last night, coming in solid from all sections. The Madisonville men started out yesterday afternoon and last night traveled over the country to Nortonville. Most of them carried their arms. Men struggled all day. In the case of resistance on the part of the miners, Adjutant General Murray has two companies of militia on hand. It is probable that battery A of Louisville and other troops will be called. If the coal operators are called upon they can furnish 300 or 400 good tried men.

Another story is that miners will move to a point across Pond river, in Muhlenburg county, just over the Hopkins county line, where they will establish a camp. Yesterday afternoon General Murray and Judge Hall held a long conference, at which their plans were discussed. President Wood at Central City talked over the telephone last night with correspondent at Madisonville. He said he had been in conference with officials of the United Mine Workers yesterday concerning a line of policy and that a decision would be reached today. He expressed the opinion that the men would not disband. He says he does not look for trouble with the militia, and that he considers the general situation very satisfactory. There are at present 150 men in camp, President Wood stated, and these forces could be raised to 1,500 men within 12 hours.

MINERS MUST BREAK CAMP.

Frankfort, Ky., Nov. 22.—John Brasher and Representative Bradley of Hopkins county, representing the miners camped in that county, who are resisting the attempt of County Judge Hall to disperse them, were here yesterday in conference with Governor Beckham to ascertain whether the state troops stationed at the mines will be used to break up the camp. At the close of the interview with them, the governor stated that the troops would remain under the orders of Judge Hall and would do as he directed. Judge Hall's injunction to the miners was to break camp by Saturday next or he would disperse them with the aid of troops.

Over-Work Weakens  
Your Kidneys.

## UNHEALTHY KIDNEYS MAKE IMPURE BLOOD.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglect kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though he had heart trouble, because the heart is overworking in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases

and is sold on its merits by all druggists in fifty-cent and one-dollar sizes.
